3. SETUP

3.1. Unboxing and Package Contents

Carefully unpack the monitor and verify that all components are present:

- WUAWE 14-inch Portable Monitor
- HDMI to HDMI Cable
- Type-C to Type-C Cable
- USB A to USB C Cable
- User Manual

3.2. Connecting to Devices

The monitor supports multiple connection types:

- **USB-C Connection:** Use the provided Type-C to Type-C cable. If your device's USB-C port supports full-featured output (power and video signal), a single cable is sufficient. Connect one end to the monitor's USB-C port and the other to your device.
- **Mini HDMI Connection:** Use the provided HDMI to HDMI cable. When using Mini HDMI for video signal, the monitor requires a separate power source. Connect the Mini HDMI cable for video, and then connect the USB A to USB C cable to a power adapter (not included) or a powered USB port for power.

3.3. Adjusting the Integrated Stand

The monitor features an integrated stand for flexible positioning:

- **Tilt Adjustment:** Gently adjust the stand to achieve your desired viewing angle. The stand supports up to 180-degree tilt.
- **Orientation:** The monitor can be used in both landscape and portrait orientations. Adjust the stand accordingly to support the desired display mode.

4.5. Signal Source Selection

If multiple devices are connected, select the active input source (USB-C or HDMI) from the OSD menu.

5. MAINTENANCE

5.1. Cleaning

- **Screen:** Use a soft, lint-free cloth lightly dampened with water or a screen-cleaning solution. Avoid harsh chemicals.
- **Body:** Wipe the monitor's body with a soft, dry cloth.

5.2. Storage

When not in use, store the monitor in a cool, dry place, away from direct sunlight and extreme temperatures. Consider using a protective sleeve or the original packaging for added protection during transport or storage.

5.3. Handling

Handle the monitor with care. Avoid dropping it or applying excessive force to the screen or body. Do not attempt to disassemble the monitor, as this will void the warranty.

6. TROUBLESHOOTING

If you encounter issues with your WUAWA portable monitor, refer to the following common solutions:

Problem	Possible Solution
---------	-------------------

Problem	Possible Solution
No display/Black screen	<p>Ensure all cables (USB-C, HDMI, power) are securely connected.</p> <p>Verify the monitor is powered on.</p> <p>Select the correct input source in the OSD menu.</p> <p>If using HDMI, ensure a separate power source is connected to the monitor.</p> <p>Test with a different cable or device if possible.</p>
No sound	<p>Check the volume level on both the monitor (via OSD) and the connected device.</p> <p>Ensure the audio output on your device is set to the portable monitor.</p> <p>If using a 3.5mm audio jack, ensure headphones/speakers are properly connected.</p>
Image quality issues (e.g., blurry, incorrect colors)	<p>Adjust brightness, contrast, and color temperature settings in the OSD menu.</p> <p>Ensure the display resolution on your connected device matches the monitor's native resolution (1920x1200).</p> <p>Check for cable damage.</p>
Monitor not powering on	<p>Ensure the power cable is connected to a working power source.</p> <p>If using USB-C for power, ensure the connected device's USB-C port provides sufficient power.</p> <p>Try a different power adapter or USB-C port.</p>
