Utilize the three separate laundry bags to sort clothes by color, fabric type, or washing requirements (e.g., whites, darks, delicates). Each bag offers a generous 40L capacity.

### Accessing Laundry Bags:

The laundry bags feature a convenient pull-out design. Simply grasp the handle on the front of each bag and slide it forward to access its contents. Push the bag back into the frame when finished.

### Mobility:

The hamper is equipped with universal wheels, allowing it to be easily moved between rooms, such as the bathroom, laundry room, or bedroom, without lifting.

### Additional Storage:

The rustic brown top shelf provides a stable surface for placing laundry detergents, folded clothes, or other

household items. The integrated side pockets offer extra storage for smaller items like towels, cleaning supplies, or personal accessories.

### 5. MAINTENANCE & CARE

#### Cleaning the Fabric Bags:

The removable fabric bags are designed for easy cleaning. It is recommended to hand wash them with cold water and a mild detergent, or machine wash on a gentle cycle. Air dry the bags completely to prevent mildew and maintain their shape and integrity. Do not tumble dry.

#### Cleaning the Frame and Shelf:

Wipe the metal frame and MDF top shelf with a soft, damp cloth and a mild, non-abrasive cleaning solution. Avoid using harsh chemicals or abrasive scrubbers, as these can damage the finish. Dry thoroughly after cleaning.

#### Material Information:

- **Frame:** Strong metal construction for durability.
- **Shelf:** High-quality MDF (Medium-Density Fiberboard) with a rustic brown finish.
- **Bags:** Tough, waterproof fabric designed for laundry use.

## 6. TROUBLESHOOTING

---

### Common Issues:

- **Issue:** The hamper feels wobbly after assembly.  
**Solution:** Ensure all screws and fasteners are fully tightened. Double-check that all frame components are correctly aligned according to the assembly instructions.
- **Issue:** Laundry bags get caught or do not slide smoothly when pulling out or pushing in.  
**Solution:** Verify that the bags are properly seated within their designated rails. Avoid pulling the bags out excessively far, as this can cause them to misalign with the bottom support bar.
- **Issue:** Wheels do not roll smoothly or are difficult to move.  
**Solution:** Check for any debris (e.g., lint, hair) obstructing the wheels. Ensure the wheels are securely attached to the frame and are not loose.
