WHAT'S IN THE BOX

- Infinix GT 30 Pro 5G+ Smartphone
- Phone Case
- Power Adapter
- SIM Tray Ejector
- Screen Protector
- USB Cable

SETUP GUIDE

1. Inserting SIM Card and microSD Card

Locate the SIM tray on the side of the device. Use the provided SIM tray ejector tool to open the tray. Insert your Nano-SIM card(s) and/or microSD card into the designated slots. Ensure the cards are correctly oriented as indicated on the tray. Gently push the tray back into the device until it clicks into place.

2. Initial Power On and Setup

Press and hold the Power button until the Infinix logo appears. Follow the on-screen instructions to complete the initial setup, including language selection, Wi-Fi connection, Google account sign-in, and security settings.

3. Charging the Device

Connect the USB cable to the power adapter and then to the USB-C port on your phone. Plug the power adapter into a wall outlet. The device supports 45W fast charging. For optimal battery life, avoid fully discharging the battery frequently.

OPERATING INSTRUCTIONS

Gaming Features

The GT 30 Pro 5G+ is optimized for gaming performance. It is certified by Krafton for 120 FPS BGMI gameplay, providing a smooth and responsive gaming experience.

Triggers That Do More.

Double-Tap to Launch:

Double-tap a trigger to quickly launch apps and tools (which can be customized).

Easy In-Camera Controls:

Single press to click a picture, long press for a burst shot.

Video Playback Options:

Play or pause your videos with by double-pressing a trigger.

Battery Care

The 5500 mAh battery supports bypass charging, which can help extend battery lifespan by powering the device directly from the charger during gaming, reducing battery wear. Use only the provided power adapter and USB cable for charging.

General Care

- Keep the device away from extreme temperatures, direct sunlight, and liquids.
- Clean the screen and body with a soft, lint-free cloth. Avoid abrasive materials.
- Regularly update the device software to ensure optimal performance and security.

TROUBLESHOOTING

Common Issues and Solutions

Issue	Possible Cause	Solution
Device not powering on	Low battery; software crash	Charge the device for at least 30 minutes. Perform a forced restart by holding the Power button for 10-15 seconds.
Apps crashing or freezing	Insufficient RAM; app conflict; outdated app	Close background apps. Clear app cache/data. Update the app or uninstall and reinstall it.
Poor network connectivity	Weak signal; incorrect settings; SIM card issue	Move to an area with better signal. Toggle Airplane Mode on/off. Reinsert SIM card. Reset network settings.
Overheating during gaming	Prolonged intensive use; high ambient temperature	Reduce graphics settings. Close unnecessary background apps. Allow the device to cool down. Ensure proper ventilation.

If issues persist, please contact Infinix customer support or visit an authorized service center.
