Airpher K25

Airpher K25 Cordless Vacuum Cleaner User Manual

Brand: Airpher | Model: K25

INTRODUCTION

Thank you for choosing the Airpher K25 Cordless Vacuum Cleaner. This manual provides essential information for the safe and efficient operation, maintenance, and care of your new appliance. Please read it thoroughly before use and retain it for future reference.

Figure 1: Airpher K25 Cordless Vacuum Cleaner and Included Accessories

The Airpher K25 is a versatile and powerful cleaning solution designed for various surfaces, including carpets, hardwood floors, and tiles. Its advanced features, such as AI auto-suction and a dual-motor system, ensure thorough cleaning performance.

SETUP

1. Assembly

The Airpher K25 features a modular design for easy assembly and versatility. Connect the main vacuum body to the adjustable extension rod, and then attach the V-shaped anti-tangle floor brush. Ensure all connections click securely into place.

Figure 2: Main components of the Airpher K25 for assembly.

2. Charging the Battery

The vacuum is powered by an upgraded eight-cell removable battery. It supports two charging methods:

1. **Detachable Battery Charging:** Remove the battery pack and connect it directly to the adapter.
2. **Wireless Wall Mount Charging:** Install the included wall hanger in a convenient location. The vacuum can be mounted on the wall hanger, and the adapter can be plugged into the hanger to charge the battery while stored.

A full charge takes approximately 2.5 hours. The smart touch display will indicate the battery level.

OPERATING INSTRUCTIONS

1. Power Modes and AI Auto-Adjusting Suction

The Airpher K25 features a user-friendly smart touch display to manage power modes and monitor status. Press the power button to turn on the vacuum. Cycle through the three manual power modes by pressing the mode switch button:

- **Level 1 Light (20KPA):** For daily hard floor cleaning (up to 70 minutes runtime).
- **Level 2 Medium (45KPA):** For general cleaning and crumbs (up to 40 minutes runtime).
- **Level 3 Heavy (65KPA):** For deep cleaning and stubborn pet hair (up to 20 minutes runtime).

The AI-powered chip automatically senses debris size and boosts suction by 30% in just 0.2 seconds for optimal performance and battery efficiency.

