Donerton P131

Donerton Smart Watch GPS User Manual

Model: P131

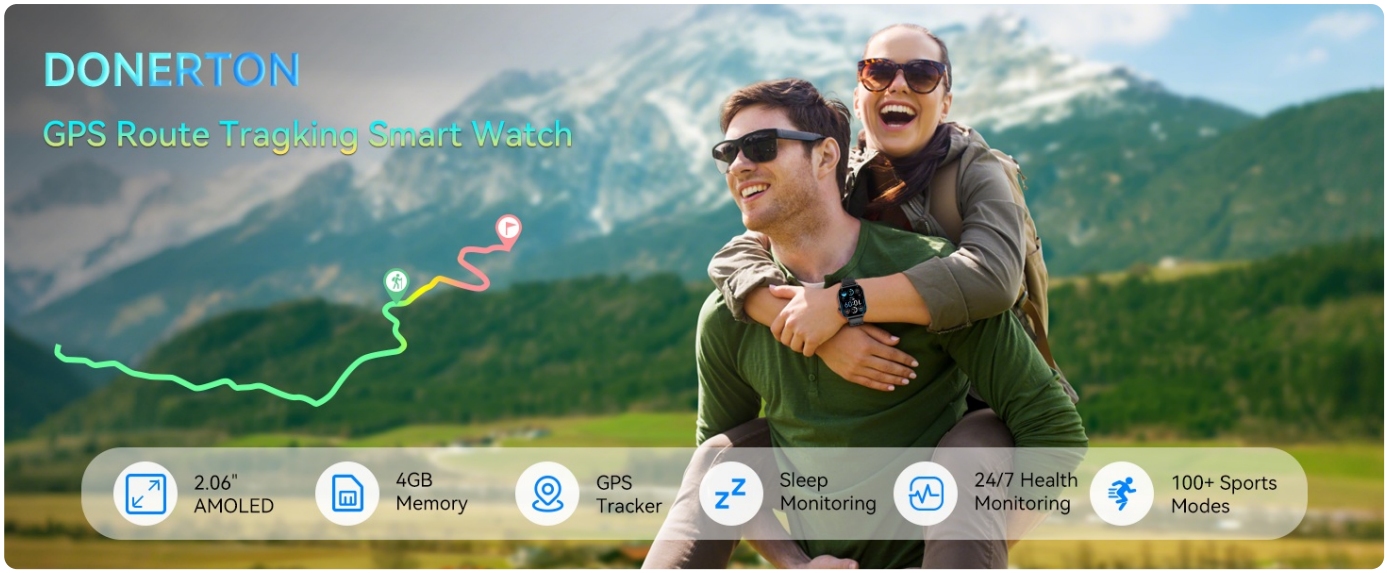

The Donerton Smart Watch GPS, featuring a 2.06" AMOLED screen and gray band.

Introduction

Welcome to the user manual for your new Donerton Smart Watch GPS, Model P131. This advanced smartwatch is designed to enhance your daily life with comprehensive health monitoring, extensive sports tracking, and convenient communication features. Equipped with a vibrant 2.06" AMOLED display and robust 3ATM waterproofing, it's built for both everyday use and adventurous outdoor activities.

Key features include built-in GPS for accurate route tracking, over 178 sports modes, Bluetooth 5.4 for seamless calls and notifications, and continuous monitoring of heart rate, SpO2, and sleep patterns. This manual will guide you through the setup, operation, maintenance, and troubleshooting of your device to ensure you get the most out of its capabilities.

