## 4. USAGE GUIDELINES

### 4.1. Using the Bunk Bed

- **Upper Bunk:** Only children capable of safely climbing the ladder should use the upper bunk.
- **Ladder Use:** Always use the built-in ladder for ascending and descending the upper bunk. Do not jump on or off the bed.
- **Guardrails:** Ensure guardrails are always in place and secure when the upper bunk is in use.
- **Mattress Placement:** Place the mattress firmly within the bed frame.

### 4.2. Convertible Design

The lower bunk can be configured in two ways:

- **Twin Floor Bunk Bed:** Use as a standard lower sleeping area.
- **Twin Loft:** If the lower bed slats are not installed, the space underneath can be utilized for play, storage, or a desk area.

## Make the most of that underbed space

There are no slats for the bottom bed,  
so you can use the space underneath for more than just sleeping.  
It's also great for kids to play and have fun in!
