6. MAINTENANCE

- **Battery Care:** Always ensure the scooter is fully charged before its first use (6 hours). This practice helps prolong the life and capacity of your battery. Avoid completely draining the battery regularly.
- **Brake System:** The brake system requires regular inspection and maintenance to ensure optimal braking performance and rider safety. Check brake pads and cables periodically.
- **Tire Inspection:** Although solid tires are maintenance-free, regularly inspect them for any signs of wear or damage.
- **General Cleaning:** Keep the scooter clean by wiping it down with a damp cloth. Avoid using high-pressure water jets directly on electronic components.

7. TROUBLESHOOTING

If you encounter any issues with your Qlaway K078 Electric Scooter, please refer to the following general advice:

- **No Power:** Ensure the battery is charged and the power button is pressed for 3 seconds.
- **Motor Not Engaging:** Remember to kick-start the scooter before engaging the throttle. Check app settings for "Zero/Non-Zero Start" mode.
- **Braking Issues:** Inspect brake cables and pads. If issues persist, professional inspection is recommended.
- **App Connectivity:** Ensure Bluetooth is enabled on your smartphone and the scooter is within range. Restart both devices if connection fails.
- **Other Issues:** For any other problems not listed, please contact Qlaway customer support.