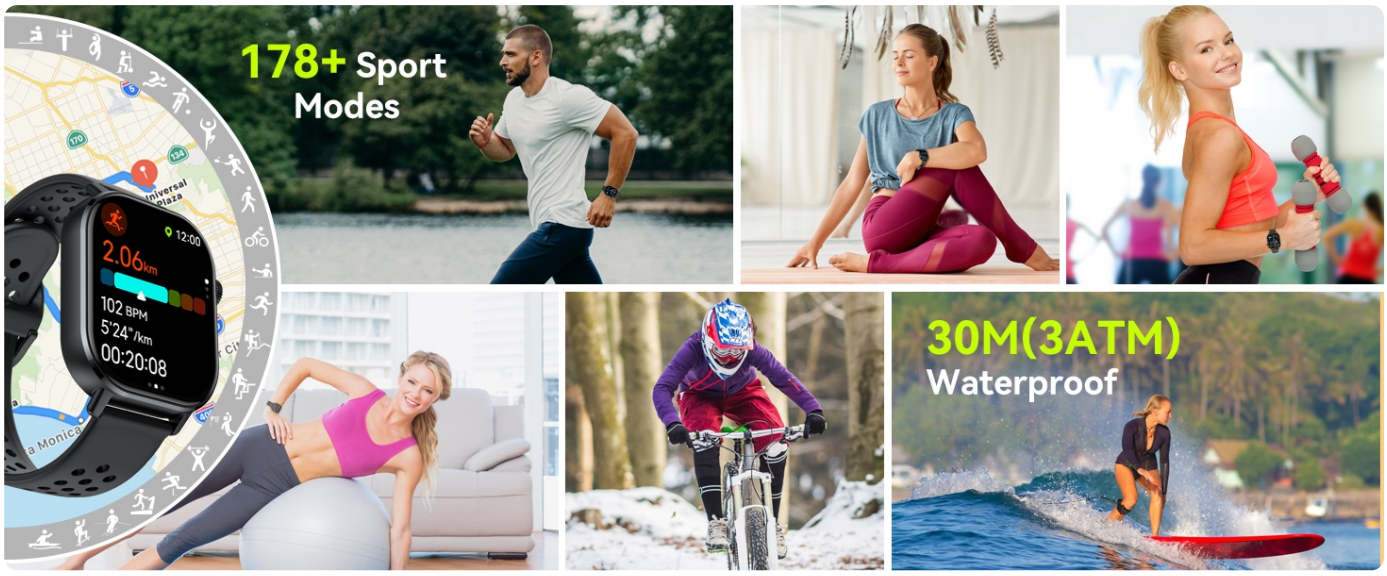

An overview of the Donerton Smart Watch GPS highlighting its key features: 2.06" AMOLED display, 4GB memory, GPS tracker, sleep monitoring, 24/7 health monitoring, and 100+ sports modes.

Setup

1. Unboxing and Initial Charge

Upon opening the package, ensure all components are present:

- Donerton Smart Watch (Model P131)
- Watch Band
- Charging Cable
- User Manual

The Donerton Smart Watch, its packaging, charging cable, and user manual, alongside a gift box.

Before first use, fully charge your smartwatch. Connect the magnetic charging cable to the charging port on the back of the watch and plug the USB end into a power adapter (not included) or a computer's USB port. A full charge takes approximately 2.5 hours.

2. App Download and Device Pairing

To unlock the full potential of your smartwatch, you need to connect it to your smartphone via the "GloryFit" app.

1. **Turn on Bluetooth:** Ensure the Bluetooth function is enabled on your smartphone.
2. **Download GloryFit App:** Open the Google Play Store (for Android) or Apple App Store (for iOS) and search for "GloryFit". Download and install the app.
3. **Search for Device:** Open the GloryFit app. Navigate to the device section and select "Add Device" or "Please connect device". The app will search for nearby smartwatches.
4. **Pair Device:** Select "P131" from the list of found devices to initiate pairing. Confirm the pairing request on both your phone and the watch if prompted.

Visual guide for connecting the Donerton Smart Watch to your smartphone via the GloryFit app, including enabling Bluetooth, downloading the app, searching for the device, and binding it.

3. Enabling Call Function (Optional)

To use the Bluetooth call feature, follow these additional steps after initial pairing:

1. **Connect "P131" for calls:** After selecting "P131" in your phone's Bluetooth settings, accept the pairing request for the call function (often appears as a separate "P131_CALL" or similar entry).
2. **Enable Call Bluetooth on Watch:** On your smartwatch, ensure the call Bluetooth function is turned on. This allows the watch to make calls and play media sound.
3. **Grant Permissions:** In your phone's Bluetooth settings for the connected "P131" device, ensure all necessary permissions are granted, such as contact access and call history.
4. **Ready for Calls:** Once connected and permissions are granted, you can answer and make calls directly from your watch.

Note: *If you do not wish to use the call function, you can turn off the answer/call function on the watch to conserve battery life.*

Operating Your Smart Watch

1. Basic Navigation

The Donerton Smart Watch features a responsive 2.06" AMOLED touchscreen and a side button/encoder for navigation.

- **Touchscreen:** Swipe left/right, up/down to navigate through menus and screens. Tap to select items.
- **Side Button/Encoder:** Press to return to the main menu or switch between modes. Rotate to scroll through lists or adjust settings.

The side button allows you to switch modes or return to the main menu.

2. Bluetooth Calls and Notifications

With Bluetooth 5.4, your smartwatch allows you to manage calls and receive notifications directly on your wrist.

