Treasure Garden AKZ PLUS 10'x13' Rectangular

Treasure Garden AKZ PLUS Cantilever Umbrella User Manual

Model: AKZ PLUS 10'x13' Rectangular

Brand: Treasure Garden

INTRODUCTION

This manual provides comprehensive instructions for the assembly, operation, maintenance, and troubleshooting of your Treasure Garden AKZ PLUS Cantilever Umbrella. Please read this manual thoroughly before use to ensure proper function and longevity of your product.

The Treasure Garden AKZ PLUS Cantilever Umbrella is designed to provide extensive shade for outdoor spaces, featuring a durable frame and a high-quality canopy. This model includes a rolling base for enhanced mobility and stability.

SAFETY INFORMATION

- Always ensure the umbrella base is properly filled and secured before opening the canopy. The AKZ13 Rolling Base requires up to 300 lbs of sand and water for stability (sand not included).
- Do not use the umbrella in high winds or severe weather conditions. Close and secure the canopy to prevent damage or injury.
- Keep children and pets away from the umbrella during opening, closing, or adjustment to prevent pinching or entanglement.
- Regularly inspect all components for wear, damage, or loose connections. Do not operate if any part is damaged.
- Avoid placing the umbrella near open flames or heat sources.

COMPONENTS LIST

Verify that all components are present before beginning assembly:

- Cantilever Umbrella Frame (Main Pole, Arm, Hub)
- Canopy Fabric (Obravia Boulder)
- AKZ13 Rolling Base (Base Shell, Lid, Wheels, Foot Pedal)
- Assembly Hardware (Bolts, Washers, Wrenches - specific to model)
- Instruction Manual (This document)

SETUP AND ASSEMBLY

Follow these steps to assemble your Treasure Garden AKZ PLUS Cantilever Umbrella:

- 1. Prepare the Base:** Place the AKZ13 Rolling Base in your desired location. Fill the base with approximately 300 lbs of sand and water. Ensure the lid is securely fastened.

FOOT PEDAL ROTATION & ROLLING BASE

Move umbrella position with ease.

