Blulu Door Hole Cover Plate Blank Strike Filler Plate

Model: DIB-Blulu-2267

1. PRODUCT OVERVIEW

The Blulu Door Hole Cover Plate is designed to effectively cover existing holes in door frames, enhancing both security and privacy. Made from durable stainless steel, this blank strike filler plate provides a clean and finished appearance while reinforcing the door's integrity. It is suitable for covering appropriately sized holes, such as those left by old or removed door hardware.

4. INSTALLATION GUIDE

Follow these steps to install the Blulu Door Hole Cover Plate:

1. **Assess the Opening:** Before installation, ensure the existing door frame hole or opening is appropriately sized for

the cover plate (approximately 1.00 x 2.25 inches). The plate is designed to cover standard strike plate cutouts or similar openings.

2. **Position the Plate:** Place the door hole cover plate over the opening in the door frame. Align the screw holes on the plate with the desired mounting points on the door frame.
3. **Secure with Screws:** Use the two provided screws to firmly attach the cover plate to the door frame. Use a screwdriver to tighten the screws until the plate is securely in place and does not wobble. Avoid over-tightening to prevent damage to the door frame.

Video 4.1: This video demonstrates the features and installation process of the Blulu Door Hole Cover Plate, showing its smooth edges, rust resistance, and how it can be used to cover door frame openings.

5. OPERATING INSTRUCTIONS

The Blulu Door Hole Cover Plate operates passively. Once installed, it functions as a permanent cover for the door frame opening, enhancing the aesthetic and security of the door. No active operation is required after installation.

6. MAINTENANCE

To maintain the appearance and integrity of your door hole cover plate:

- **Cleaning:** Wipe the plate periodically with a soft, damp cloth to remove dust and grime. For stubborn marks, a mild soap solution can be used, followed by drying with a clean cloth.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or harsh chemicals, as these may damage the finish of the stainless steel.
- **Check Screws:** Occasionally check the mounting screws to ensure they remain tight. Re-tighten if necessary to prevent the plate from becoming loose.

7. TROUBLESHOOTING

- **Plate Does Not Fit:** Ensure the dimensions of your door frame opening match the specifications of the cover plate (approximately 1.00 x 2.25 inches). If the opening is significantly larger or smaller, this plate may not be suitable.
- **Screws Do Not Hold:** If the screws do not secure the plate firmly, the existing screw holes in the door frame may be stripped. Consider using slightly larger screws (if compatible with the plate's holes) or using wood filler to repair the stripped holes before re-installing.
- **Plate is Loose:** Re-tighten the mounting screws. If the issue persists, refer to the 'Screws Do Not Hold' solution.

8. WARRANTY INFORMATION

Blulu products are manufactured to high-quality standards. For specific warranty details regarding your Door Hole Cover Plate, please refer to the product packaging or contact Blulu customer support directly. Keep your proof of purchase for any warranty claims.

9. CUSTOMER SUPPORT

If you have any questions, require assistance with installation, or encounter any issues with your Blulu Door Hole Cover Plate, please contact our customer support team. You can typically find contact information on the product packaging or by visiting the official Blulu brand store online.
