2. SAFETY INFORMATION

Your ModernLuxe Bunk Bed is designed with safety in mind and is certified according to EN747 European safety standards for stability, material quality, and child-appropriate design. Adherence to these safety guidelines is crucial for preventing accidents.

- Always ensure the bed is assembled correctly and all fasteners are tightened securely.
- Regularly check all connections and hardware to ensure they remain tight.
- The top bunk is equipped with a perimeter fall protection and safety grid. Ensure these are always in place.
- Use caution when climbing up and down the ladder to prevent falls. The ladder features anti-slip steps for added safety.
- The maximum weight capacity for each bed is 120 kg. Do not exceed this limit.
- Only use mattresses compatible with the bed dimensions (90 x 200 cm). The mattress thickness should not exceed 15 cm for the top bunk to ensure the safety rail height is maintained.
- Do not allow children to play unsupervised on or around the bunk bed.
- Keep the area around the ladder clear of obstructions.