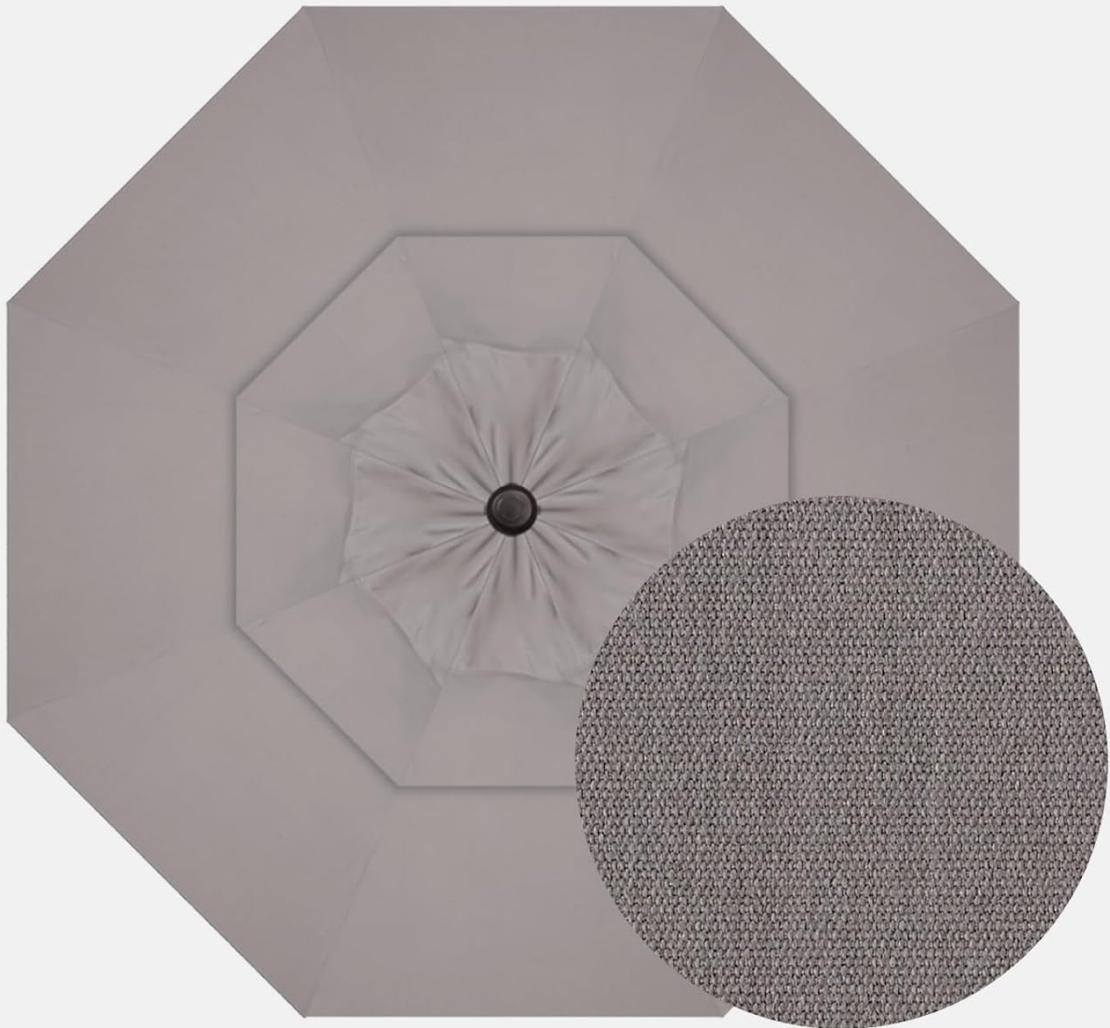

Image: The AKZ13 Rolling Base, showing the sturdy black base with a foot pedal for rotation. This base provides stability and mobility for the umbrella.

- 2. Attach the Main Pole:** Securely attach the main pole of the cantilever umbrella frame to the designated slot on the rolling base using the provided hardware. Ensure all bolts are tightened.

3. **Install the Canopy:** Carefully attach the Obravia Boulder canopy fabric to the umbrella frame. Ensure it is properly aligned and secured to all ribs and the central hub.

UV RESISTANCE

DURABLE

EASY TO CLEAN

FADE RESISTANCE

Image: A top-down view of the umbrella canopy, highlighting its durable Obravia fabric which is UV resistant, durable, easy to clean, and fade resistant.

4. **Final Check:** Before first use, double-check all connections and ensure the umbrella is stable and level.

