## 6. CARE AND MAINTENANCE

---

To ensure the longevity and appearance of your BLOKEES Transformers figures, follow these care guidelines:

- **Cleaning:** Use a soft, dry cloth to gently wipe away dust. For stubborn dirt, a slightly damp cloth can be used, but avoid harsh chemicals or abrasive cleaners.
- **Storage:** Store figures in a cool, dry place away from direct sunlight and extreme temperatures, which can cause discoloration or material degradation.
- **Handling:** Handle figures by their main body parts rather than delicate accessories or joints to prevent accidental breakage.
- **Battery Replacement:** If a figure's luminous feature dims or stops working, replace the nonstandard battery with a new one of the same type. Refer to the specific figure's instructions for battery compartment access. Dispose of old batteries responsibly.

## 7. TROUBLESHOOTING

---

### Figure not assembling correctly:

- **Check Instructions:** Double-check the character-specific assembly instructions and diagrams to ensure all parts are oriented correctly.
- **Part Identification:** Verify that you are using the correct parts for each step.
- **Obstructions:** Ensure there are no small plastic burrs or obstructions preventing parts from fitting together. Gently trim if necessary.

### Luminous feature not working:

- **Battery Check:** Ensure the battery is installed with the correct polarity and is not depleted. Replace if necessary.
- **Switch Position:** Verify that the power switch (if present) is in the 'ON' position.
- **UV Exposure:** For UV-reactive parts, ensure they have been exposed to sufficient UV light to charge their glow.
