## SETUP AND ASSEMBLY

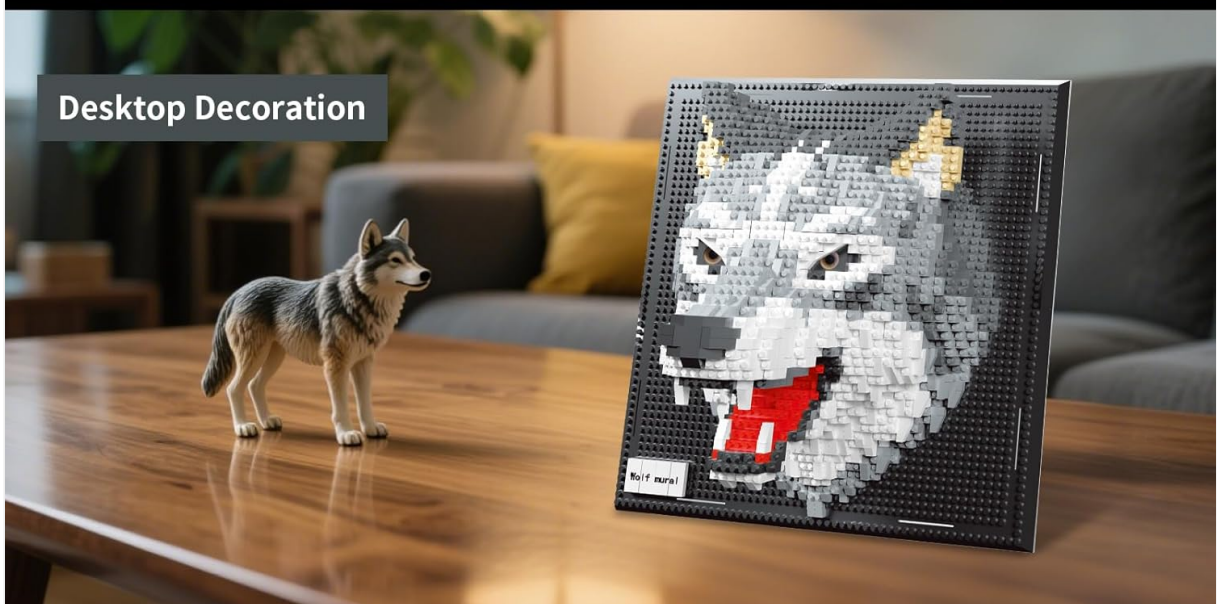

Follow these steps to prepare for and begin assembling your 3D Wolf Wall Art:

1. **Unpack Components:** Carefully remove all items from the product box.
2. **Organize Blocks:** Sort the micro blocks by color and shape into separate containers. This will significantly aid in the assembly process and prevent frustration.
3. **Review Instructions:** Familiarize yourself with the instruction guide provided. Pay close attention to the visual diagrams and step-by-step directions.
4. **Prepare Workspace:** Ensure you have a clean, well-lit, and stable surface for assembly. Due to the small size of the blocks, a clear workspace is essential to avoid losing pieces.
5. **Begin Assembly:** Start by attaching the initial layers of blocks to the baseplate as indicated in the instruction guide. Work methodically, ensuring each block is securely connected.

## MAINTENANCE AND CARE

---

To ensure the longevity and appearance of your 3D Wolf Wall Art:

- **Cleaning:** Gently dust the assembled model with a soft, dry cloth or a soft brush. Avoid using harsh chemicals or abrasive materials, as these can damage the plastic blocks.
- **Handling:** Handle the finished art piece with care. While the blocks are designed to interlock securely, excessive force or dropping may cause pieces to detach.
- **Storage:** If disassembling for storage, keep all blocks organized in a secure container to prevent loss.

## TROUBLESHOOTING

---

Encountering issues during assembly?

- **Missing Pieces:** In the rare event of missing pieces, please contact BseSparklion customer support for prompt assistance. Refer to the 'Warranty and Support' section for contact details.
- **Difficulty Connecting Blocks:** Ensure blocks are aligned correctly before applying pressure. Micro blocks require precise alignment. If a block is particularly stubborn, try a different piece of the same type or gently adjust its position. Avoid excessive force to prevent damage.
- **Instructions Unclear:** Double-check the step number and corresponding image in the instruction guide. Sometimes, reviewing previous steps can clarify the current one.
