MAINTENANCE

1. Cleaning the Screen and Body

- Always unplug the TV before cleaning.
- Use a soft, lint-free cloth to gently wipe the screen. For stubborn marks, slightly dampen the cloth with water or a specialized screen cleaner.
- Wipe the TV body with a soft, dry cloth. Avoid using abrasive cleaners or solvents.

2. Software Updates

Your TV may receive automatic software updates. Ensure your TV is connected to the internet to receive the latest features and security patches. You can also manually check for updates in the TV's settings menu.

TROUBLESHOOTING

If you encounter issues with your TV, refer to the following common solutions:

Problem	Solution
---------	----------

Problem	Solution
No power	Check if the power cord is securely plugged into the TV and the wall outlet. Try a different outlet.
No picture, but sound is present	Ensure the correct input source is selected. Check cable connections to external devices.
No sound, but picture is present	Check the volume level and mute settings. Verify audio cable connections.
Remote control not working	Replace the batteries. Ensure there are no obstructions between the remote and the TV.
Network connection issues	Restart your router and modem. Check Wi-Fi password. For wired connections, ensure the LAN cable is properly connected.
