11. MAINTENANCE

To ensure the longevity and optimal performance of your MINIX NUC355 Mini PC, regular maintenance is recommended:

- **Cleaning:** Gently clean the exterior with a soft, dry cloth. Ensure ventilation grilles are free from dust accumulation.
- **Software Updates:** Regularly check for and install Windows updates, driver updates, and firmware updates to maintain system stability and security.
- **Storage Management:** Periodically clean up unnecessary files and applications to free up storage space and improve performance.

12. TROUBLESHOOTING

If you encounter issues with your Mini PC, refer to the following common troubleshooting steps:

- **No Power:** Ensure the power adapter is securely connected to both the Mini PC and a working power outlet. Try a different outlet if necessary.
- **No Display:** Verify that the HDMI/DisplayPort/USB-C cables are correctly connected to both the Mini PC and the monitor. Ensure the monitor is set to the correct input source.
- **No Internet Connection:** For wired connections, check the Ethernet cable and router status. For wireless, ensure WiFi is enabled and connected to the correct network.
- **Slow Performance:** Close unnecessary applications, check for background processes, and ensure sufficient free storage space. Consider updating drivers or expanding RAM/SSD if issues persist.
- **Peripheral Issues:** Try connecting USB devices to different ports or using different devices to isolate the problem.
