## Wonder Creature LM18

# Wonder Creature Ceramic Cat Water Fountain Filters (Model LM18) - Instruction Manual

### 1. INTRODUCTION

---

This manual provides essential instructions for the proper use and maintenance of your Wonder Creature Ceramic Cat Water Fountain Filters. These filters are specifically designed for the 2.2L/74oz Wonder Creature Ceramic Cat Water Fountain (Model LM18) to ensure your pet always has access to clean, fresh water.

The filter system utilizes a triple filtration process, combining a sponge filter to trap debris and pet hair, and an activated carbon filter to reduce impurities and odors, thereby enhancing water taste and quality.

### 2. PACKAGE CONTENTS

---

Your package includes:

- 6 x Activated Carbon Filters
- 6 x Sponge Filters

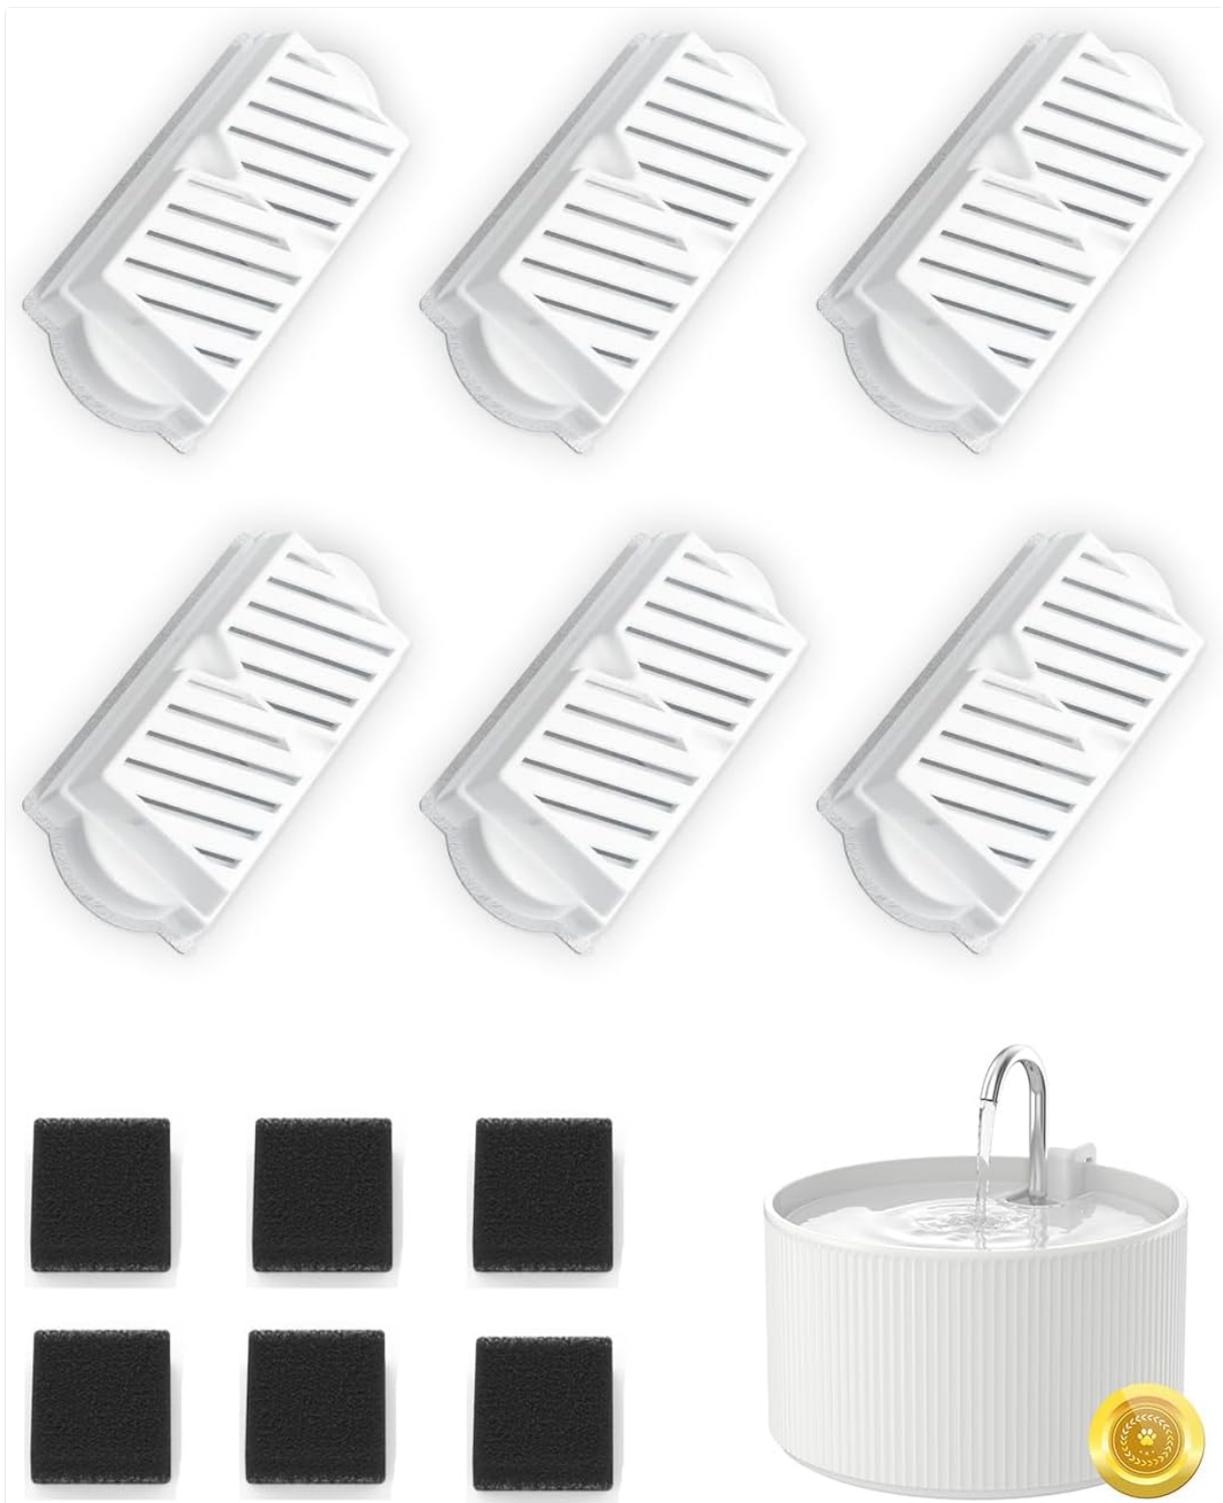

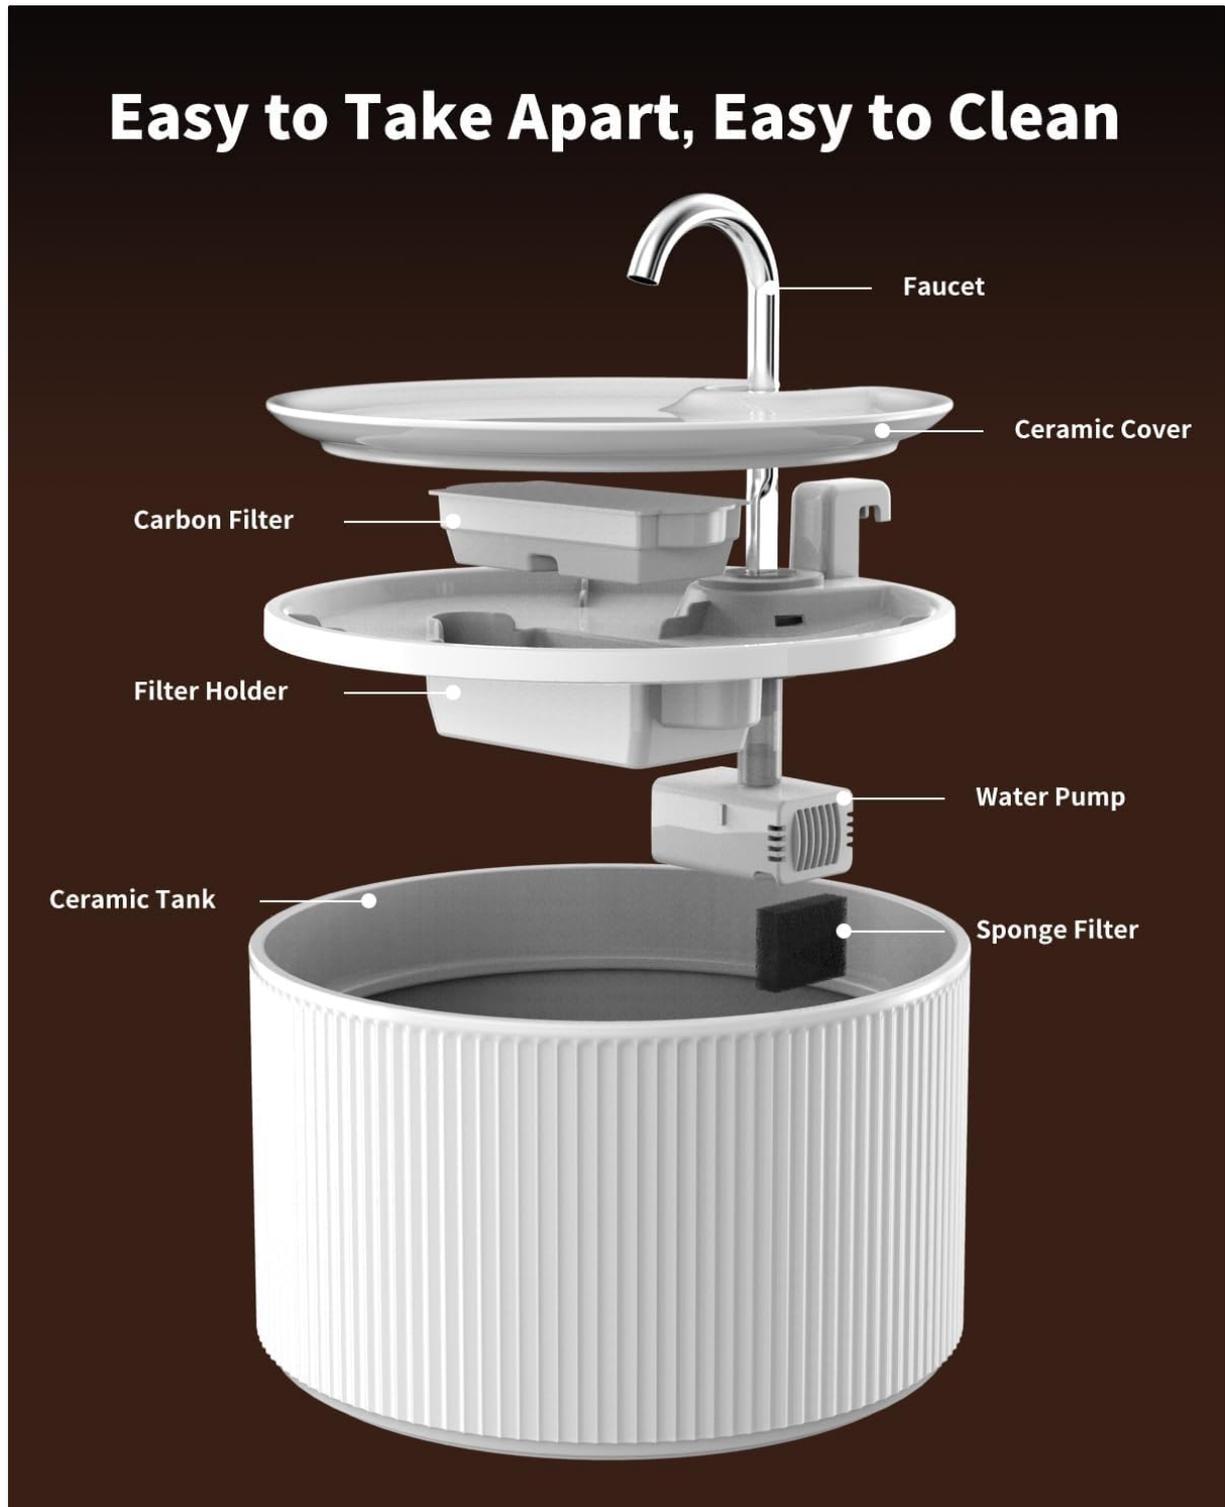

Image: Contents of the Wonder Creature Ceramic Cat Water Fountain Filters package.

### 3. SETUP & INSTALLATION

1. **Preparation:** Before first use, and with each replacement, soak the new filter in clean water for 5 minutes. Then, rinse it thoroughly under running water for 30 seconds. This step removes any harmless carbon dust and prepares the filter for optimal performance.
