Yoidesu HiFi Stereo IEM Earphones

Instruction Manual - Model Yoidesuxyrck701id-11

INTRODUCTION

Thank you for choosing the Yoidesu HiFi Stereo IEM Earphones. This manual provides essential information for the proper setup, operation, and maintenance of your new earphones. Please read it thoroughly before use to ensure optimal performance and longevity.

PACKAGE CONTENTS

Verify that all items are present in the package:

- 2 x IEM Earphones (Left and Right)
- 4 x Silicone Ear Tips (various sizes)
- 1 x Detachable Silver Plated Copper Cable

Image: The complete package contents, including the earphone units, the braided silver-plated copper cable, and a selection of silicone ear tips.

SETUP

1. Attaching the Cable

The earphones feature a detachable 2-pin 0.78mm interface. Carefully align the pins on the cable with the receptacles on each earphone unit. Push firmly until the cable is securely connected. Ensure the left (L) and right (R) indicators on the cable match the respective earphone units.

Image: A detailed view of the 2-pin connector on the earphone unit, where the detachable cable is attached.

2. **Selecting Ear Tips**

Choose the silicone ear tips (S, M, L) that provide the most comfortable and secure fit for your ears. A proper seal is crucial for optimal sound quality and noise cancellation. Experiment with different sizes to find the best fit.

3. **Wearing the Earphones**

The earphones are designed for an ergonomic, over-ear fit with a pre-molded wrap-around cable. Gently insert the earphone into your ear canal and loop the cable over your ear for a secure and comfortable placement. This design helps keep the earphones stable during movement and reduces microphonics.

Loop ear hanging

OPERATING INSTRUCTIONS

1. Connecting to an Audio Source

The Yoidesu IEM Earphones utilize a standard 3.5mm gold-plated plug. Connect this plug to the 3.5mm audio jack of your device (e.g., smartphone, tablet, computer, audio player, amplifier). The earphones are designed for plug-and-play operation.

**3.5mm Gold-plated plug
Wide Compatibility
Wearproof**

2. Audio Playback

Once connected, begin audio playback from your device. Adjust the volume on your audio source to a comfortable listening level. These earphones deliver HiFi full-range stereo sound, allowing for an authentic music experience.

HiFi Sound Quality

HiFi full range sound effects, derived from a single balanced armature unit. Listen to music, feel the authenticity of music, and bring lossless HiFi stereo sound.

3. **Noise Cancellation**

The ergonomic design and proper ear tip seal provide passive noise cancellation, effectively blocking ambient noise. This feature enhances your listening experience in various environments, such as during travel or in noisy settings.

Outstanding Noise Cancellation

Noise canceling headset effectively blocks ambient noise for immersive listening experience. Suitable for noisy environments such as performances, sports, travel, etc.

MAINTENANCE

- **Cleaning Ear Tips:** Regularly remove the silicone ear tips and clean them with a soft, damp cloth. Ensure they are completely dry before reattaching them to the earphones.
- **Cleaning Earphone Units:** Use a dry, soft cloth to wipe the earphone units. Avoid using liquids or harsh chemicals.
- **Cable Care:** The silver-plated copper cable is designed for durability. Avoid sharp bends or excessive pulling. When not in use, coil the cable loosely to prevent tangling.
- **Storage:** Store the earphones in a clean, dry place, away from extreme temperatures and direct sunlight.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No sound or low volume	<ul style="list-style-type: none">• Cable not fully connected• Volume on audio source is too low or muted• Incorrect ear tip size affecting seal	<ul style="list-style-type: none">• Ensure the 2-pin connectors are securely attached to the earphones and the 3.5mm plug is fully inserted into the audio source.• Increase the volume on your audio device.• Try different sized ear tips to achieve a proper seal.

Problem	Possible Cause	Solution
Poor sound quality (e.g., lack of bass, tinny sound)	<ul style="list-style-type: none"> Improper ear tip seal Ear tips or earphone nozzles are dirty 	<ul style="list-style-type: none"> Ensure ear tips create a tight seal in your ear canal. Clean ear tips and earphone nozzles.
Earphones feel uncomfortable or fall out easily	<ul style="list-style-type: none"> Incorrect ear tip size Improper wearing technique 	<ul style="list-style-type: none"> Experiment with different ear tip sizes (S, M, L) to find the most comfortable and secure fit. Ensure the cable is looped over your ear correctly for stability.

SPECIFICATIONS

Feature	Detail
