5. Maintenance

To ensure the longevity and appearance of your Tribesigns Executive Desk, follow these maintenance guidelines:

- **Cleaning:** Wipe the desk surfaces with a dry, soft cloth. Avoid using harsh chemicals, abrasive cleaners, or excessive moisture, as these can damage the laminated finish.
- **Spills:** Immediately wipe up any spills to prevent staining or damage to the surface.
- **Heat and Moisture:** Avoid placing hot items directly on the desk. Use coasters for beverages to protect against moisture rings.
- **Sunlight Exposure:** Prolonged exposure to direct sunlight may cause fading or discoloration. Position the desk away from direct sunlight or use window coverings.
- **Hardware Check:** Periodically check all screws and fasteners to ensure they are tight. Retighten if necessary to maintain stability.

6. Troubleshooting

If you encounter any issues during assembly or use, consider the following common troubleshooting tips:

- **Assembly Difficulty:** If parts do not align or fit correctly, double-check the instruction manual for the correct orientation of each piece. Some users have noted that certain boards can be installed in the wrong direction if not carefully observed.
- **Damaged Parts:** If any parts arrive damaged, contact customer service immediately for replacement.
- **Drawer Issues:** If drawers are not sliding smoothly, ensure the drawer glides are correctly installed and aligned. Check for any obstructions in the tracks.
- **Stability Concerns:** Ensure all fasteners are securely tightened. If the desk still feels unstable, re-check the assembly steps, particularly those involving the main frame and supports.
