3. SETUP

3.1 Initial Placement and Power Connection

1. **Choose a Location:** Select a suitable location for the power strip camera, ensuring it is within range of your WiFi network and has a clear view of the area you wish to monitor.
2. **Insert Micro SD Card:** Locate the Micro SD card slot on the unit and insert the provided 64GB Micro SD card. Ensure it is inserted correctly until it clicks into place.
3. **Connect to Power:** Plug the power strip's cord into a standard wall outlet. The unit will power on, indicated by a blue indicator light.

3.2 App Download and Pairing

1. **Download the App:** Scan the QR code provided in the packaging or search for the 'Smart Life' app in your mobile device's app store (iOS or Android).
2. **Register/Log In:** Open the app and follow the on-screen instructions to register a new account or log in if you already have one.
3. **Add Device:** In the app, tap 'Add Device' or the '+' icon. Select 'Security & Video Surveillance' and then 'Smart Camera'.
4. **Connect to WiFi:** Follow the app's instructions to connect the camera to your 2.4GHz WiFi network.

You may need to reset the camera by pressing the reset button (refer to the unit for location) if it doesn't connect immediately.

5. **Complete Setup:** Once connected, the camera will appear in your device list. You can now access live view and configure settings.

4. OPERATING INSTRUCTIONS

4.1 Using the Power Strip Functionality

- **AC Outlets:** Plug your electronic devices into the AC outlets. The power strip provides surge protection.
- **USB Ports:** Connect your USB-powered devices to the USB-A or USB-C ports for charging.
- **Power Button:** Use the main power button on the unit to turn all outlets and USB ports on or off.

4.2 Camera Operation via Smart Life App

- **Live View:** Open the app and select your camera to view the live video feed.
- **Motion and Sound Detection:** Enable these features in the app settings to receive instant alerts on your mobile device when activity is detected. You can also set up a siren alarm to activate upon detection.

- **Customizable Activity Zones:** Define specific areas within the camera's view for motion detection, reducing unnecessary alerts.
- **Shared Devices:** Share access to your camera's feed with trusted family members or friends through the app.

5. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the exterior of the power strip and camera lens. Do not use liquid cleaners or abrasive materials.

- **Software Updates:** Regularly check the Smart Life app for firmware updates to ensure optimal performance and security.
- **Storage:** When not in use for extended periods, store the device in a cool, dry place away from direct sunlight.

6. TROUBLESHOOTING

- **Device Not Powering On:** Ensure the power cord is securely plugged into a working wall outlet. Check the power button on the unit.
- **Camera Not Connecting to WiFi:** Verify your WiFi network is 2.4GHz. Ensure the WiFi password is correct. Try resetting the camera and re-pairing it through the app.
- **No Video Feed/Poor Quality:** Check your internet connection speed. Ensure the camera lens is clean. If using an SD card, ensure it is properly inserted and not full.
- **No Motion/Sound Alerts:** Verify that motion and sound detection are enabled in the app settings and that notification permissions are granted for the app on your mobile device.
- **Two-Way Audio Issues:** Ensure your phone's microphone and speaker are functioning correctly. Check the app's audio settings.
