### 4. SETUP AND ASSEMBLY

---

Follow these steps for proper assembly:

2. **Read the Instructions:** Before starting the assembly, read through the instruction manual thoroughly to understand the steps and familiarize yourself with all parts. Identify each component by its label.
3. **Assemble the Frame:** Begin by assembling the main wooden frame according to the diagrams in your physical manual. Ensure all connections are secure but do not overtighten screws until the entire frame is aligned.
4. **Install Crate Bars and Doors:** Attach the metal bars and install the crate doors. Ensure hinges are properly aligned and doors open and close smoothly.
5. **Assemble Drawers and Shelves:** Construct the two large storage drawers and install them into their designated slots. Insert the four adjustable open storage compartments into the central shelving unit.
