190-degree rotating camera-retractable hidden, front, rear,
side shooting free random shot.

The innovative rotating camera allows for flexible shooting angles without obstructing the screen.

2.40" AMOLED screen Clear and durable

Experience clear and durable visuals on the 2.4-inch AMOLED display.

SETUP

Connecting to Your Mobile Phone (HiSportPro App)

To fully utilize your smartwatch's features, connect it to your mobile phone using the HiSportPro application.

- Step 1: Activate Bluetooth**

Ensure Bluetooth is enabled on both your XINDADA M99 Smartwatch and your mobile phone.

- Step 2: Download and Link the App**

On your smartwatch, access the app market and download the Bluetooth assistant. Use this assistant to scan and download the 'HiSportPro' app onto your mobile phone. Once installed, open the Bluetooth service within the assistant on your watch, then scan the QR code displayed on your watch using the HiSportPro app on your phone to establish the connection.

- Step 3: Enable Information Synchronization**

After linking, configure the HiSportPro app to allow mobile phone information to be pushed to your smartwatch. This enables you to receive notifications, heart rate data, weather updates, and access the app market directly on your watch.

Support download software adapt to a variety of applications

Good configuration, good watch, easy to buy and enjoy the joy of mobile phones supports mainstream APPs on the market

The smartwatch supports downloading a variety of applications, adapting to your needs.

OPERATING YOUR SMARTWATCH

Basic Navigation

The XINDADA M99 Smartwatch features a touch-sensitive AMOLED display for navigation. Swipe left, right, up, or down to access different menus, notifications, and quick settings. Tap icons to open applications or select options.

Making Calls

With 4G Netcom support and a SIM card, you can make and receive calls directly from your smartwatch. Access the 'Phone' application to dial numbers or view call history.

Using the Camera

The 900W rotating HD camera can be activated from the camera application. Rotate the camera lens to capture photos or videos from various angles (front, rear, side).

The main interface of the XINDADA M99 Smartwatch, showing accessible applications.

Wireless Technologies

The M99 Smartwatch integrates the following wireless technologies:

- **Wi-Fi:** For internet access and faster data transfer.
- **GPS:** Built-in GPS for accurate location tracking and navigation.
- **NFC:** For contactless payments and other NFC-enabled functionalities.
- **Bluetooth:** For connecting to your mobile phone and other Bluetooth accessories.

MAINTENANCE

Battery Care

- Charge the smartwatch using the provided charging cable.
- Avoid extreme temperatures, as they can affect battery life.
- Do not leave the battery completely drained for extended periods.

Cleaning and Storage

- Wipe the screen and body with a soft, dry, lint-free cloth.
- Avoid using harsh chemicals or abrasive materials.
- Store the smartwatch in a cool, dry place when not in use.

TROUBLESHOOTING

If you encounter any issues with your XINDADA M99 Smartwatch, please try the following basic troubleshooting steps:

- **Device not turning on:** Ensure the battery is charged. Connect the smartwatch to the charger and wait a few minutes before attempting to power it on.
- **Connectivity issues (Bluetooth/Wi-Fi):** Ensure Bluetooth and Wi-Fi are enabled on both devices. Try restarting both the smartwatch and the connected device. For app connection, re-follow the steps in the 'Setup' section.
- **App not syncing:** Verify that the HiSportPro app is running on your phone and has the necessary permissions. Check your phone's internet connection.
- **Slow performance:** Close unnecessary applications running in the background. Consider clearing cache or performing a factory reset (note: this will erase all data).

If problems persist, please refer to the 'Support' section for further assistance.
