GoveeLife H5111

GoveeLife Refrigerator Freezer Thermometer H5111

Instruction Manual

Model: H5111 | Brand: GoveeLife

INTRODUCTION

The GoveeLife H5111 Refrigerator Freezer Thermometer provides accurate and real-time temperature monitoring for your refrigerator, freezer, or other environments. This device connects via Bluetooth to your smartphone, allowing you to track temperature data, set alarms, and receive alerts through the Govee Home app. For remote monitoring and advanced alerts, the thermometer can be paired with a compatible GoveeLife Wi-Fi Gateway (sold separately).

PACKAGE CONTENTS

Verify that all items are present in the package:

- Smart Thermometer with Probes (x1)
- AAA Battery (x2)
- Holder (x1)
- Lanyard (x1)
- FDA Tape (x2)

Package Contents

- 1 Smart Thermometer x1 (AAA Batteries included)
- 2 Holder x1
- 3 Lanyard x1
- 4 3M Adhesive Tape x2

PRODUCT FEATURES

- **Real-Time Bluetooth Monitoring:** Connects to your smartphone via Bluetooth for live and historical temperature data.
- **High-Precision Sensor:** Features a 2.7mm NTC probe with $\pm 0.9^{\circ}\text{F}$ / $\pm 0.5^{\circ}\text{C}$ accuracy and a 2-second response time.
- **Wide Temperature Range:** Monitors temperatures from -40°F to 158°F (-40°C to 70°C).
- **Audible Alarm:** Built-in 80dB buzzer provides instant alerts when temperatures exceed set ranges.

- **Smart Anti-False Alarm:** Configurable delay to prevent alarms from short door openings.
- **Gateway Compatibility:** Supports remote monitoring and push/email alerts when paired with a GoveeLife H5151 Gateway (sold separately).
- **Multi-Sensor Support:** A single gateway can manage up to 10 sensors for comprehensive home temperature management.
- **2-Year Data Storage:** Access historical temperature data for up to two years.

Precision You Can Count On

Accurate and reliable temperature readings made possible by the advanced NTC probe.

SETUP

1. Battery Installation

1. Open the battery compartment cover on the back of the thermometer.
2. Insert two AAA batteries, ensuring correct polarity (+/-).
3. Close the battery compartment cover securely.

2. App Download and Bluetooth Pairing

1. Download the **Govee Home** app from the App Store (iOS) or Google Play (Android).
2. Open the Govee Home app and create an account or log in.
3. Tap the "+" icon in the upper right corner of the app to add a new device.
4. Search for model "H5111" and select it.
5. Follow the on-screen instructions to pair the thermometer via Bluetooth. This typically involves pressing the button on the side of the device.

3. Gateway Pairing (Optional for Remote Monitoring)

To enable remote monitoring and receive alerts outside of Bluetooth range, you will need a GoveeLife H5151 Gateway (sold separately).

1. Ensure your H5151 Gateway is set up and connected to your Wi-Fi network.
2. In the Govee Home app, navigate to the H5111 device settings.
3. Tap on "Remote View" and then "Add" to select your H5151 gateway.
4. Follow the app instructions to complete the gateway pairing process.

4. Mounting Options

The thermometer offers multiple mounting solutions:

- **Magnetic:** Attach the thermometer directly to a metallic surface, such as the exterior of a refrigerator or freezer.
- **Lanyard:** Use the included lanyard to hang the thermometer.
- **Cable Winder:** Utilize the integrated cable winder on the holder to manage the probe cable and secure the device.

Easy 5-Minute Setup

Multiple mounting options to suit your needs.

OPERATING INSTRUCTIONS

1. Monitoring Temperature

- Once paired, open the Govee Home app to view the current temperature readings from your H5111 thermometer.
- The app displays real-time data and historical graphs, allowing you to track temperature fluctuations over time.

Bluetooth Temperature Monitoring via App

Track real-time temperatures through clear app graphs with a 200ft Bluetooth range.

Image: App interface showing temperature monitoring via Bluetooth.

2. Setting Alarms

- Within the Govee Home app, navigate to the H5111 device settings.
- Set your desired upper and lower temperature thresholds for alerts.
- When the temperature goes outside these set ranges, the device will trigger an audible alarm and send app notifications. If paired with a gateway, email alerts will also be sent.

Instant Audible Alerts

The 80dB buzzer ensures you never miss temperature issues.

Image: Audible alarm feature in action, indicating a temperature deviation.

3. Audible Alarm Function

- The built-in 80dB buzzer provides a loud, immediate alert.
- To silence the audible alarm, press the button located on the side of the device. The buzzer can also be set to mute via the app.

4. Smart Anti-False Alarm

- Configure the anti-false alarm feature in the Govee Home app. This allows you to set a delay (e.g., 5 minutes) before an alarm is triggered.

- This prevents unnecessary alarms from brief door openings, ensuring you are only notified when a temperature issue is significant.

Image: Anti-false alarm setting in the Govee Home app.

MAINTENANCE

- **Cleaning:** Wipe the thermometer and probe with a clean, damp cloth. Do not immerse the main unit in water. The probe is freezer safe.
- **Battery Replacement:** Replace AAA batteries when the low battery alert is displayed in the app or on the device. Ensure correct polarity.
- **Storage:** When not in use for extended periods, remove the batteries and store the device in a cool, dry place.

TROUBLESHOOTING

- **Device not pairing:** Ensure Bluetooth is enabled on your smartphone and the thermometer is within range. Check battery levels. Try restarting the app and the thermometer.
- **Inaccurate readings:** Verify the probe is correctly positioned and not obstructed. Ensure the thermometer is not exposed to extreme external temperatures that could affect its internal components.
- **No remote alerts:** Confirm that your GoveeLife H5151 Gateway is properly set up, connected to Wi-Fi, and successfully paired with the H5111 thermometer. Check your app notification settings and email spam folders.
- **Audible alarm not working:** Check if the buzzer is muted in the app settings. Ensure the device has sufficient battery power.

SPECIFICATIONS

Model Name	H5111
Brand	GoveeLife
Temperature Range	-40°F to 158°F (-40°C to 70°C)
Accuracy	±0.9°F / ±0.5°C

Response Time	2 seconds
Connectivity	Bluetooth
Audible Alarm	80dB
Power Source	2 x AAA Batteries (included)
Data Storage	2 Years Free Data Storage
Product Care	Freezer Safe, Wipe Clean
Indoor/Outdoor Usage	Indoor

WARRANTY AND SUPPORT

GoveeLife products come with a standard warranty. For specific warranty details, product support, or technical assistance, please refer to the official GoveeLife website or contact their customer service directly. You can often find support resources, FAQs, and contact information on the Govee Home app or the GoveeLife brand store on Amazon.

Online Support: Visit www.govee.com for product information, FAQs, and support contact.

Email Support: Contact GoveeLife customer service via the email address provided on their official website or within the Govee Home app.
