VEVOR SP10(N)

VEVOR Smart Plug SP10(N) Instruction Manual

Model: SP10(N)

Introduction

Welcome

Thank you for choosing the VEVOR Smart Plug SP10(N). This device is designed to transform your ordinary appliances into smart devices, offering convenient control through a mobile application and voice commands. Please read this manual carefully before use to ensure proper installation, operation, and maintenance.

Product Overview

The VEVOR Smart Plug SP10(N) is a compact, 15A smart outlet that connects to your home network via both Bluetooth and 2.4GHz Wi-Fi. It enables remote control, scheduling, and voice control of connected devices through compatible smart home platforms like Amazon Alexa and Google Home, as well as the Smart Life app.

Key Features

- **Simple and Stable Connection:** Supports Bluetooth and Wi-Fi connectivity for a faster and more stable configuration experience compared to Wi-Fi-only plugs.
- **Smart Voice Control:** Compatible with Amazon Alexa and Google Home for hands-free operation using simple voice commands.
- **Remote Control:** Manage your devices from anywhere using the Smart Life app on your smartphone.
- **Multi-Functional App Experience:** Customize schedules, set timers, and create group controls to automate your home and reduce energy waste.
- **Reliable Quality & Security:** FCC certified with a V0 flame-retardant PC shell, supporting up to 15A/1800W for various high-power appliances.

Important Safety Instructions

To reduce the risk of electric shock, fire, or injury, always follow these basic safety precautions:

- Do not exceed the maximum load of 15A (1800W).
- Do not use in wet locations or near water.
- Do not disassemble or modify the device.
- Ensure the smart plug is fully inserted into the wall outlet.

- Keep out of reach of children.
- Unplug the device from the outlet before cleaning.
- The V0-Rated PC Material shell is designed to reduce fire risk.

Package Contents

Verify that all items are present in your package:

- VEVOR Smart Plug SP10(N)
- Instruction Manual

Product Components

The VEVOR Smart Plug features a power button with an integrated indicator light for manual control and status indication. Its robust V0-Rated PC Material shell provides enhanced safety against fire hazards.

Setup

Before You Begin

- Ensure your Wi-Fi network is 2.4GHz. The smart plug does not support 5GHz Wi-Fi.
- Have your Wi-Fi network name and password ready.
- A smartphone (Android or iOS) with internet access is required.
- Plug the smart plug into a standard wall outlet.

App Installation

1. Download the **Smart Life** app from the App Store (iOS) or Google Play Store (Android). You can search for "Smart Life"

or scan a QR code if provided on the product packaging.

2. Register an account or log in if you already have one.

Device Pairing (Bluetooth + Wi-Fi)

Image: A VEVOR Smart Plug illustrating its integration into a smart home ecosystem, supporting timer, remote control, group control, voice control, and connectivity with various appliances like fans, lamps, humidifiers, and kettles.

1. Plug the VEVOR Smart Plug into a power outlet. The indicator light should blink rapidly, indicating it's in pairing mode. If not, press and hold the power button for 5-10 seconds until it blinks rapidly.

2. Open the Smart Life app. The app should automatically detect the new device nearby due to Bluetooth connectivity. If not, tap the "+" icon in the top right corner and select "Add Device".
3. Confirm the device type (e.g., "Socket (Wi-Fi)" or "Smart Plug").
4. Enter your 2.4GHz Wi-Fi network name and password when prompted.
5. Follow the on-screen instructions to complete the pairing process. The indicator light will stop blinking and turn solid when successfully connected.
6. Once paired, you can rename the device for easier identification (e.g., "Living Room Lamp").

Operating Instructions

Manual Control

Press the power button on the side of the smart plug to manually turn the connected appliance on or off. The indicator light will show the current status (e.g., on/off).

App Control

Image: A user interacting with the Smart Life app on a smartphone to remotely control a VEVOR Smart Plug, with an inset showing a home interior, emphasizing remote control functionality.

