CONNECTIVITY

Connecting to Your Mobile Phone (HiSportPro App)

To synchronize information and receive notifications from your mobile phone, connect your M99 Smartwatch using the HiSportPro application. Follow these steps:

1. **Step 1:** Ensure Bluetooth is active on both your M99 Smartwatch and your mobile phone.
2. **Step 2:** On your smartwatch, download the Bluetooth assistant from the watch's app market. Use this assistant to scan and download the "HiSportPro" application onto your mobile phone. Once installed on your phone, open the Bluetooth service within the Bluetooth assistant on your watch. Then, use the HiSportPro app on your phone to scan the QR code displayed on your watch to establish the connection.
3. **Step 3:** After successful pairing, your watch will receive information pushed from your mobile phone, including call reminders, messages, heart rate data, weather updates, and more. This enables seamless synchronization of information between your phone and watch.

The HiSportPro app also facilitates online OTA upgrades for your watch's software and provides access to the app market

for additional features.

MAINTENANCE

- **Cleaning:** Gently wipe the watch screen and body with a soft, dry, lint-free cloth. Avoid using abrasive materials or harsh chemicals.
- **Water Resistance:** While the watch may have some resistance to splashes, avoid submerging it in water or exposing it to high-pressure water streams. Refer to product specifications for exact water resistance ratings.
- **Storage:** Store the watch in a cool, dry place away from direct sunlight and extreme temperatures when not in use for extended periods.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Charge the watch regularly.

TROUBLESHOOTING

Problem	Possible Solution
Watch does not turn on	Ensure the watch is fully charged. Connect it to the charger for at least 30 minutes.
Cannot connect to phone via Bluetooth	Verify Bluetooth is enabled on both devices. Ensure the HiSportPro app is installed and running on your phone. Try restarting both the watch and the phone. Forget the device in your phone's Bluetooth settings and re-pair.
Poor 4G/5G signal	Check SIM card insertion. Ensure you are in an area with network coverage. Contact your mobile network provider if issues persist.
Screen is unresponsive	Try restarting the watch. If the issue persists, contact customer support.

WARRANTY AND SUPPORT

The XINDADA M99 Smartwatch comes with a manufacturer's warranty. Please refer to the warranty card included in your package for specific terms and conditions. For technical support, product inquiries, or warranty claims, please contact XINDADA customer service through their official website or the contact information provided with your purchase documentation.
