## Realfit Combo of Type C + 3.5MM

# Realfit Wired Earphones Combo User Manual

Model: Combo of Type C + 3.5MM

## INTRODUCTION

---

Thank you for choosing the Realfit Wired Earphones Combo. This package includes two sets of high-quality in-ear headphones: one with a 3.5mm audio jack and another with a Type-C USB connector. Both earphones feature an in-line microphone and volume controls, designed for compatibility with a wide range of Android, iOS smartphones, tablets, and laptops. This manual provides essential information for setup, operation, maintenance, and troubleshooting to ensure optimal performance and longevity of your earphones.

## PACKAGE CONTENTS

---

The Realfit Wired Earphones Combo package contains the following items:

- 1x Realfit Wired Earphone with 3.5mm Jack
- 1x Realfit Wired Earphone with Type-C Jack

realfit

## PACKAGE INCLUDES

Image: The package includes one 3.5mm earphone and one Type-C earphone, as shown in the illustration.

## SETUP

Connecting your Realfit wired earphones is a straightforward process.

### Connecting the 3.5mm Jack Earphone

1. Locate the 3.5mm audio port on your device (smartphone, tablet, laptop, or other audio player).
2. Insert the 3.5mm jack of the earphone firmly into the audio port until it clicks into place.
3. Ensure the connection is secure for optimal audio quality.

### Connecting the Type-C Jack Earphone

1. Locate the USB Type-C port on your device (smartphone, tablet, or laptop).
2. Insert the Type-C connector of the earphone firmly into the USB-C port.
3. The earphone should be recognized automatically by your device.

## OPERATING INSTRUCTIONS

Both earphone variants in this combo feature convenient in-line controls for managing audio playback and calls.

### In-line Controls

The in-line remote control allows you to manage your audio and calls without needing to access your device directly.

- **Volume Up (+) Button:** Press to increase the volume.
- **Volume Down (-) Button:** Press to decrease the volume.
- **Multi-function Button (Center):**
  - **Single Press:** Play/Pause music, Answer/End a call.
  - **Double Press:** Skip to the next track (during music playback).
  - **Triple Press:** Go back to the previous track (during music playback).

- **Long Press:** Activate voice assistant (e.g., Google Assistant, Siri) or reject an incoming call.

## Microphone Usage

The built-in microphone allows for hands-free communication. Ensure the microphone is positioned appropriately for clear voice capture during calls or voice commands.

## MAINTENANCE

Proper care will extend the life and maintain the performance of your Realfit earphones.

- **Cleaning:** Gently wipe the earbuds and cable with a soft, dry, lint-free cloth. Do not use harsh chemicals or abrasive materials.
- **Storage:** When not in use, store the earphones in a clean, dry place, away from extreme temperatures and direct sunlight. Avoid wrapping the cable too tightly.

- **Cable Care:** The earphones feature a tangle-free cable. To maintain this, avoid excessive bending or pulling of the cable.
- **Moisture:** While the earphones are sweatproof, avoid prolonged exposure to water or high humidity. Do not submerge them in liquid.

## TROUBLESHOOTING

If you encounter any issues with your Realfit earphones, refer to the following common solutions.

Problem	Possible Cause	Solution
No sound or low volume	<ul style="list-style-type: none"> <li>• Earphone jack not fully inserted.</li> <li>• Device volume is too low or muted.</li> <li>• Incorrect audio output selected on device.</li> <li>• Damaged cable or connector.</li> </ul>	<ul style="list-style-type: none"> <li>• Ensure the jack is fully inserted into the port.</li> <li>• Increase the volume on your device and the earphone's in-line control.</li> <li>• Check your device's audio settings to ensure the earphones are selected as the output.</li> <li>• Test with another device or another pair of earphones to identify if the issue is with the earphones or the device.</li> </ul>
Microphone not working	<ul style="list-style-type: none"> <li>• Microphone port blocked or dirty.</li> <li>• Incorrect microphone input selected on device.</li> <li>• Application permissions for microphone.</li> </ul>	<ul style="list-style-type: none"> <li>• Ensure the microphone area is clean and unobstructed.</li> <li>• Check your device's audio input settings to ensure the earphones' microphone is selected.</li> <li>• Verify that the application you are using has permission to access the microphone.</li> </ul>
In-line controls not responding	<ul style="list-style-type: none"> <li>• Incompatibility with device.</li> <li>• Loose connection.</li> </ul>	<ul style="list-style-type: none"> <li>• While generally compatible, some older devices may have limited support for in-line controls.</li> <li>• Ensure the earphone jack is securely connected.</li> </ul>
