SETUP

Charging the Headphones

Before first use, fully charge your headphones. The charging time is approximately 120 minutes.

1. Connect the small end of the USB charging cable to the USB Charging Port on the headphones.
2. Connect the large end of the USB charging cable to a USB power adapter (not included) or a computer's USB port.

3. The LED indicator light will show charging status (e.g., red for charging, off or blue for fully charged).

Powering On/Off

- **To Power On:** Press and hold the Power Button until the LED indicator lights up.
- **To Power Off:** Press and hold the Power Button until the LED indicator turns off.

OPERATING INSTRUCTIONS

Bluetooth Pairing (Wireless Mode)

The headphones use Bluetooth 5.0 for wireless connectivity.

1. Ensure the headphones are powered off.
2. Press and hold the Power Button for approximately 5-7 seconds until the LED indicator flashes blue and red alternately, indicating pairing mode.
3. On your device (cellphone, laptop, tablet, gaming console), enable Bluetooth and search for available devices.
4. Select "STN-28 Pro" or "PARIS 14 CAT HEADPHONE" from the list of devices.
5. Once paired, the LED indicator will flash blue slowly or turn solid blue.

Note: The headphones will automatically try to reconnect to the last paired device when powered on.

Wired Connection

You can use the headphones with a 3.5mm audio cable (not included) for a wired connection, even if the battery is depleted.

1. Insert one end of a 3.5mm audio cable into the 3.5mm Audio Jack on the headphones.
2. Insert the other end into the 3.5mm audio output of your device.
3. The headphones will automatically switch to wired mode.

Controlling Audio and Calls

- **Play/Pause:** Press the Power Button once.
- **Volume Up:** Press the Volume Up button once.
- **Volume Down:** Press the Volume Down button once.
- **Next Track:** Hold the Volume Up button.
- **Previous Track:** Hold the Volume Down button.
- **Answer/End Call:** Press the Power Button once during an incoming call.
- **Reject Call:** Hold the Power Button during an incoming call.

MAINTENANCE AND CARE

To ensure the longevity of your headphones, follow these care instructions:

- Keep the headphones dry. Do not expose them to water or excessive moisture.
- Clean the earcups and headband with a soft, dry cloth. Do not use abrasive cleaners.
- Store the headphones in a cool, dry place when not in use.
- Avoid extreme temperatures.
- Do not disassemble the headphones. This will void the warranty.
- When folding the headphones for storage or travel, do so gently to avoid damage.

TROUBLESHOOTING

If you encounter issues with your headphones, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Headphones do not power on.	Low battery.	Charge the headphones fully.
Cannot pair via Bluetooth.	Headphones not in pairing mode; device Bluetooth off; too far from device.	Ensure headphones are in pairing mode (flashing red/blue). Turn device Bluetooth off/on. Move headphones closer to device (within 10 meters).

Problem	Possible Cause	Solution
No sound in wireless mode.	Not paired; volume too low; incorrect audio output selected on device.	Ensure headphones are paired. Increase headphone and device volume. Check device's audio output settings.
Microphone not working.	Incorrect input device selected on computer/device.	Check your device's sound settings and ensure "STN-28 Pro" or "PARIS 14 CAT HEADPHONE" is selected as the input device.
LED cat ears not lighting up.	Feature may be off or battery low.	Ensure headphones are powered on and charged. Some models may have a separate button for LED lights (refer to product overview if applicable).
