- **Mirror Care:** Clean the mirror with a glass cleaner and a lint-free cloth. Do not spray cleaner directly onto the mirror; apply it to the cloth first.
- **Hardware:** Periodically check all screws and fasteners to ensure they are tight. Retighten if necessary to maintain stability.
- **Drawer Slides:** If drawers become stiff, apply a small amount of silicone-based lubricant to the slides.
- **Avoid Moisture:** Protect the vanity from excessive moisture and direct sunlight to prevent warping or discoloration.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Vanity is wobbly/unstable.	Screws are not fully tightened; uneven floor.	Ensure all assembly screws are fully tightened. Place shims under the legs if the floor is uneven.
LED lights are not working.	Power cable not connected; faulty bulb; power outlet issue.	Check if the power cable is securely plugged into the vanity and the wall outlet. Test the outlet with another device. Contact customer support if bulbs are faulty.
Drawers are difficult to open/close.	Drawer slides are misaligned or dry; drawer is overloaded.	Check that drawer slides are correctly installed and aligned. Apply silicone lubricant to the slides. Reduce the weight in the drawer.
Mirror does not slide smoothly.	Track obstruction; dry sliding mechanism.	Inspect the sliding track for any debris or obstructions. Clean the track and apply a small amount of silicone lubricant if needed.