AI-Powered Auto-Adjusting Chip-Driven Suction

Detects debris size (crumbs → pet hair)
→ auto-boosts 30% suction in 0.2s

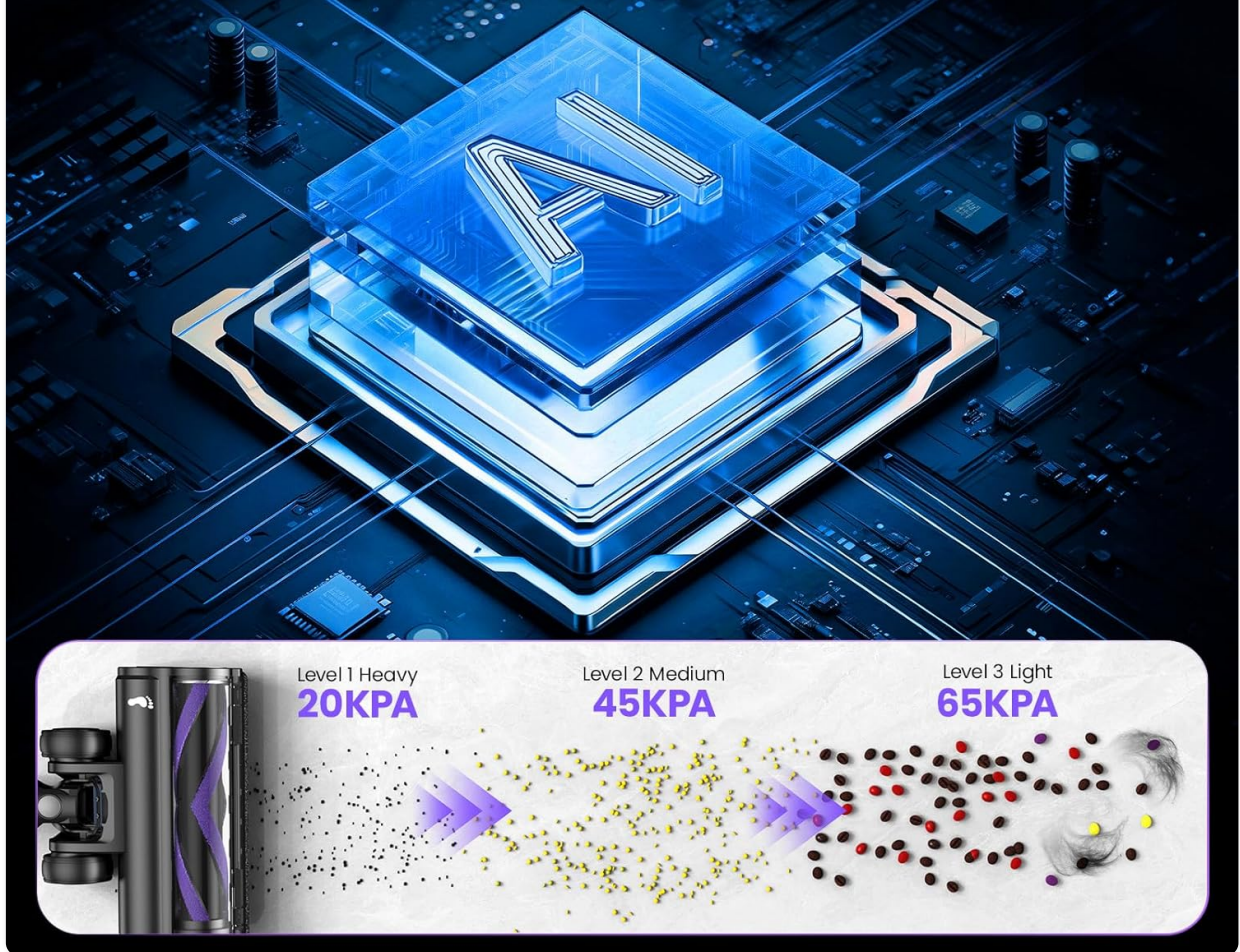

Figure 4: AI-powered auto-adjusting suction adapts to different debris types.

2. Using Attachments

The Airpher K25 comes with a 3-in-1 tool kit for versatile cleaning:

- **V-Shaped Anti-Tangle Floor Brush:** Ideal for all floor types, especially hardwood and carpets, minimizing hair wrap.
- **2-in-1 Dusting Brush:** For cleaning delicate surfaces, upholstery, and car interiors.
- **Crevice Tool:** For reaching tight corners, edges, and narrow gaps.

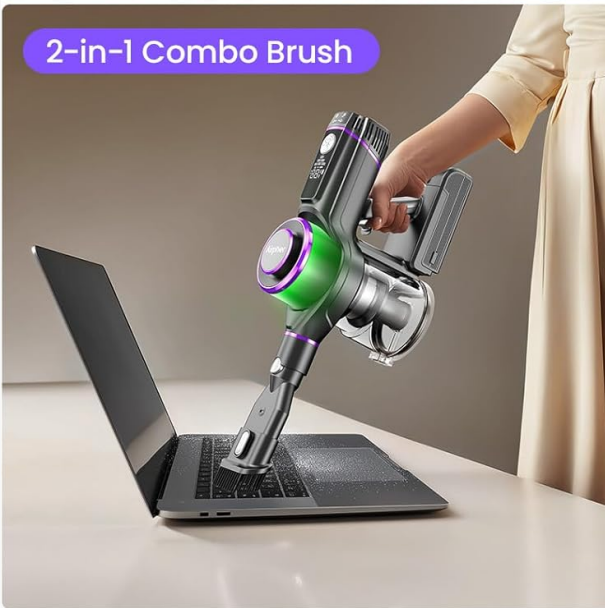

These attachments can be connected directly to the main body for handheld use or to the extension rod for extended reach.

3-in-1 Versatile Brush Set

Master Every Surface in Your Home

3. Smart Lighting and Maneuverability

The floor brush is equipped with a 140° wide-angle green light that illuminates hidden dust, making it 16 times more visible than standard LED lights. The flexible brush head allows for easy maneuvering around furniture and into tight spaces.

Motorized Floor Brush See 16X More Dust:
140° GreenLit Screen Reveals Hidden Debris

Bends 90° Up

180° Sideways

Figure 6: Green light on the floor brush reveals hidden dust for thorough cleaning.