2. **Disassemble Fountain:** Carefully remove the top lid and the pump assembly from your 2.2L/74oz Wonder Creature Ceramic Cat Water Fountain.
3. **Install Sponge Filter:** Locate the sponge filter housing around the pump. Insert a new sponge filter into this housing.
4. **Install Activated Carbon Filter:** Place a new activated carbon filter into its designated slot on the fountain's top lid assembly. Ensure it sits securely.

5. **Reassemble Fountain:** Carefully place the pump assembly back into the ceramic tank, ensuring the power cord is routed correctly. Then, place the top lid with the newly installed carbon filter back onto the ceramic tank.

## 4. FILTRATION SYSTEM OVERVIEW

The Wonder Creature Ceramic Cat Water Fountain utilizes a triple filtration system to provide optimal water

quality:

- **Sponge Filter:** This initial layer effectively traps larger particles such as pet hair, food debris, and sediment, preventing them from reaching the pump and extending its lifespan.
- **Activated Carbon Filter:** Composed of high-quality activated carbon, this filter significantly reduces chlorine, odors, and other impurities present in tap water, improving the taste and freshness for your pet.

## 5. MAINTENANCE & REPLACEMENT

To ensure continuous optimal water quality and the longevity of your fountain, regular filter replacement is crucial:

- **Replacement Frequency:** For best results, it is recommended to replace both the activated carbon filter and the sponge filter every 2 to 4 weeks. This frequency may vary depending on the number of pets using the fountain and the hardness of your water.
- **Cleaning:** In addition to filter replacement, regularly clean the fountain, pump, and all components to prevent mineral buildup and maintain hygiene.

## 6. SPECIFICATIONS

<b>Brand:</b>	Wonder Creature
<b>Model Name:</b>	cat water fountain filters
<b>Item Model Number:</b>	LM18
<b>Material:</b>	Carbon, Cotton, Sponge
<b>Included Components:</b>	6 Carbon Filters & 6 Sponges
<b>Compatible Fountain Capacity:</b>	2.2 Liters / 74oz
<b>Item Weight:</b>	3.52 ounces (0.1 Kilograms)

## 7. IMPORTANT NOTES

- Always ensure the water level in the fountain is above the minimum mark to prevent the pump from running dry, which can cause damage.
- Use only genuine Wonder Creature replacement filters to ensure proper fit and filtration performance.
