3. INSTALLATION GUIDE

Professional installation is recommended. Ensure the vehicle's power is disconnected before beginning installation.

3.1 Pre-Installation Check

- Confirm compatibility with your Ford Ecosport (2013-2017).
- Verify all package contents are present.
- Gather necessary tools (e.g., screwdrivers, trim removal tools).

3.2 Removing the Factory Radio

1. Carefully remove the trim panels surrounding the factory radio using the provided setting tool.
2. Unscrew the mounting bolts securing the factory radio.
3. Gently pull out the factory radio and disconnect all wiring harnesses and antenna cables.

3.3 Installing the New Unit

1. Connect the provided power cord and RCA cables to the corresponding ports on the new Android unit.
2. Connect the GPS antenna and route it to a location with a clear view of the sky (e.g., dashboard).
3. Connect the USB cables and route them to a convenient location (e.g., glove compartment).
4. If installing the reverse camera, connect its input cable to the unit and route the camera cable to the rear of the vehicle.
5. Connect the vehicle's wiring harnesses to the new unit's power cord.
6. Mount the new Android unit into the dashboard opening, securing it with screws.
7. Reinstall the trim panels.

5. MAINTENANCE

5.1 Cleaning the Unit

- Use a soft, dry cloth to clean the screen and exterior.
- Avoid using abrasive cleaners or solvents, as they may damage the surface.
- For stubborn smudges on the screen, lightly dampen the cloth with water.

5.2 Software Updates

- Periodically check for software updates to ensure optimal performance and access to new features.
- Updates can typically be found in the system settings under "About device" or "System updates".
- Ensure a stable internet connection during updates to prevent interruptions.

6. TROUBLESHOOTING