MAINTENANCE

1. Emptying the Dustbin

The Airpher K25 features a large 1.5-liter dust collection cup. To empty, simply press the one-click release button located on the dustbin to dispose of accumulated debris directly into the trash without touching the contents.

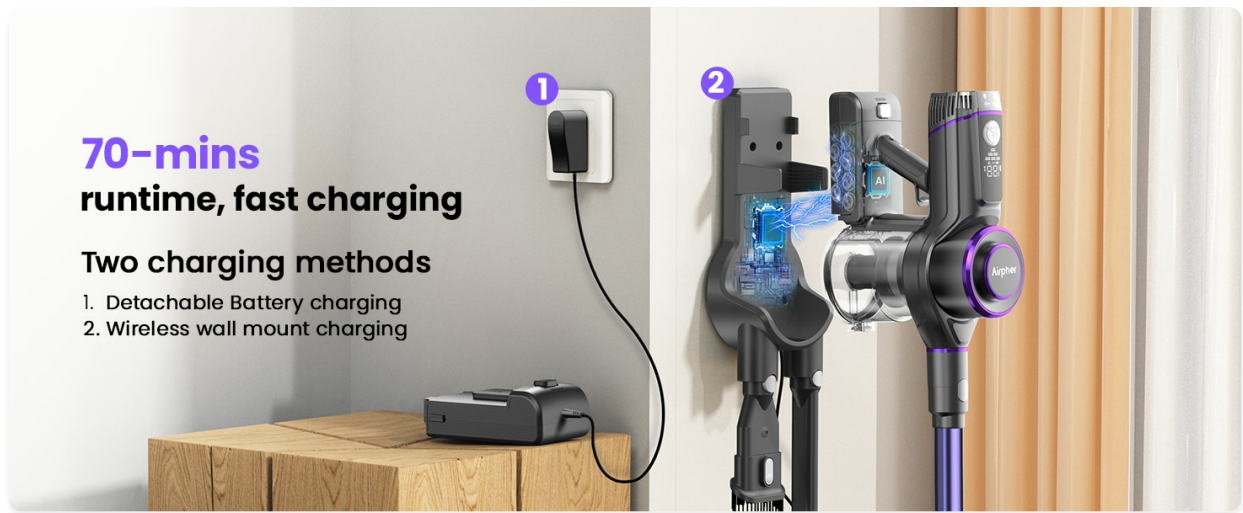

Figure 7: One-click empty feature for convenient dustbin disposal.

2. Filter Cleaning and Replacement

The vacuum utilizes a dual HEPA filtration system, trapping up to 99.97% of fine dust. The outer HEPA filter can be removed in 1 second for easy cleaning. The integrated Filter Cone Cyclone System separates large debris from fine particles, reducing clogging and extending the HEPA filter's lifespan by up to 2 times.

Figure 8: Dual HEPA filters and cone cyclone separation for efficient filtration.

3. Brush Roll Maintenance

The V-shaped anti-tangle brush is designed to minimize hair wrap. Regularly check the brush roll for any entangled hair or debris and remove it to maintain optimal cleaning performance.

TROUBLESHOOTING

If you encounter any issues with your Airpher K25, please refer to the following common solutions:

- **No Power:** Ensure the battery is fully charged. Check that the battery pack is securely inserted.
- **Reduced Suction:** Empty the dustbin if it's full. Clean or replace the HEPA filters. Check the brush roll and extension rod for blockages.
- **Brush Roll Not Spinning:** Check for entangled hair or debris in the brush roll and remove any obstructions.
- **Error Indicators:** The smart touch display will show specific icons for low battery, brush roll entanglement, or full dustbin/clogged filter. Address the indicated issue.

For further assistance, please contact customer support.

SPECIFICATIONS

Brand	Airpher
Model Name	K25
Special Feature	Upgraded 600W Dual Brushless Motor, Adjustable Suction Mode (20-65kpa), Max 70 mins runtime, Self-standing design, 1 litre dust container, 99.99% high efficiency filtration, Adjustable telescopic pole, Upgraded eight-cell removable battery, Removable Dust Cup, V-shaped anti-tangle brush, Wall-mounted charging, User-friendly Smart Touch Display, One-Click Empty