OPERATING INSTRUCTIONS

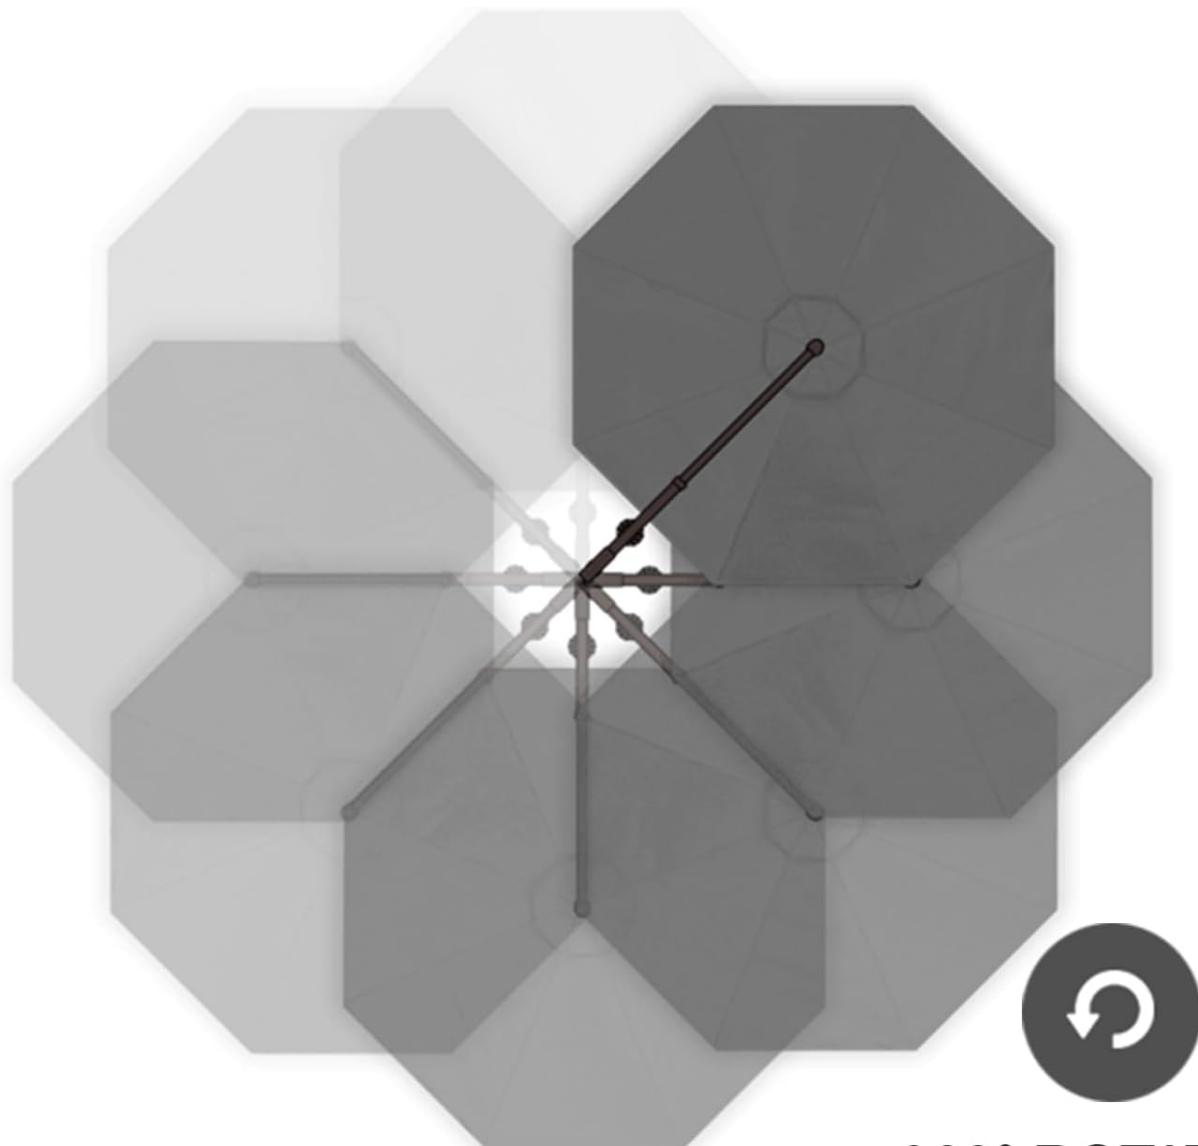

Your AKZ PLUS Cantilever Umbrella offers versatile shading options:

- **Opening and Closing:** Use the crank handle located on the main pole to smoothly open and close the umbrella canopy. Turn clockwise to open and counter-clockwise to close.
- **Tilting Mechanism:** The umbrella features a multi-angle tilt function. Adjust the tilt by manipulating the handle on the arm to achieve desired shade coverage. It offers infinite front-to-back tilting and left-to-right tilting up to 54 degrees.

Image: Illustration showing the umbrella's tilting capability, allowing for precise shade adjustment throughout the day.

- **360° Rotation:** To rotate the umbrella, depress the foot pedal located on the base and gently rotate the canopy to your desired position. Release the pedal to lock it in place. This allows for full shade coverage as the sun moves.

360° ROTATION CAPABILITY

Allows full shade coverage.

Image: An overhead view demonstrating the umbrella's 360-degree rotation capability, showing how the canopy can be positioned to cover various areas.

- **Mobility:** The AKZ13 Rolling Base is equipped with wheels, allowing you to reposition the entire umbrella system with ease once the base is filled.

MAINTENANCE

- **Canopy Cleaning:** The Obravia canopy fabric is easy to clean. For general cleaning, brush off loose dirt, then spray with a mild soap and water solution. Rinse thoroughly and allow to air dry completely before closing or storing. Avoid harsh chemicals.
- **Frame Care:** The powder-coated aluminum frame should be wiped clean with a damp cloth. Avoid abrasive cleaners.

POWDER-COATED ALUMINUM

Durable frame and 100% Kevlar mesh lift cord.

Image: A close-up detail of the powder-coated aluminum frame, illustrating its durable finish.

- **Winter Storage:** During off-season or prolonged periods of non-use, it is recommended to close the umbrella, remove the canopy if possible, and store it in a dry, protected area. A protective cover (sold separately) is highly recommended.
- **Base Maintenance:** Periodically check the fill level of the base and replenish sand and water as needed to maintain stability.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Umbrella is unstable or tips easily.	Base not sufficiently filled or secured.	Ensure the AKZ13 Rolling Base is filled with 300 lbs of sand and water. Check that the lid is securely fastened and the base is on a level surface.
Crank mechanism is stiff or difficult to operate.	Lack of lubrication or debris in mechanism.	Apply a silicone-based lubricant to moving parts. Clear any visible debris.

Problem	Possible Cause	Solution
Canopy does not open fully or evenly.	Fabric caught, or ribs are misaligned.	Inspect the canopy for obstructions. Gently guide the ribs into place if misaligned.
Umbrella does not rotate smoothly.	Foot pedal not fully depressed or mechanism needs cleaning.	Ensure the foot pedal is fully depressed. Clean any dirt or debris from the rotation mechanism.
