## Globe Electric 67136

# Globe Electric 67136 72" Torchiere Floor Lamp Instruction Manual

Model: 67136

## 1. PRODUCT OVERVIEW

The Globe Electric 72-Inch Torchiere Floor Lamp (Model 67136) is designed to provide versatile lighting for your home. This two-in-one lamp features an upward-facing torchiere for ambient room illumination and an adjustable gooseneck reading arm for focused task lighting. Its matte white finish and frosted shades offer a modern, minimalist aesthetic suitable for various interior styles. Independent switches allow for separate control of each light, with the torchiere also featuring a three-step dimmer for adjustable brightness.

## 2. SAFETY INFORMATION

---

- Always unplug the lamp from the power outlet before cleaning, changing bulbs, or performing any maintenance.
- Ensure the lamp is placed on a stable, level surface to prevent tipping.
- Do not exceed the maximum wattage specified for each bulb socket: 150W for the torchiere and 40W for the reading lamp (E26 Medium Base bulbs).
- Use only E26 Medium Base bulbs. Compatible types include LED, incandescent, or smart bulbs.
- Keep the power cord away from heat sources, sharp edges, and wet areas.
- This product is intended for indoor use only. Do not expose to water or high humidity.
- Keep out of reach of children and pets.

### 3. PACKAGE CONTENTS

---

Verify that all components are present before assembly:

- Lamp Pole Sections (various segments)
- Lamp Base
- Torchiere Shade (frosted)
- Reading Lamp Shade (frosted)
- Adjustable Gooseneck Reading Arm with Socket
- Torchiere Socket Assembly
- Instruction Sheet
- *Note: Light bulbs are sold separately.*

#### 4. SETUP AND ASSEMBLY

Follow these steps to assemble your Globe Electric Torchiere Floor Lamp:

1. Carefully unpack all components and place them on a clean, flat surface.
2. Thread the power cord through the lamp pole sections, starting from the base.
3. Screw the lamp pole sections together securely, ensuring the cord is not pinched.

4. Attach the assembled lamp pole to the heavy lamp base by screwing it clockwise until tight.
5. Attach the adjustable gooseneck reading arm to its designated slot on the main pole.
6. Place the frosted torchiere shade onto the top socket assembly and secure it.
7. Place the frosted reading lamp shade onto the reading arm socket and secure it.
8. Insert the appropriate E26 base bulbs (sold separately) into each socket. Ensure the torchiere bulb does not exceed 150W and the reading lamp bulb does not exceed 40W.
9. Plug the lamp into a standard 120V AC power outlet.

## 5. OPERATING INSTRUCTIONS

---

The Globe Electric 67136 lamp offers flexible lighting control:

- **Torchiere Light:** The main upward-facing light is controlled by a rotary switch located on its socket. Turn the switch to cycle through three brightness levels (low, medium, high) and off.
- **Reading Light:** The adjustable gooseneck reading arm has its own independent on/off rotary switch. Turn the switch to activate or deactivate the reading light.
- **Adjustable Arm:** The gooseneck arm can be pivoted and bent to direct light precisely where needed for reading, tasks, or accent lighting.

Video 2: A closer look at the lamp's design and how the lights function.

## 6. MAINTENANCE

- **Cleaning:** Ensure the lamp is unplugged before cleaning. Wipe the metal surfaces with a soft, dry cloth. For the frosted shades, use a soft, damp cloth and mild soap if necessary, then dry thoroughly. Avoid abrasive cleaners.

- **Bulb Replacement:** Always unplug the lamp before replacing bulbs. Allow bulbs to cool completely before touching. Screw in new E26 base bulbs, ensuring they meet the wattage requirements (150W max for torchiere, 40W max for reading light).
- **Inspection:** Periodically check the power cord for any signs of damage, fraying, or overheating. If damage is found, discontinue use and contact a qualified electrician.

## 7. TROUBLESHOOTING

| Problem                | Possible Cause   | Solution   |
|------------------------|--|--|
| Lamp does not turn on. | Not plugged in; faulty bulb; power outage; loose connection.     | Ensure plug is fully inserted. Check if the outlet has power. Replace bulbs. Check all pole connections. |
| Light flickers.        | Loose bulb; incompatible dimmer (for torchiere); unstable power. | Tighten bulb. Ensure bulb is dimmable if using dimmer function. Test in a different outlet.              |
| Lamp is wobbly.        | Loose pole sections; uneven surface.                             | Tighten all pole connections. Place on a flat, stable surface.   |

## 8. SPECIFICATIONS
