## 5. MAINTENANCE

---

### 5.1 Cleaning Your Watch

To clean your watch, wipe it gently with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials, as these can damage the watch case, crystal, or strap. For the leather strap, avoid excessive moisture.

### 5.2 Water Resistance

This watch is water-resistant to 50 meters (WR 50M). This means it is suitable for showering, bathing, and recreational swimming. However, it is not recommended for diving or snorkeling. Do not operate the crown while the watch is wet or submerged.

The watch uses a standard watch battery. When the battery needs replacement, it is recommended to take your watch to an authorized Timex service center or a reputable watch repair professional to ensure proper sealing and maintain water resistance.

## 6. TROUBLESHOOTING

---

- **Watch Not Running:** Ensure the crown is fully pushed in. If the watch still does not run, the battery may need replacement.
- **INDIGLO Not Working:** Check if the crown is fully pushed in. If the backlight still does not activate, the battery may be low or depleted.
