

## ULANZI MA60

# ULANZI MA60 Magnetic Phone Tripod Stand User Manual

Model: **MA60**

Brand: ULANZI

## 1. INTRODUCTION

This manual provides detailed instructions for the safe and effective use of your ULANZI MA60 Magnetic Phone Tripod Stand. Please read this manual thoroughly before use and retain it for future reference.

## 2. PRODUCT OVERVIEW

### 2.1 Key Features

- **Ultra-Slim Design:** Just 0.8cm thick, ensuring a compact fit without adding bulk or getting in the way.
- **Powerful Magnetic Force:** Features a strong 14N magnetic force, providing a rock-solid hold for your iPhone in both portrait and landscape orientations.
- **Dual-Sided Magnetic Design:** Allows you to secure your phone on one side and attach additional gear on the other, offering expanded setup possibilities.
- **Adjustable Angle:** Easily adjust the tripod to any angle for horizontal or vertical shots, ensuring smooth rotation and complete control over your framing.
- **Versatile Scenarios:** Adaptable for handheld, tabletop, horizontal, vertical, or overhead shooting, making it a versatile companion for various photography needs.

### 2.2 What's in the Box

- 1x ULANZI MA60 Magnetic Phone Tripod Stand
- 1x Magnetic Ring Sticker (for non-MagSafe compatible devices)

### 2.3 Product Diagram

## 3. SETUP

### 3.1 Attaching to Your Phone

1. Ensure your phone or phone case is compatible with MagSafe technology. If not, proceed to section 3.2 for using the magnetic ring sticker.
2. Align the ULANZI MA60 with the magnetic area on the back of your phone.
3. The strong magnet will securely attach the stand to your device.

## Specifications

Brand:	Ulanzi
Model:	MA60
Dimensions:	5.9*9.9*0.8cm
Weight:	65g±5g
Material:	Aluminum alloy, silicone, magnet
Load Capacity:	500g

## Included

Phone Tripod\*1  
Magnetic Ring Sticker\*1

This image illustrates the magnetic attachment of the ULANZI MA60 to the back of a smartphone, demonstrating the secure connection.

### 3.2 Using the Magnetic Ring Sticker (for non-MagSafe devices)

1. Clean the back surface of your phone or phone case thoroughly to ensure optimal adhesion.
2. Peel off the adhesive backing from the magnetic ring sticker.
3. Carefully center and apply the sticker to the desired location on your phone or case. Ensure it is flat and smooth.
4. Press firmly for a few seconds to ensure strong adhesion.
5. Allow the adhesive to cure for a recommended period (e.g., 24 hours) before attaching the MA60 to ensure maximum bond strength.

## 4. OPERATING INSTRUCTIONS

### 4.1 Folding and Unfolding

The MA60 features a compact, foldable design for easy portability. Gently unfold the stand to deploy the tripod legs or extend the arm for use. To store, fold the components back into their compact form.

# Slide It In. Take It Everywhere.

So light you'll forget it's there. So small it fits in your pocket. Ready when you are.

Weight  
**≈65g**

This image shows the ULANZI MA60 in its compact, folded state and extended, ready-to-use configurations, demonstrating its portability.

## 4.2 Using as a Tripod Stand

1. Unfold the tripod legs until they are fully extended and stable on a flat surface.
2. Attach your phone magnetically to the stand.
3. Adjust the angle of your phone by rotating the magnetic mount. The stand supports both horizontal and vertical orientations.

# Angle It Your Way

Easily adjust to any angle for horizontal or vertical shots. Smooth rotation gives you total control over your framing.

The ULANZI MA60 configured as a tripod stand, holding a smartphone in a stable position for hands-free viewing or recording.

## 4.3 Using as a Handheld Grip

Fold the tripod legs inward and hold the main body of the stand for a secure handheld grip. This mode is useful for vlogging, stable video recording, or taking selfies.

# Versatility That Fits Your Flow

Whether you're shooting handheld, on a table, horizontal, vertical, or overhead, this tripod adapts to every setup with ease.

An image showing the ULANZI MA60 being held as a grip, providing a stable way to hold a smartphone for photography or videography.

## 4.4 Adjusting the Angle

The stand allows for smooth rotation and angle adjustments. Gently pivot the phone mount to achieve your desired viewing or shooting angle. The flexible design provides total control over your framing.

# Just 0.8cm Thick

With a sleek 8mm thickness, it hugs your phone closely without adding bulk or getting in the way.

This image illustrates the adjustable nature of the ULANZI MA60, with arrows indicating the range of motion for setting various angles.

## 4.5 Dual-Sided Magnetic Functionality

The MA60 features magnets on both sides. This allows you to attach your phone to one side and a compatible accessory (e.g., a small LED light or microphone) to the other side, expanding your setup possibilities for creative content creation.

# Secure Both Sides of Your Setup

Phone on one side, gear on the other. Dual-sided magnetic design lets you build your setup your way.

## 5. MAINTENANCE

- Keep the magnetic surfaces clean and free from dust, dirt, or debris to ensure optimal magnetic adhesion.
- Avoid exposing the product to extreme temperatures, direct sunlight for prolonged periods, or harsh chemicals.
- Store the stand in a dry place when not in use to prevent damage.
- Periodically check for any loose parts or signs of damage. If any issues are found, discontinue use and contact customer support.
- If the rubber padding on the magnetic ring begins to peel, discontinue use to prevent potential scratching of your device. Contact customer support for assistance.

## 6. TROUBLESHOOTING

### 6.1 Phone does not attach securely:

- Ensure your phone or case is genuinely MagSafe compatible.
- If using the magnetic ring sticker, verify it is correctly applied, fully adhered, and has had

sufficient time to cure.

- Check for any obstructions (e.g., excessively thick phone case, debris) between the stand and your phone's magnetic area.
- The maximum load capacity is 500g. Ensure your phone and any attached accessories do not exceed this weight.

6.2 Stand is unstable:

- Ensure the tripod legs are fully extended and placed on a flat, stable surface.
- Adjust the angle of the phone and stand to find a stable center of gravity for your device.
