PRODUCT OVERVIEW

Image: The main karaoke speaker unit in purple, featuring a front grill with an emoji display, and two wireless microphones. The MgaoLo Mini Karaoke Machine consists of a compact speaker unit and two wireless microphones. The speaker features top-mounted controls for playback and volume, a side-mounted handle, and a front-facing LED display for interactive emojis and light shows. The microphones are designed for comfortable handling and include individual controls for power, volume, and voice effects.

SETUP

1. Power On/Off

- Speaker:** Long press the power button on the top of the speaker to turn it on or off. The LED display will activate.
- Microphones:** Long press the power button on each microphone to turn it on or off. A blue indicator light will illuminate when powered on.

2. Bluetooth Pairing

EASY TO CONNECT & PLAY

Match Your Mobile Device Quickly

Bluetooth

TF Card

Phone

Computer

Pad

Laptop

AUX

Image: The karaoke speaker displaying its various connectivity options including Bluetooth, TF Card, and AUX input, shown with multiple devices.

1. Ensure the karaoke speaker is powered on and in Bluetooth pairing mode (indicated by a blinking light or specific emoji).
2. On your smartphone, tablet, or other Bluetooth-enabled device, go to the Bluetooth settings.
3. Search for available devices and select "MgaoLo Karaoke" (or similar name, refer to your device's Bluetooth list).
4. Once connected, the speaker will emit an audible confirmation, and the indicator light will become solid.
5. The wireless microphones will automatically pair with the speaker when both are powered on.

3. Other Connection Options

- **TF Card:** Insert a TF (Micro SD) card (not included) into the designated slot on the speaker. The speaker will automatically switch to TF card playback mode.
- **AUX Input:** Connect an external audio device using a 3.5mm AUX cable (not included) to the AUX port on the speaker. The speaker will switch to AUX mode.

OPERATING INSTRUCTIONS

1. Music Playback

- Once connected via Bluetooth, TF card, or AUX, play music from your connected device.
- Use the play/pause button on the speaker to control music playback.
- Use the volume buttons (+/-) on the speaker to adjust the music volume.
- Use the skip track buttons (forward/backward) on the speaker to navigate through songs.

2. Microphone Usage

- Ensure both microphones are powered on and paired with the speaker.
- Speak or sing into the microphone. The sound will be amplified through the speaker.
- Use the volume buttons (+/-) on the microphone to adjust the microphone's volume independently.
- Echo Effect:** Short press the echo button on the microphone to cycle through different echo levels.
- Voice Changer:** Short press the voice changer button on the microphone to cycle through 5 different voice effects (Original, Baby, Male, Female, Monster).

Image: A visual representation of the five distinct voice effects that can be applied using the wireless microphones.

3. LED Lights & Emoji Display

- The speaker features multi-color LED lights that sync with music rhythms.
- Short press the light button on the speaker to cycle through different light modes and emoji displays.
- Long press the light button to turn the lights on or off.

CHARGING

Image: Visual guide to the battery and charging features, indicating play time, charging duration, and battery capacity.

- Connect the provided USB Type-C charging cable to the DC 5V port on the speaker and to a compatible USB power adapter (not included).
- Connect the charging cable to the charging port at the bottom of each microphone.
- The indicator light on the speaker/microphones will show charging status (e.g., red for charging, blue/off for fully charged).
- A full charge typically takes 2-3 hours. The speaker provides 6-10+ hours of play time on a full charge.

MAINTENANCE

- Clean the device with a soft, dry cloth. Do not use abrasive cleaners or solvents.

- Keep the device away from water, moisture, and direct heat sources.
- Store the device in a cool, dry place when not in use.

TROUBLESHOOTING

Issue	Solution
No sound from speaker	Ensure speaker is powered on, volume is up, and correctly paired/connected. Check source device volume.
Microphone not connecting	Ensure microphones are charged and powered on. Restart both microphones and speaker.
LED lights not working	Short press the light button to cycle modes. Long press to turn on/off. Ensure speaker is powered on.
Poor sound quality	Ensure devices are within Bluetooth range. Check for interference. Adjust volume levels on both speaker and microphones.