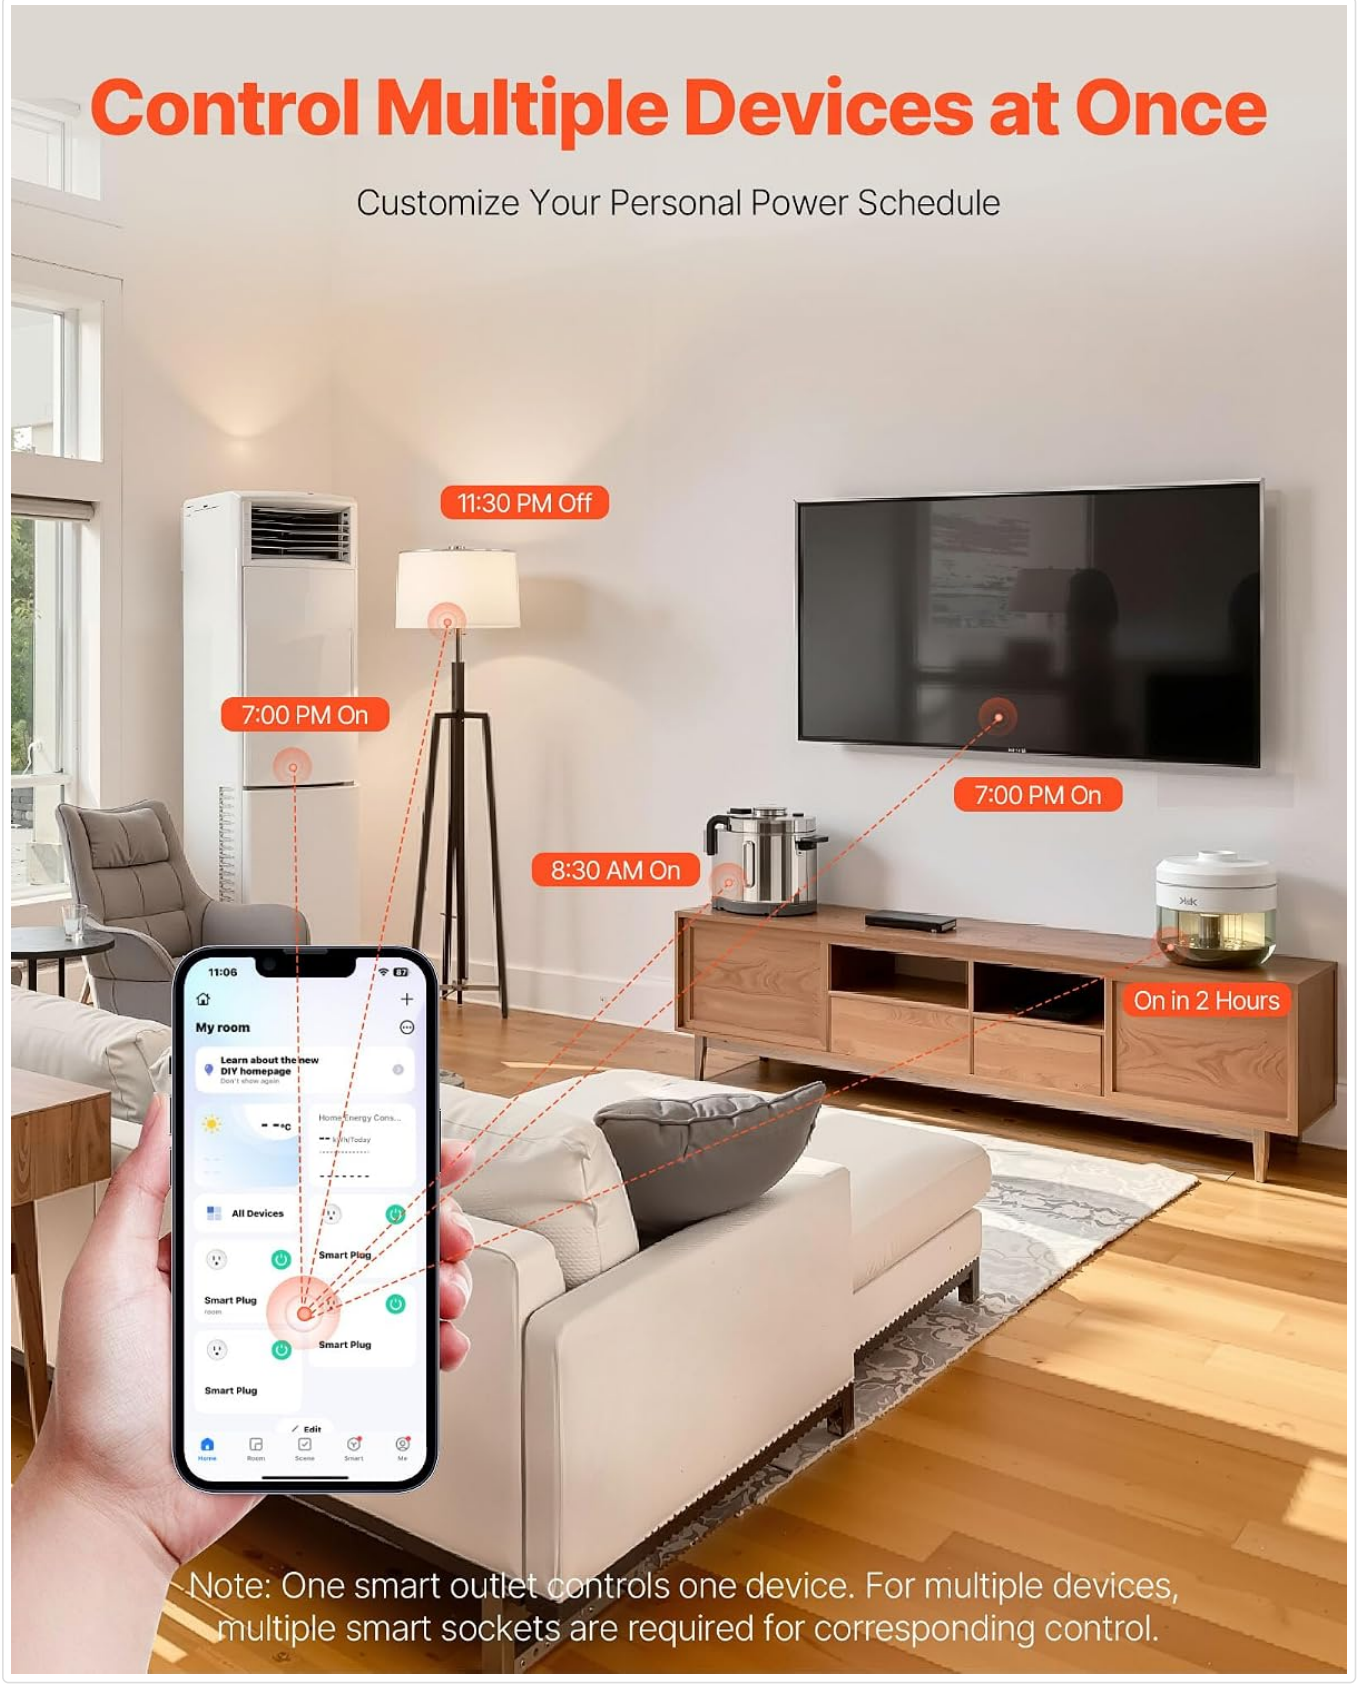

Image: A smartphone displaying the Smart Life app, demonstrating how to control multiple smart plugs and set individual schedules for various home appliances like an air conditioner, lamp, kettle, and humidifier.

- **Remote On/Off:** Open the Smart Life app, select your smart plug, and tap the power icon to turn the connected appliance on or off from anywhere with an internet connection.
- **Scheduling:** Set specific times for the smart plug to turn on or off automatically. This is useful for daily routines, such as turning on a coffee maker in the morning or lights in the evening.
- **Timer Function:** Set a countdown timer for the smart plug to turn off after a specified duration.
- **Group Control:** If you have multiple VEVOR Smart Plugs, you can group them together in the app to control them

simultaneously with a single command.

