

IKT IKTBYCZ581BK

IKT Top Load Water Cooler Dispenser with Ice Maker

MODEL: IKTBYCZ581BK

Product Overview

The IKT Top Load Water Cooler Dispenser with Ice Maker is a versatile appliance designed to provide hot, cold, and room-temperature water, along with bullet-shaped ice. It features intuitive touch screen controls, a child safety lock for hot water, and a convenient night light. This unit is ideal for home or office settings, offering a daily ice production capacity of up to 27 lbs.

Important Safety Information

- Always unplug the unit before cleaning or performing maintenance.
- Do not operate the unit with a damaged cord or plug.
- Keep the appliance away from direct sunlight and heat sources.
- Ensure proper ventilation around the unit.
- The hot water dispenser is equipped with a child safety lock. Always engage this lock when not in use, especially in households with children.

Setup Guide

1. **Unpacking:** Carefully remove the dispenser from its packaging. Retain packaging for future transport or storage.
2. **Placement:** Place the unit on a flat, stable surface in a cool, dry place away from direct sunlight and heat sources. Ensure there is adequate space around the unit for ventilation.
3. **Initial Cleaning:** Before first use, it is recommended to clean the internal water paths. Fill the water reservoir with a solution of citric acid and water, let it sit for a few hours, then completely drain the unit. This helps remove any residual plastic taste. Repeat if necessary.

4. **Water Bottle Installation:** Place a standard 3 or 5-gallon water bottle onto the top loading receptacle. Ensure the bottle is seated correctly to prevent leaks.
5. **Power Connection:** Plug the power cord into a grounded electrical outlet.

Operating Instructions

Water Dispensing

The dispenser offers three temperature options: hot, cold, and room temperature water. Use the corresponding paddles to dispense water.

- **Hot Water:** Press the child safety lock button before pressing the hot water paddle to dispense.
- **Cold Water:** Press the cold water paddle.
- **Room Temperature Water:** Press the room temperature water paddle.

Ice Making Function

This unit automatically produces bullet-shaped ice. It can make ice in approximately 7 minutes per cycle, producing 9 pieces per cycle, with a daily capacity of up to 27 lbs. **Note:** The unit does not keep ice frozen. Ice should be transferred to a freezer for long-term storage.

Night Light Feature

The built-in night light illuminates the water spouts, making them clearly visible in low-light conditions and providing full visual access to the removable drip tray.

Maintenance

Cleaning the Drip Tray

The removable drip tray should be cleaned regularly to prevent overflow and maintain hygiene. Simply slide it out, empty any collected water, wash with mild soap and water, rinse thoroughly, and reinsert.

An illustration showing the flow of water into the removable drip tray.

Internal Cleaning

For optimal performance and taste, periodically clean the internal water tanks and lines. Use a food-grade cleaning solution or a mixture of citric acid and water. Follow the initial cleaning steps outlined in the Setup Guide.

Troubleshooting

- **Machine Damaged:** If the machine arrives damaged, please take photos of the damaged unit and shipping label. Contact customer support for a replacement.
- **Ice Does Not Stay Frozen:** This unit is an ice maker and dispenser, not a freezer. It produces ice, but does not maintain its frozen state. Transfer ice to a freezer for long-term storage. The unit will make more ice as the existing ice melts.
- **Water Has a Plastic Taste:** This can occur with new appliances. Perform a thorough cleaning with citric acid solution as described in the Setup Guide. Ensure the unit is completely drained after cleaning. If the taste persists, contact customer support.
- **Machine Not Working:** Specify the exact issue. Ensure the unit is properly plugged in and the water bottle is correctly installed. If the machine is defective, contact customer support and provide photos or videos if possible.

Specifications

Feature	Detail
Brand	IKT
Model Number	IKTBYCZ581BK
Color	Glossy Black
Material	Stainless Steel
Product Dimensions	14"D x 12.2"W x 41"H
Item Weight	39 Pounds
Ice Making Capacity	27 lbs Daily

Ice Storage Capacity	Up to 5.3 lbs
Ice Shape	Bullet-shaped
Installation Type	Freestanding
Power Source	Corded Electric

Warranty and Support

For warranty information and customer support, please refer to the documentation included with your product or contact IKT customer service directly. If you encounter issues such as a damaged machine, persistent plastic taste, or the machine not working, please reach out to the seller, IKT-US, for assistance and potential replacements or prepaid return labels if the machine is defective.

For specific inquiries, it is helpful to have your model number (IKTBYCZ581BK) and purchase details ready.
