## 4. Handling and Care

- **Clean Hands:** Always handle cards with clean, dry hands to prevent oils and dirt from transferring to the card surface.
- **Edge Protection:** Be mindful of card edges and corners, as these are susceptible to damage. Avoid bending or creasing cards.
- **Protective Sleeves:** For valuable or rare cards (autographs, memorabilia, short prints), immediately place them in soft sleeves and then into rigid top loaders or magnetic holders.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading and discoloration.

## 5. Storage Recommendations

Proper storage is crucial for preserving your card collection:

- **Temperature and Humidity:** Store cards in a cool, dry environment with stable temperature and humidity levels. Avoid attics, basements, or garages where conditions can fluctuate.
- **Storage Boxes:** Use acid-free, archival-safe storage boxes specifically designed for trading cards.
- **Binders:** If using binders, ensure they have D-rings (not O-rings) and use acid-free, PVC-free pocket pages. Store binders upright to prevent card damage.
- **Security:** For high-value collections, consider secure storage options such as safes or safety deposit boxes.
