## 6. MAINTENANCE

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that may damage the finish.
- **Fasteners:** Periodically check all screws, bolts, and other fasteners to ensure they remain tight. Re-tighten if necessary

to maintain stability and safety.

- **Moving the Bed:** If you need to move the bed, lift it rather than dragging it to prevent damage to the frame and floor.
- **Environmental Conditions:** Avoid placing the bed in direct sunlight or near heat sources, as this can cause warping or discoloration of the wood.

## 7. TROUBLESHOOTING

---

- **Bed feels wobbly:** Check all assembly screws and bolts. Re-tighten any loose connections. Ensure the bed is on a level surface.
- **Drawers are stiff or not sliding smoothly:** Check for any obstructions in the drawer runners. Ensure the drawers are correctly aligned. A small amount of silicone spray on the runners can improve smoothness.
- **Desk is difficult to extend/retract:** Check the sliding mechanism for obstructions. Ensure the desk is aligned correctly within its tracks.
- **Missing parts:** If you discover missing parts during assembly, refer to your product's specific assembly instructions for contact information to request replacements.