Voice Control (Amazon Alexa & Google Home)

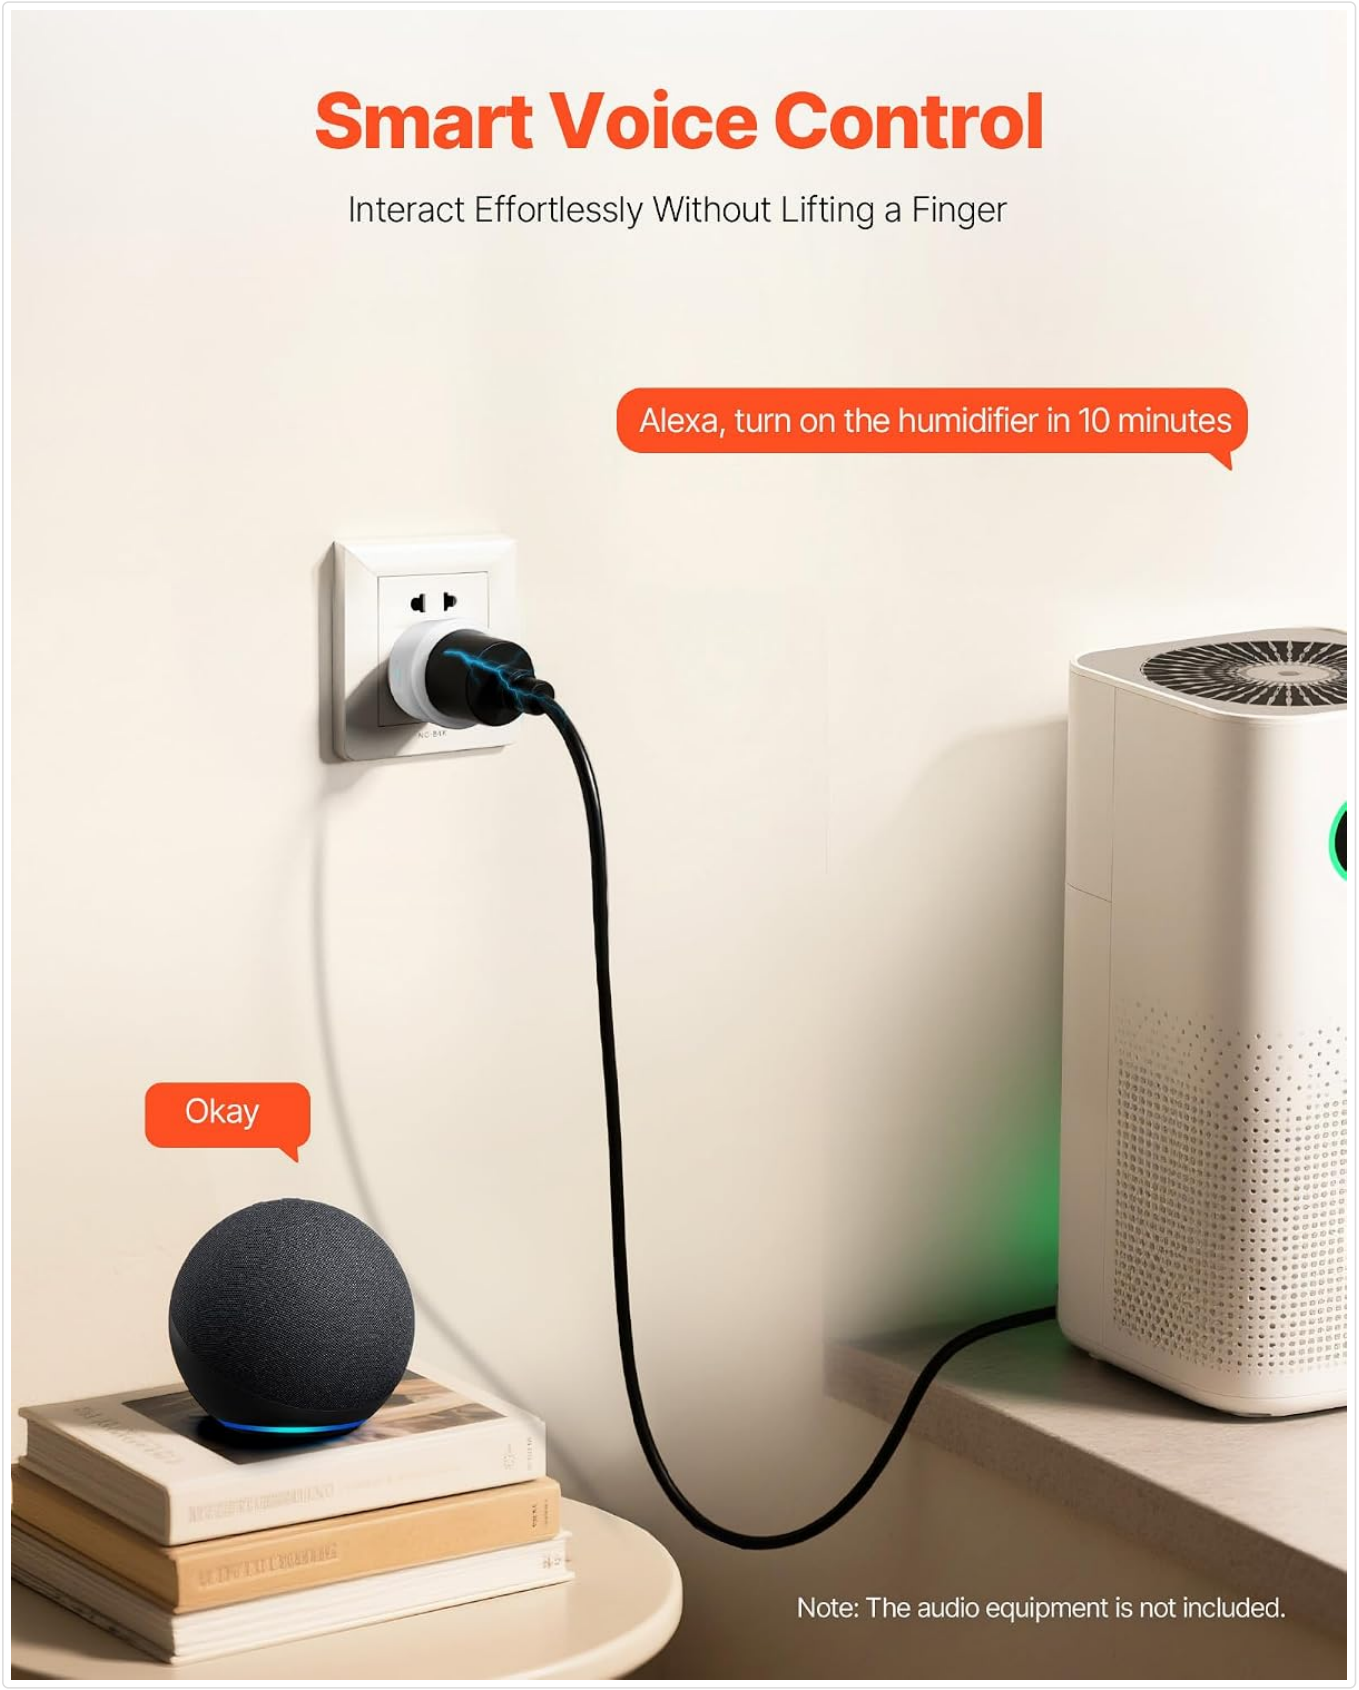

Image: An Amazon Echo Dot responding to a voice command to turn on a humidifier connected to a VEVOR Smart Plug, demonstrating hands-free voice control.

