### SETUP AND ASSEMBLY

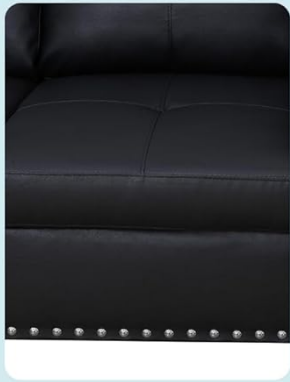

Assembly of your sectional couch is designed to be straightforward. It is recommended that two adults perform the assembly.

#### Step-by-Step Assembly:

1. **Unpack Components:** Carefully remove all parts from the packaging. Place them on a clean, soft surface to

prevent scratches or damage.

2. **Attach Legs:** Locate the pre-drilled holes on the underside of each sofa section. Screw the legs into these holes. Ensure they are tightened securely.
3. **Connect Sections:** Align the metal connectors on the sides of the two main sectional pieces. Push the sections together firmly until the connectors interlock.
4. **Place Cushions:** Position the seat cushions and back cushions onto the sofa frame. Ensure they are seated properly.
5. **Final Check:** Verify that all connections are secure and the couch is stable before use.

## MAINTENANCE

---

Proper care will extend the life and appearance of your sectional couch.

- **Cleaning Faux Leather:** For general cleaning, wipe the faux leather surface with a soft, damp cloth. For spills, blot immediately with a clean, dry cloth. Avoid abrasive cleaners or harsh chemicals, as these can damage the material.
- **Cushion Care:** Periodically fluff and rotate cushions to maintain their shape and even out wear.
- **Frame Care:** Regularly check all bolts and connections to ensure they remain tight. Re-tighten as needed.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading or cracking of the faux leather. Position your couch away from direct sunlight or use window coverings.

## TROUBLESHOOTING

---

If you encounter any issues with your sectional couch, refer to the following common solutions:

- **Couch feels unstable:** Ensure all legs are securely tightened and the metal connectors between sections are fully engaged.
- **Cushions appear uneven:** Remove and fluff the cushions, then reposition them. Rotate cushions periodically to promote even wear.
- **Squeaking noises:** Check all bolted connections and tighten any loose hardware.
- **Difficulty connecting sections:** Ensure the metal connectors are properly aligned. You may need to lift one section slightly to guide the connectors into place.
