

EUHOMY IM007-BBL

Euhomy IM007-BBL Countertop Ice Maker Instruction Manual

1. IMPORTANT SAFETY INSTRUCTIONS

Please read all instructions carefully before operating your Euhomy IM007-BBL ice maker. Retain this manual for future reference.

- **Electrical Safety:** Ensure the power outlet matches the voltage requirements (115 Volts). Do not operate with a damaged power cord or plug.
- **Placement:** Place the ice maker on a stable, level surface away from direct sunlight and heat sources. Allow at least 6 inches of clearance around the unit for proper ventilation.
- **Water Quality:** Use potable water only. For best results and to prolong the life of the unit, consider using filtered or demineralized water.
- **Children:** Keep the appliance out of reach of children. Supervise children to ensure they do not play with the appliance.
- **Maintenance:** Unplug the ice maker before cleaning or performing any maintenance.
- **Refrigerant:** This appliance contains R600a refrigerant. Servicing should only be performed by qualified personnel.

2. PRODUCT OVERVIEW

The Euhomy IM007-BBL is a compact countertop ice maker designed for convenience and efficiency, producing bullet-shaped ice cubes quickly.

2.1. Included Components

- Euhomy IM007-BBL Ice Maker Machine
- Ice Scoop
- Instruction Manual (this document)

2.2. Key Features

- **Quick Ice Production:** Produces 9 bullet-shaped ice cubes in approximately 6-8 minutes, with a daily output of up to 26.8 pounds.
- **Two Ice Cube Sizes:** Offers small (S) and large (L) bullet-shaped ice cubes to suit various needs.
- **Compact Design:** Lightweight and portable with dimensions of 9.6" L x 12.6" W x 12.6" H, suitable for various settings.
- **Simple Control Panel:** Easy-to-use interface with indicator lights for 'Add Water' and 'Ice Full'.
- **Self-Cleaning Function:** One-touch self-cleaning mode for convenient maintenance.

3. SETUP AND FIRST USE

1. **Unpacking:** Carefully remove the ice maker from its packaging. Remove all packing materials, including any tape or protective film.
2. **Placement:** Place the unit upright on a flat, stable surface. Ensure there is adequate ventilation around the unit (at least 6 inches on all sides).
3. **Stabilization Period:** After transportation, allow the ice maker to stand upright for at least 24 hours before plugging it in. This allows the refrigerant to settle.
4. **Initial Cleaning:** Before first use, it is recommended to clean the unit. Refer to the 'Maintenance and Cleaning' section for instructions on using the self-cleaning function.
5. **Power Connection:** Plug the ice maker into a grounded electrical outlet.

4. OPERATING INSTRUCTIONS

4.1. Adding Water

Open the lid and fill the water reservoir with potable water up to the 'MAX' fill line. Do not overfill.

4.2. Making Ice

1. Ensure the unit is plugged in and the water reservoir is filled.
2. Press the 'ON/OFF' button to turn on the ice maker.
3. Press the 'SELECT' button to choose your desired ice cube size: 'S' for small or 'L' for large. The corresponding indicator light will illuminate.
4. The ice maker will begin the ice-making cycle. The first batch of ice typically takes 6-8 minutes.

Image: The control panel of the ice maker, highlighting the 'S' and 'L' size selection, 'ICE FULL' and 'ADD WATER' indicators, and the 'SELECT' and 'ON/OFF' buttons.

9  Pcs = 6  Mins

Fast Ice Making

You will get 9 pcs clear bullet ice in just 6 Mins,
26Lbs per day

Image: A graphic demonstrating the ice maker's speed, indicating that 9 ice cubes are produced in approximately 6 minutes.

2 Cube Size to Choose

You can choose the size of the ice according to your needs

Image: A visual comparison of the two available ice cube sizes: small (S) and large (L), with their respective dimensions.

4.3. Indicator Lights

- **ICE FULL:** This light illuminates when the ice basket is full. The ice maker will pause operation until ice is removed.
- **ADD WATER:** This light illuminates when the water reservoir is low. The ice maker will pause operation until water is refilled.

5. MAINTENANCE AND CLEANING

5.1. Self-Cleaning Function

The ice maker features a convenient self-cleaning mode:

1. Ensure the water reservoir is filled with clean water.
2. Press and hold the 'ON/OFF' button for 5 seconds. The unit will enter self-cleaning mode.
3. The cleaning cycle typically lasts for 15 minutes.
4. Once the cycle is complete, drain the water from the unit.

Self-Cleaning

Self-Cleaning function helps you save much time for cleaning the ice maker manually

Image: A cutaway view of the ice maker demonstrating the self-cleaning process, with water flowing through the internal components.

5.2. Regular Cleaning

- **Drain Water:** Regularly drain any unused water from the reservoir. The drain plug is located at the bottom of the unit.
- **Wipe Surfaces:** Use a soft cloth dampened with mild detergent to wipe the exterior and interior surfaces. Rinse thoroughly.
- **Ice Basket and Scoop:** Wash the ice basket and scoop with warm, soapy water. Rinse and dry completely before reinserting.
- **Descaling:** If mineral deposits build up, use a descaling solution suitable for ice makers, following the product's instructions.

6. TROUBLESHOOTING

If you encounter issues with your ice maker, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Ice maker not producing ice.	No water in reservoir; 'ADD WATER' light on.	Fill the water reservoir to the 'MAX' line.
Ice maker not producing ice.	Ice basket is full; 'ICE FULL' light on.	Remove ice from the basket.
Ice cubes are too small or not forming properly.	Water temperature is too high; ambient temperature is too high.	Use colder water. Ensure the unit is in a cool, well-ventilated area.
Unit is noisy.	Normal operation sounds (compressor, water pump).	This is normal. If unusual noises occur, contact customer support.
Drain plug is difficult to remove.	Tight seal.	Gently twist and pull. It may loosen with repeated use.

7. PRODUCT SPECIFICATIONS

Specification	Detail
Brand	EUHOMY
Model Name	IM007-BBL
Product Dimensions (D x W x H)	12.6" x 9.6" x 12.6"
Capacity (Ice Basket)	1.3 Pounds
Wattage	170 watts
Voltage	115 Volts
Refrigerant	R600a
Ice Production per Day	26.8 Pounds
Item Weight	18.71 pounds
UPC	850077022104
Color	Black