- **Making/Receiving Calls:** Once connected, you can dial numbers, answer incoming calls, and view call history from the watch interface.
- **Notifications:** Receive alerts for messages (SMS), social media apps (WhatsApp, Facebook, Instagram, Twitter, WeChat), and other app notifications.

3. Health Monitoring

The smartwatch provides comprehensive health tracking features to help you stay informed about your well-being.

- **Heart Rate Monitoring:** Tracks your heart rate 24/7. View real-time data and historical trends in the app.
- **SpO2 Monitoring:** Measures your blood oxygen saturation levels.
- **Sleep Tracking:** Monitors your sleep patterns, including deep sleep, light sleep, and REM sleep, providing insights into your sleep quality.
- **Stress Level Monitoring:** Helps you understand and manage your stress levels.
- **Menstrual Cycle Tracking:** For women, track your period and predict ovulation.

4. Sports Modes and GPS Tracking

The smartwatch supports over 178 sports modes and features built-in GPS for accurate outdoor activity tracking.

- **178+ Sports Modes:** Select from a wide range of activities like running, hiking, cycling, yoga, and more. The watch records real-time data such as steps, calories burned, and distance.
- **Built-in GPS:** Supports GPS, GLONASS, Beidou, Galileo, and QZSS for precise route tracking during outdoor exercises.
- **Outdoor Features:** Includes a compass, altimeter, and barometer for comprehensive outdoor navigation and data.

5. Other Functions

Your Donerton Smart Watch comes with a variety of additional useful features:

- **Alarm:** Set multiple alarms for reminders.
- **Weather Forecast:** Get real-time weather updates.
- **Stopwatch & Timer:** For precise timing.
- **Flashlight:** A convenient light source.
- **Calculator & Calendar:** Basic utility tools.
- **Music Control:** Control music playback on your phone from your wrist.
- **Remote Camera:** Use your watch as a remote shutter for your phone's camera.
- **Breathing Training:** Guided breathing exercises for relaxation.
- **Sedentary Reminder:** Alerts you to move after periods of inactivity.

- **Find Watch/Phone:** Helps locate your device if misplaced.
- **Screen Brightness Adjustment:** Customize display brightness.
- **Voice Assistant:** Use voice commands for various tasks.

Maintenance

1. Cleaning and Care

To maintain your smartwatch's performance and appearance:

- Wipe the screen and watch body regularly with a soft, lint-free cloth.

- For stubborn smudges, dampen the cloth slightly with water. Avoid harsh chemicals or abrasive cleaners.
- Clean the charging contacts periodically to ensure proper charging.
- Keep the watch band clean, especially if it's silicone, to prevent skin irritation.

2. Water Resistance (3ATM)

The Donerton Smart Watch is 3ATM waterproof, meaning it can withstand splashes, rain, and brief immersion in shallow water. It is suitable for:

- Washing hands
- Rainy days
- Showering (avoid hot water and steam)
- Swimming in shallow water (not suitable for diving or high-pressure water activities)

Important: Do not press any buttons while the watch is submerged in water. After exposure to water, dry the watch thoroughly before charging.

3. Battery Care

The smartwatch is equipped with a 350mAh battery, offering up to 7 days of typical use and approximately 25 days of standby time. To maximize battery life:

- Avoid extreme temperatures.
- Charge the watch fully before first use.
- If not using the call function, disable it to save power.
- Frequent GPS usage will consume more power.

Troubleshooting

If you encounter issues with your Donerton Smart Watch, refer to the following common problems and solutions:

Problem	Possible Solution
Watch won't turn on	Ensure the watch is fully charged. Connect to the charger for at least 30 minutes.
Cannot pair with phone	Ensure Bluetooth is enabled on your phone and the watch. Make sure the watch is within range of your phone. Restart both the watch and your phone. Forget the device in your phone's Bluetooth settings and try pairing again. Ensure the GloryFit app has necessary permissions.
Notifications not received	Check if the watch is connected to the app. Ensure notification permissions are granted to the GloryFit app in your phone settings. Verify that app notifications are enabled within the GloryFit app. Disable any "Do Not Disturb" modes on both the watch and phone.
Inaccurate health data	Ensure the watch is worn snugly on your wrist, not too tight or too loose. Clean the sensors on the back of the watch. Avoid excessive movement during measurements.
Short battery life	Reduce screen brightness. Limit continuous heart rate monitoring or GPS usage. Turn off unnecessary features like "Always-On Display" if not needed. Ensure the call function Bluetooth is off if not in use.

If the problem persists after trying these solutions, please refer to the support section for further assistance.
