PQRQP J26

PQRQP J26 Wireless Microphone Instruction Manual

Model: J26 | Brand: PQRQP

PRODUCT OVERVIEW

The PQRQP J26 Wireless Microphone system offers studio-quality audio with advanced noise cancellation and reverb effects. Designed for content creators, podcasters, and professionals, this mini microphone is compatible with iPhone, iPad, and USB-C devices, ensuring superior sound capture for various applications.

- **Crystal Clear Sound:** Advanced noise cancellation and reverb effects for high-quality audio.
- **Wide Compatibility:** Supports iPhone, iPad, and USB-C devices.
- **Extended Battery Life:** Dual microphones with a compact charging case provide over 20 hours of continuous use, and up to 80 hours with the charging case.
- **Instant Setup:** Plug-and-play functionality with no Bluetooth pairing or app downloads required.
- **Intuitive Controls:** Easy-to-use buttons for volume, mute, noise cancellation, and reverb settings.
- **Compact & Versatile:** Lightweight and portable design, ideal for interviews, vlogging, and online meetings.

WHAT'S IN THE BOX

Your PQRQP J26 Wireless Microphone package includes the following components:

- 2 x Transmitter with clip
- 1 x Receiver for Lightning devices
- 1 x Receiver for USB-C devices
- 1 x USB-A to Type-C charging cable
- 1 x User manual
- 1 x Charging compartment for microphone charging

Figure 1: All components included in the PQRQP J26 Wireless Microphone package.

SETUP GUIDE

Setting up your PQRQP J26 Wireless Microphone is straightforward and requires no complex pairing or app installations.

1. **Charge the Devices:** Ensure both the transmitters (microphones) and the charging case are fully charged before first use. The charging case provides extended power for on-the-go use.
2. **Select the Correct Receiver:** Identify the appropriate receiver for your device: one for Lightning (iPhone/iPad) and one for USB-C (Android/iPad/Laptop).
3. **Connect the Receiver:** Simply plug the selected receiver into the charging port at the bottom of your smartphone, tablet, or laptop. The system is designed for instant plug-and-play functionality.
4. **Power On Microphones:** Press and hold the yellow power button on each transmitter (microphone) for approximately one second to turn them on. They will automatically pair with the connected receiver.

5. **Optimal Placement:** For best audio quality, clip the microphone as close as possible to your lapel or about a fist or two away from your mouth. Using a windshield (included) is recommended for optimal pickup, especially in outdoor or windy conditions.

Important Note: For optimal connection and audio quality, it is recommended to remove your device's protective case if it is thick, or use a thinner case, to ensure the receiver can be fully and securely connected to the phone's port.

Figure 2: The compact charging case and auto-pairing feature for effortless setup.

Wide Compatibility

Wide compatibility with USB C and lightning interfaces

Reminder:

1. Remove the case as much as possible while recording.
2. Try to use a thinner case so that the microphone cannot be connected to the phone.

OPERATING INSTRUCTIONS

The PQRQP J26 Wireless Microphone offers intuitive controls for managing your audio recording.

Microphone Controls:

- **Power Button:** Press and hold for 1 second to turn the microphone on/off.

- **Mute Button:** Click the power button to toggle between mute mode and pickup mode.
- **Noise Cancellation:** Click the function key 'M' to turn noise cancellation on/off. This feature helps reduce background noise for clearer audio.
- **Reverb Function:** Double-click the function key 'M' to turn the reverb function on/off.

Receiver Controls:

- **Volume Control:** The receiver features buttons for volume control, offering three adjustable levels. Click to cycle through volume up/down.

MAINTENANCE

To ensure the longevity and optimal performance of your PQRQP J26 Wireless Microphone, follow these general maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the microphone and receiver. Avoid using harsh chemicals or abrasive materials.

- **Storage:** When not in use, store the microphone system in its charging case to protect it from dust and physical damage. Store in a cool, dry place away from direct sunlight.
- **Battery Care:** Fully charge the devices periodically, even if not in regular use, to maintain battery health. Avoid extreme temperatures during charging and storage.
- **Handle with Care:** Avoid dropping the devices or exposing them to excessive force, as this can damage internal components.

TROUBLESHOOTING

If you encounter issues with your PQRQP J26 Wireless Microphone, consider the following common solutions:

- **No Sound/Poor Sound Quality:**
 - Ensure the receiver is fully inserted into your device's port.
 - Check if the microphone (transmitter) is powered on (indicated by a light).
 - Verify that the microphone is not muted.
 - Adjust the volume levels on the receiver.
 - Ensure the microphone is placed optimally (close to lapel, away from mouth).
 - If using a phone case, ensure it does not obstruct the receiver's connection.
- **Microphone Not Connecting:**
 - Confirm both the transmitter and receiver are charged.
 - Power off and then power on both the transmitter and receiver to re-establish connection.
 - Ensure you are using the correct receiver (Lightning or USB-C) for your device.
- **Short Transmission Range:**
 - Ensure there are no major obstructions between the transmitter and receiver.
 - Avoid environments with strong electromagnetic interference.

If these steps do not resolve the issue, please refer to the official PQRQP support channels for further assistance.

SPECIFICATIONS

Feature	Detail
Brand	PQRQP
Model Name	J26
ASIN	B0FCXKXSZS
UPC	732249490907
Microphone Form Factor	Lavalier
Connectivity Technology	Bluetooth
Connector Type	USB-C/Lightning
Polar Pattern	Omnidirectional
Audio Sensitivity	100 dB

Feature	Detail
Signal-to-Noise Ratio	80.00
Power Source	Battery Powered
Battery Life (Transmitters)	Up to 10 hours (Each Mic)
Battery Life (with Charging Case)	Up to 80 hours
Transmission Range	164ft / 50m
