> DoCred 1-2 Person Inflatable Hot Tub (Model: 75" X 47" X 25" Oval) Instruction Manual

## DoCred 75" X 47" X 25" Oval

# DoCred 1-2 Person Inflatable Hot Tub

MODEL: 75" X 47" X 25" OVAL

User Instruction Manual

## Introduction

---

Thank you for choosing the DoCred 1-2 Person Inflatable Hot Tub. This manual provides essential information for the safe and efficient setup, operation, and maintenance of your new hot tub. Please read all instructions carefully before installation and use, and retain this manual for future reference.

## Important Safety Information

---

Always follow basic safety precautions when using electrical appliances, especially when children are present. Read and follow all instructions. Failure to do so could result in serious injury or death. This hot tub is intended for domestic use only. Do not use extension cords. Ensure the power outlet is properly grounded.

## Setup

---

Proper setup is crucial for the performance and longevity of your inflatable hot tub. Follow these steps carefully:

1. **Site Preparation:** Place the included ground mat on a clean, level surface. Unfold the tub and position it centrally on the mat.
2. **Pre-Inflation Checks:** Verify the drainage valve (bottom of tub) is fully sealed. Remove the lower rear cover of the heater pump and tighten the nut.
3. **Inflation Procedure:** Attach the inflation hose to the tub's air valve. Confirm the heater pump's front base panel

is securely closed. Power on the pump and activate inflation mode by pressing the BUBBLE button. Inflate until structural rigidity is achieved (do not exceed recommended pressure). Terminate inflation by pressing BUBBLE again, then engage the LOCK function to deactivate the system.

4. **Connect Control Panel:** Disconnect the hose and secure the cap. Remove the inflation hose from the rear port of the pump. Tighten the rear cover of the heater pump firmly. Unscrew the front bottom cover of the pump to expose the connection ports. Connect the heating pump to the tub by installing the three supplied hoses.
5. **Filtration System Installation:** Secure the filter cover onto the cartridge. Then insert the assembled filter into the tub's water inlet.
6. **Heating Preparation:** Set the desired temperature via the digital control panel. Initiate heating by pressing the HEATER button. Fill the tub to a level between the MIN and MAX markers. Secure the insulated hot tub cover.

# 1350W HEATING THERMOSTAT SYSTEM

- ✓ Temp Range: 68°F to 104°F
- ✓ Heating Rate: 1.8°F-3.6°F/H
- ✓ Thermostatic Heating

## Energy-Saving SPA Cover

- ✓ Provide Extra Insulation and Minimize heat loss
- ✓ Avoid Rainwater, leaves and other mess getting in

Lockable Safety Latches

## Operating Instructions

Once your hot tub is set up and filled, you can begin enjoying its features:

- **Control Panel:** The easy-touch control panel allows one-touch operation to inflate the bath, adjust temperature, activate bubbles, and manage the filter. Temperature can be set from 68°F to 104°F.
- **Heating Function:** The 1350W double-tube heater pump warms water from 68°F to 104°F, raising the temperature by 1.8-3.6°F per hour. A thermostatic system maintains the desired temperature. Use the insulated cover during heating for better efficiency.
- **Bubble Jets Massage:** Enjoy a gentle massage with 100 air jets. **Note:** Do not use heating and massage bubble functions simultaneously, as this may affect heating efficiency. It is recommended to use the massage function after heating.

## Maintenance

Regular maintenance ensures clean water and extends the life of your hot tub:

- **Filtration System:** The advanced filtration system keeps water clean. Two replaceable filter cartridges efficiently capture sand, debris, and hair.
- **Filter Replacement:** After 168 hours of use, the heater pump will prompt you to replace the filter for optimal performance. The control panel will alarm and display 'FC' when the filter loses its function. It is recommended to disconnect power before replacing the filter cartridge and cleaning the water inlet cover.
- **Water Care:** Regularly test and adjust water chemistry to maintain proper pH and sanitizer levels.

# ADVANCED WATER RECIRCULATION FILTER

keep your water clean and hygienic

The image shows two women in a hot tub on a balcony, enjoying drinks. Below them is a circular inset showing a blue and white filter system. To the right of the inset are four circular icons representing the types of debris the filter removes: leaves, sand, sediment, and hair.

Leaves      Sand      Sediment      Hair

Image: The advanced water recirculation filter system, illustrating how it keeps water clean by removing leaves, sand, sediment, and hair.

## Troubleshooting

If you encounter issues with your hot tub, refer to the following common problems and solutions:

- **HL Error Message:** This error typically indicates an issue with the filter. Refer to the 'Resolve the HL Error Message' video in the Maintenance section for detailed steps on how to address this, including filter replacement and cleaning.
- **Slow Heating:** In colder environments (below 10°C/50°F), heating time will be longer. Ensure the insulated cover is securely fastened during heating.
- **FC Error Message:** This indicates the filter has lost its filtering function and needs replacement.
- **No Power:** Check the Ground Fault Circuit Interrupter (GFCI) on the power cord. If necessary, refer to the 'Replace the new Ground Fault Circuit Interrupter' video for guidance.

For other issues or persistent problems, please contact customer support.

## Specifications

---

Feature	Detail
Brand	DoCred
Model	75" X 47" X 25" Oval
Product Dimensions	75"L x 47"W x 25"H
Material	Polyvinyl Chloride (PVC)
Shape	Oval
Capacity	145 Gallons
Seating Capacity	1-2 People
Number of Jets	100
Heater Pump Power	1350W
Jets Power	600W
Temperature Range	68°F to 104°F

# 1-2 PERSON INFLATABLE HOT TUB

## Specification

Capacity	1-2 People
Water Capacity	145 Gal
Rated Power	1350W
Jets Power	600W

1 x Heater Pump

1 x SPA Cover

1 x Floor Mat

1 x Side Table

2 x Filter Cartridges

2 x Filter Covers

2 x Repair Kits

## Warranty and Support

Your DoCred Inflatable Hot Tub comes with a standard return policy allowing for refund or replacement within 30 days of purchase. For specific warranty details, please refer to the product packaging or contact DoCred customer service. If you find any missing parts or encounter problems during use, please contact us immediately for assistance.

## Important Notes

- It is not recommended to use the hot tub in environments below 10 degrees Celsius (50 degrees Fahrenheit), as heating efficiency will be significantly reduced.
- Always ensure the hot tub is placed on a stable, level surface to prevent damage and ensure safe operation.
