WLIVE Floating King Bed Frame

USER MANUAL

Product Overview

The WLIVE Floating King Bed Frame is designed to provide a modern and functional sleeping solution. It features an innovative hidden tripod design that creates a 'floating' visual effect, complemented by integrated LED light strips. For convenience, the bed frame includes a built-in charging station with AC outlets and USB ports. Constructed with durable metal slats and reinforced support, it ensures stability and a quiet sleeping environment. This bed frame eliminates the need for a box spring.

Safety Information

- Ensure all components are securely fastened before use. Regularly check bolts and connections for tightness.
- Do not exceed the maximum weight capacity of 1500 pounds.
- Keep electrical components (charging station, LED lights) away from liquids. Do not attempt to modify the electrical wiring.
- Exercise caution when moving the bed frame to prevent injury or damage.
- Keep small parts out of reach of children during assembly.

Setup

The WLIVE Floating King Bed Frame is designed for easy assembly, typically completable within an hour. All necessary tools and clearly marked parts are included. No box spring is required for this bed frame.

Assembly Steps:

1. Unpack all components and verify against the parts list provided in the packaging.
2. Follow the detailed assembly guide to connect the main frame sections. Pay attention to the orientation of each piece.
3. Install the steel slats into the designated slots. Ensure they are evenly spaced and securely seated.
4. Attach the hidden support legs and mattress stoppers as indicated in the instructions.
5. Secure the LED light strip using the provided 3M adhesive and Velcro to ensure it adheres well to the metal frame.
6. Connect the built-in charging station to the designated port on the frame and plug it into a wall outlet.

Maintenance

Regular maintenance helps ensure the longevity and optimal performance of your WLIVE Floating King Bed Frame.

- **Cleaning:** Wipe down the metal frame with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish.
- **Connection Check:** Periodically inspect all bolts and screws to ensure they remain tight. Re-tighten if necessary to maintain stability and prevent noise.
- **LED Strip:** Ensure the LED light strip remains securely attached. If it begins to peel, re-secure it using the Velcro or additional adhesive if needed.
- **Anti-slip Pads:** Check the anti-slip pads on the bed legs for wear and tear. Replace if damaged to protect your floor and prevent sliding.

Troubleshooting

If you encounter any issues with your bed frame, refer to the common problems and solutions below. If the problem persists, please contact customer support.

Problem	Possible Cause	Solution
Bed frame is noisy/squeaky.	Loose bolts or connections.	Tighten all assembly bolts. Ensure slats are properly seated.
Mattress slides on the frame.	Mattress stoppers not installed or incorrectly positioned.	Verify that the 4 mattress slide stoppers are correctly installed and engaged.
LED lights not working.	Loose connection, power issue, or remote battery.	Check all LED strip connections. Ensure the power adapter is plugged in. Replace remote control battery if applicable.

Problem	Possible Cause	Solution
Charging station not working.	Power cord not plugged in, circuit issue.	Ensure the power cord is securely plugged into a working wall outlet. Check household circuit breaker.
