2. **Anti-Tip Kit Installation:** Securely attach the provided anti-tip safety kit to the TV stand and to a wall stud, following the instructions in your assembly manual. This is crucial for preventing accidental tipping.
3. **Cable Management:** Utilize the pre-drilled cable management holes in the back panels of the compartments to route and organize your electronic device cables. This helps maintain a tidy appearance and prevents cable damage.

7. MAINTENANCE

To ensure the longevity and appearance of your TV stand, follow these maintenance guidelines:

- **Cleaning:** Wipe surfaces with a soft, slightly damp cloth. Avoid using harsh chemicals, abrasive cleaners, or polishes that may damage the finish. Dry immediately with a clean cloth.
- **Spills:** Clean up spills immediately to prevent staining or damage to the wood and engineered wood surfaces.
- **Regular Checks:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.
- **Avoid Overloading:** Do not place excessively heavy items on the stand or shelves beyond their intended capacity.
- **Environmental Conditions:** Avoid exposing the stand to extreme temperature changes or high humidity, which can cause warping or damage.

8. TROUBLESHOOTING

If you encounter any issues with your TV stand, consider the following common solutions:

- **Wobbly Stand:** Ensure the stand is on a level surface. Check all assembly connections and tighten any loose screws. If the floor is uneven, use furniture pads or shims under the legs to stabilize.
- **Doors Not Aligning:** Hinges may require adjustment. Refer to your assembly manual for instructions on how to adjust the door hinges to ensure proper alignment and closure.
- **Missing Parts:** If you find any parts missing during assembly, contact FammyLoft customer support immediately. Do not attempt to assemble with incomplete parts.
