SICOTAS DR115

SICOTAS DR115 Dresser Instruction Manual - Grey Alder 2-Piece Set

Model: DR115 | Brand: SICOTAS

Product Overview

The SICOTAS DR115 Dresser is a versatile 2-piece storage solution designed for various rooms including bedrooms, living rooms, nurseries, entryways, and hallways. Each piece features 4 extra-deep drawers and open shelving, providing ample space for organization. The dresser boasts a minimalist design with a unique fluted panel and sleek curve profile, crafted from FSC-certified engineered wood for durability and sustainability.

This product is designed to meet ASTM F2057-2023 standards for tip-over prevention, ensuring enhanced safety in your home.

Image: Two SICOTAS DR115 dressers, each featuring four drawers and open shelves, arranged side-by-side in a living room. The dressers are a grey alder finish, complementing the light-colored rug and walls. Decorative items like plants and framed pictures are placed on top and within the open shelves.

Key Features

- **Extra-Deep Drawers:** Each dresser piece includes four spacious drawers (total 8 drawers for the 2-piece set) for ample storage of clothes, accessories, and household items.
- **Minimalist & Practical Design:** Features a curved profile, unique waveform fluted panels, and black handles, blending modern aesthetics with functionality.
- **Sturdy & Durable Construction:** Made from high-quality, thickened, scratch-proof, and water-resistant engineered wood.
- **Spacious Top Surface:** Offers generous space for decorative accents, essentials, or use as a vanity or workspace.
- **Open Storage Shelves:** Integrated open shelves provide additional display and storage options.
- **Safety Standards:** Meets ASTM F2057-2023 standards for tip-over prevention.

Safety Information

To prevent tip-over accidents, this dresser is designed to meet ASTM F2057-2023 standards. It is crucial to follow all assembly instructions carefully and securely anchor the dresser to a wall using the provided anti-tip kit. Always place heavier items in the lowest drawers and avoid placing heavy objects on top of the dresser that could destabilize it.

Do not allow children to climb on drawers or shelves. Ensure all drawers are closed when not in use.

Package Contents

Before beginning assembly, verify that all components listed in the instruction manual are present and undamaged. The package typically includes:

- All necessary wooden panels for two dresser units.
- Drawer slides and hardware.
- Black handles.
- Assembly hardware (screws, dowels, cam locks, etc.).
- Anti-tip kit.
- Detailed assembly instructions.

Assembly Instructions

Assembly is required for this product. While designed for straightforward setup, it is recommended to have two people for certain steps due to the weight and size of the components. The estimated assembly time is approximately 2.5 hours.

General Tips:

- **Unpack Carefully:** Open the packaging in the room where the dresser will be assembled to minimize moving heavy boxes.
- **Identify All Parts:** Lay out all components and hardware, matching them against the parts list in the included manual.
- **Two-Person Lift:** The assembled unit is heavy. Always lift with at least two people to prevent injury and damage to the furniture.

- **Drawer Installation:** For easier drawer installation, lay the main unit down on its back or side when inserting the drawers. This helps ensure they lock into place correctly without resistance.
- **Use Proper Tools:** A screwdriver is typically required. Ensure screws are tightened securely but do not overtighten.

Step-by-Step (Refer to included manual for detailed diagrams):

1. Assemble the main frame of each dresser unit according to the diagrams.
2. Attach the drawer slides to the interior of the dresser frame.
3. Assemble each of the four drawers per unit, ensuring the fluted panels are correctly oriented.
4. Install the black handles onto the assembled drawers.
5. Carefully insert the drawers into their respective slides. (Tip: Lay the unit down for easier insertion).
6. Once both units are assembled, position them in the desired location.
7. Securely attach the anti-tip kit to the wall and the back of the dresser units.

Usage and Care

Daily Use:

- Ensure drawers are closed completely when not in use to maintain a tidy appearance and prevent accidental opening.
- Utilize the open shelves for displaying decorative items or storing frequently accessed essentials.
- The spacious top surface can accommodate various items; consider using coasters for drinks to protect the surface.

Maintenance:

- Clean the surface with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- The engineered wood is scratch-proof and water-resistant, but prompt cleanup of spills is recommended to maintain its appearance.
- Periodically check all hardware connections to ensure they remain tight. Retighten if necessary.

Image: A diagram illustrating the dimensions (56.5"W x 17.7"D x 33.7"H) and weight capacities of a single SICOTAS dresser unit. It shows the top surface can hold up to 77 lbs, shelves 33 lbs, and drawers 16 lbs.

Troubleshooting

Common Issues and Solutions:

- **Drawers not sliding smoothly:** Ensure all drawer slides are correctly aligned and securely fastened. Check for any obstructions in the tracks.
- **Wobbly unit:** Verify all screws and fasteners are tightened. Ensure the dresser is placed on a level surface. Use the anti-tip kit for added stability.
- **Missing parts:** Double-check the packaging and compare with the parts list. Contact customer support if any components are genuinely missing.

Environmental Responsibility

The SICOTAS DR115 Dresser is constructed from FSC-certified engineered wood, demonstrating a commitment to sustainable and eco-friendly material sourcing. This certification ensures that the wood used comes from responsibly managed forests that provide environmental, social, and economic benefits.

Warranty and Support