1. **Link Smart Life to Voice Assistant:** In the Amazon Alexa or Google Home app, navigate to the "Skills & Games" (Alexa) or "Works with Google" (Google Home) section. Search for "Smart Life" and enable the skill/service.
2. **Account Linking:** Log in with your Smart Life account credentials when prompted to link the accounts.

3. **Discover Devices:** Once linked, ask your voice assistant to "Discover devices" or manually initiate device discovery in the app.
4. **Voice Commands:** You can now control your smart plug using voice commands. For example:
    - "Alexa, turn on [device name]."
    - "Hey Google, turn off [device name]."
    - "Alexa, set [device name] to 50%" (if applicable for dimmable devices, though this plug is on/off).

Care and Maintenance

- Clean the smart plug with a dry, soft cloth. Do not use liquid cleaners or aerosols.
- Store the device in a cool, dry place when not in use.
- Avoid exposing the smart plug to extreme temperatures or direct sunlight.

Troubleshooting

Problem	Possible Solution
Smart plug cannot connect to Wi-Fi.	Ensure your Wi-Fi network is 2.4GHz. Check if the Wi-Fi password is correct. Move the smart plug closer to your Wi-Fi router. Reset the smart plug by holding the power button for 5-10 seconds until the indicator light blinks rapidly, then try pairing again.
Voice control is not working.	Ensure the Smart Life skill/service is enabled and linked correctly in your Alexa or Google Home app. Check if the device name in the Smart Life app matches the name you are using for voice commands. Ask your voice assistant to "Discover devices" again.
App cannot control the smart plug remotely.	Verify that your smartphone has an active internet connection. Ensure the smart plug is connected to your home Wi-Fi network (indicator light is solid). Restart the Smart Life app.

Technical Specifications

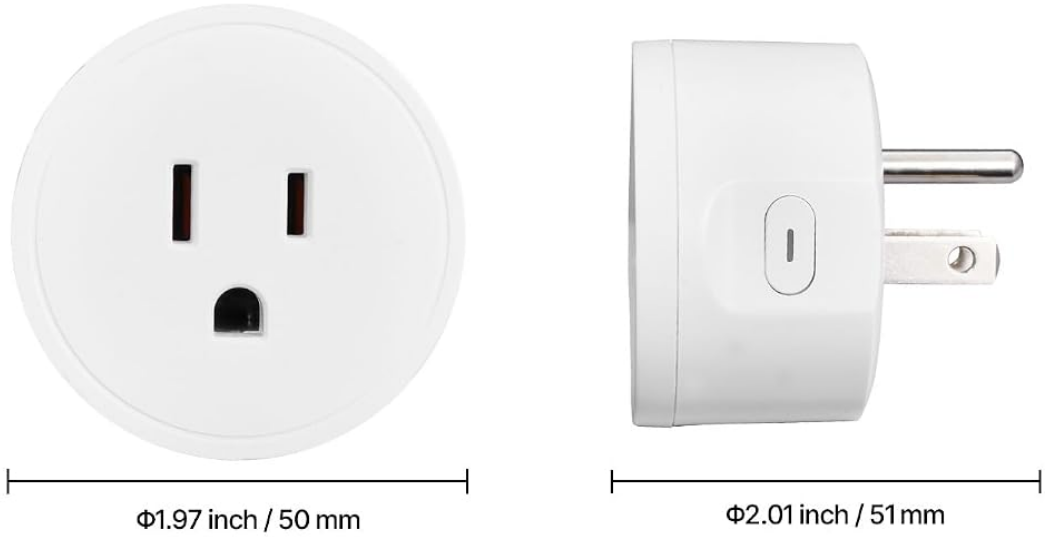

Image: Diagram showing the VEVOR Smart Plug's dimensions (Φ1.97 x 2.01 inches / Φ50 x 51 mm) and a table of key specifications.

Parameter	Value
Product Model	SP10(N)
Color	White
Power Rating	≤1800W (15A)

Parameter	Value
Material	V0-Rated PC Material
