

BASETBL C051B

BASETBL C051B Big and Tall Office Chair User Manual

Model: C051B

1. IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before assembly and use. Retain this manual for future reference.

- **Weight Capacity:** This chair is designed to support a maximum weight of 200 kg (440 lbs). Do not exceed this limit.
- **Stability:** Ensure all bolts and screws are securely tightened before use. Periodically check and re-tighten as necessary.
- **Proper Use:** Use the chair only for its intended purpose. Avoid standing on the chair or using it as a step stool.
- **Children:** Keep children away from the assembly area. Small parts may pose a choking hazard.
- **Certifications:** This chair complies with the EN12520 European standard and features a TÜV-certified gas lift for safety and durability.

2. SETUP AND ASSEMBLY

The BASETBL C051B office chair requires assembly. All necessary tools and instructions are included in the packaging. It is recommended to assemble the chair on a soft, clean surface to prevent damage.

1. **Unpack Components:** Carefully remove all parts from the box and lay them out. Verify that all components listed in the included assembly guide are present.
2. **Follow Assembly Guide:** Refer to the detailed step-by-step assembly instructions provided in the separate assembly manual.
3. **Secure Connections:** Ensure all screws and bolts are tightened firmly. Do not overtighten.
4. **Final Check:** Once assembled, test the chair's stability and all adjustable functions before regular use.

EXCEPTIONAL QUALITY

TÜV-certified gas lift for safety; EN 12520-certified for stability and durability.

3. OPERATING INSTRUCTIONS

Familiarize yourself with the chair's adjustable features to optimize your comfort and support.

- **Seat Height Adjustment:** Use the lever located on the right side of the chair (when seated) to adjust the seat height. Pull the lever up to raise or lower the seat. Release the lever at the desired height. The seat height adjusts from 49 cm (19.3") to 57 cm (22.4").
- **Recline and Tilt Lock:** The chair allows you to lock the tilt angle between 90° (upright) and 120° (reclined). Use the lever on the left side to engage or disengage the tilt lock. Recline to your desired angle and then push the lever down to lock it.
- **Adjustable Headrest:** The headrest can be raised up to 9 cm (3.5") to provide optimal neck support. Adjust it by pulling it up or pushing it down to your preferred position.
- **Synchronous Armrests:** The armrests are designed to move synchronously with the reclining angle of the backrest, providing continuous elbow support.
- **Retractable Footrest:** To extend the footrest, pull it out from under the seat. To retract, push it back in until it is fully concealed.
- **Detachable Lumbar Pillow:** The lumbar pillow provides additional lower back support and can be adjusted or removed as per your comfort preference.

ARBITRARY ANGLE LOCKING FROM 90° TO 120°

4. MAINTENANCE

Regular maintenance helps prolong the life and appearance of your BASETBL office chair.

- **Cleaning:** The chair is made from durable, water-resistant, and easy-to-clean PU leather. For general cleaning, wipe with a soft, damp cloth. For spills or stains, spot clean using a mild soap solution and a soft cloth. Avoid harsh chemicals or abrasive cleaners.
- **Casters:** The 360° rubber casters are designed to glide smoothly on various floor types (hardwood, carpet, tile) without scratching. Periodically check casters for any accumulated debris (hair, dust) and clean as needed to ensure smooth movement.
- **Hardware:** Periodically inspect all bolts, screws, and connections to ensure they remain tight. Retighten if any looseness is detected.

Feature	Our Product	Others
Durability and Safety	 The 15 cm thick seat cushion ensures durability and safety. 	Thin, cheap metal materials compromise safety. 
Reclining Mechanism	 User-friendly lever design for easy operation. 	Difficult-to-operate lever diminishes user experience. 
Structural Support	 A 300,000-cycle durability test guarantees stability. 	The joined structure of two steel plates can become loose and unstable.

5. TROUBLESHOOTING

If you encounter any issues with your BASETBL C051B office chair, please refer to the following common solutions:

- **Chair feels unstable or wobbly:** Ensure all assembly bolts and screws are securely tightened. Check that the base and casters are properly attached.
- **Chair does not adjust height:** Verify that the gas lift lever is functioning correctly and not obstructed. If the gas lift is faulty, it may require replacement.
- **Casters not rolling smoothly:** Check for debris (hair, lint) wrapped around the caster wheels and remove it. Ensure the casters are properly inserted into the chair base.
- **Squeaking noises:** Apply a small amount of silicone lubricant to moving parts or connection points if persistent squeaking occurs.

For further assistance or issues not covered here, please contact customer support as described in the Warranty and Support section.

6. SPECIFICATIONS

Feature	Detail
