Safety Information

- Always wear appropriate safety gear, including gloves and eye protection, during installation.
- Ensure the wall structure is capable of supporting the weight of the door and track system. A header board (not included) is recommended for proper installation and support.
- Keep children and pets away from the installation area.
- Handle glass components with care to prevent breakage and injury. The door features 4mm tempered glass designed to reduce injury risk upon breakage.
- Follow all local building codes and regulations.
- If you are unsure about any part of the installation process, consult a qualified professional.

Packing List

Verify that all components are present before beginning installation. If any parts are missing or damaged, contact customer support.

Door and Track Dimensions (for 24" x 80" model)

Option Name	Each Panel Size (Width)	Each Panel Size (Height)	Track Length	Rough Opening Height	Minimum Ceiling Clearance
24" x 80"	24	80	72	< 80	86

SETUP AND INSTALLATION

This barn door system is designed for straightforward installation. Please note that a header board is not included and may be required for secure mounting, especially if studs do not align with track mounting points. The slab door requires drilling for hardware attachment.

- 1. Prepare the Opening:** Ensure the door opening is clear and the wall above is structurally sound. Install a header board if necessary.
- 2. Mount the Track:** Mark the desired height for the track. Securely attach the track to the wall or header board using the

provided hardware. Ensure the track is level.

3. **Install Door Hangers:** Attach the hangers to the top edge of the door panel. The door slab requires drilling for these attachments.
4. **Hang the Door:** Carefully lift the door and hook the hanger rollers onto the track.
5. **Install Floor Guide:** Position the floor guide at the bottom of the door opening to prevent the door from swinging out. Secure it to the floor.
6. **Adjust Stoppers and Anti-Jump Pads:** Install the track stoppers at the ends of the track to limit door travel. Attach anti-jump pads to the top of the door to prevent it from lifting off the track.
7. **Final Checks:** Test the door's movement to ensure it glides smoothly and operates correctly.

OPERATION

The WIN STELLAR barn door is designed for smooth and quiet operation. To open or close the door, simply grasp the door panel and slide it along the track. The door glides smoothly, providing a space-saving solution.

- Ensure the path of the door is clear of obstructions before sliding.
- Avoid forcing the door if it encounters resistance. Check for obstructions or alignment issues.
- The frosted glass provides privacy while still allowing natural light to pass through.

FROSTED GLASS

Privacy Protection

But Also Let Lights In

Image: A close-up view illustrating the frosted glass feature, which offers privacy while allowing light to filter into the room.

MAINTENANCE

Regular maintenance will ensure the longevity and smooth operation of your barn door.

- **Cleaning the Glass:** Use a soft, lint-free cloth and a non-abrasive glass cleaner for the frosted glass panels. Avoid harsh chemicals that could damage the frosted finish.
- **Cleaning the Door Panel:** Wipe the primed door surface with a damp cloth. If painted, use a cleaner appropriate for the paint type.
- **Track and Hardware:** Periodically inspect the track and rollers for dust or debris. Clean the track with a dry cloth. Lubricate rollers and moving parts with a silicone-based lubricant if needed to maintain smooth gliding.

- **Tighten Fasteners:** Check all screws and bolts on the track and hangers periodically and tighten if loose.

TROUBLESHOOTING

If you encounter issues with your barn door, refer to the following common problems and solutions.

- **Door is difficult to slide:**
 - Check the track for debris or obstructions. Clean thoroughly.
 - Ensure the track is level. Adjust if necessary.
 - Lubricate the rollers with a silicone spray.
 - Verify the floor guide is properly aligned and not causing friction.
- **Door makes noise when sliding:**
 - Lubricate the rollers and track.
 - Check for loose hardware on the hangers or track. Tighten as needed.
- **Door swings away from the wall:**
 - Ensure the floor guide is securely installed and properly adjusted to hold the door in place.
- **Door is not level:**
 - Check the track's levelness and adjust mounting points if necessary.
 - Verify that the hangers are installed evenly on the door panel.

SPECIFICATIONS

Key features and material specifications of the WIN STELLAR 5-Lite Frosted Glass Hidden Barn Track Door.

- **Model Number:** wf_03BD082SLPW2480-2610F
- **Door Dimensions:** 24 inches (Width) x 80 inches (Height)
- **Door Material:** MDF Solid Core Door (Primed Surface, Paintable)
 - Provides 70% sound insulation.
 - Offers enhanced durability and strength compared to hollow core doors.
- **Glass Type:** 4mm Tempered Frosted Glass
 - Stronger and more resistant to breakage.
 - Breaks into small, non-sharp fragments, reducing injury risk.
 - Provides privacy while allowing light transmission.
- **Hardware Durability:** Barn door hardware passed 100,000 open-and-close tests, ensuring long-term use.
- **Certifications:**
 - TSCA (Toxic Substances Control Act): Harmless to Environment and Human.
 - EPA (Environmental Protection Agency): Friendly to Environment and Human.
 - CARB (California Air Resources Board): Formaldehyde Release Below Standard.
 - FSC (Forest Stewardship Council): Sustainable Operation.
 - SGCC (Safety Glazing Certification Council): Reliable Glass.
