CSNRHG 13090

CSNRHG Mechanical Lion Building Block Toy Set Model 13090 Instruction Manual

Brand: CSNRHG | Model: 13090

1. Product Overview

This instruction manual provides detailed guidance for assembling and operating your CSNRHG Mechanical Lion Building Block Toy Set, Model 13090. This kit allows you to construct a detailed mechanical lion model with movable parts and gears, designed for display and interactive engagement.

The model features a majestic mechanical design with exposed gears and futuristic aesthetics, capturing the spirit of strength and innovation. It includes articulated limbs, intricate gear systems, and a stable display base. The design incorporates metallic gold and silver accents for a distinctive appearance.

2. Safety Information

WARNING: CHOKING HAZARD – Small parts. Not for children under 3 years. Adult supervision is recommended during assembly for younger users.

Ensure all small parts are kept away from young children to prevent accidental ingestion. Always follow the assembly instructions carefully to avoid injury or damage to the product.

3. Setup and Assembly

The CSNRHG Mechanical Lion Building Block Toy Set requires assembly. Please follow the included instruction manual provided in the box for step-by-step guidance. Sort all pieces before beginning assembly to ensure all components are present and to streamline the building process.

The assembly process involves connecting various building blocks to form the mechanical lion. Pay close attention to the diagrams and part numbers in the physical instruction manual. Ensure all connections are secure to maintain the structural integrity of the model.

4. Operating Instructions

This mechanical lion model features articulated limbs and an intricate gear system that allows for movement. To operate the movable parts, locate the designated handle or gear mechanism on the model.
Gently rotate the handle to observe the synchronized movement of the lion's limbs. The internal gear system is designed to provide a smooth and interactive experience. Avoid forcing any parts to prevent damage to the internal mechanisms.

Video: This video demonstrates the movement capabilities of a similar mechanical building set, showcasing how the assembled model can articulate its parts. Note: This video is for illustrative purposes of mechanical movement in building sets and may not feature the exact lion model.

5. Maintenance

To ensure the longevity and proper function of your CSNRHG Mechanical Lion model, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to gently wipe away dust from the model. Avoid using harsh chemicals or abrasive materials, as these can damage the plastic components and metallic finishes.
- **Storage:** Store the model in a cool, dry place away from direct sunlight and extreme temperatures. Prolonged exposure to sunlight can cause discoloration of the plastic.

- **Handling:** Handle the model with care, especially when moving it. Avoid dropping or applying excessive force to the articulated parts.
- **Part Integrity:** Periodically check for any loose connections or parts. Re-secure any loose blocks by gently pressing them into place.

6. Troubleshooting

If you encounter any issues with your Mechanical Lion Building Block Toy Set, refer to the following common troubleshooting tips:

- **Parts Not Moving Smoothly:**
  - Check for any misaligned gears or blocks obstructing movement.
  - Ensure all connecting pins and axles are correctly inserted and not bent.
  - Verify that no external objects are interfering with the moving parts.
- **Missing Parts:**
  - Carefully re-check the packaging and all assembly areas. Small parts can sometimes be overlooked.
  - Refer to the parts list in the original instruction manual to confirm if a part is indeed missing.
- **Model Instability:**
  - Ensure the display stand is correctly assembled and all connections are firm.
  - Verify that the lion's legs are securely attached to its body and the stand.

If issues persist, please contact customer support for further assistance.

7. Specifications

Feature	Detail
Product Dimensions	29.46 x 22.86 x 15.49 cm; 750 g
Manufacturer Recommended Age	8 - 60 years
Model Number	13090
Material	Plastic
Color	Gold
Educational Objective	Creative Thinking
Number of Pieces	1 (refers to the complete set, not individual blocks)
Theme	Mechanical
Special Feature	Scratch Resistant
Assembly Required	Yes
Operation Mode	Manual

8. Warranty and Support

For warranty information or customer support regarding your CSNRHG Mechanical Lion Building Block Toy Set, please refer to the contact details provided in the product packaging or visit the manufacturer's official website. Keep your proof of purchase for any warranty claims.
The product includes an instruction manual within the packaging. For additional assistance, please reach out to the seller or manufacturer directly.
