VEVOR WF-A168-S

VEVOR Ice Crusher Machine (Model: WF-A168-S) Instruction Manual

High-Efficiency Electric 4 Blades Snow Cone Maker

1. PRODUCT OVERVIEW

This VEVOR Ice Crusher Machine is designed for high-efficiency ice crushing, suitable for both home and commercial use. Featuring a powerful 300W motor and 4 stainless steel blades, it can produce up to 220 lbs of fine shaved ice per hour. Its user-friendly design includes a raised body for easy collection and operation, one-touch control, and anti-splash features for a clean experience.

Key Features:

- High-Efficiency Crushing:** 300W motor, 2000 RPM, 4 stainless steel blades, 220 lbs/h capacity.
- User-Friendly Raised Body:** Accommodates various containers, large ice bowl included, reduces bending.
- One-Touch Operation:** Simple ice loading, press switch, push handle to start.
- Anti-Splash Design:** Curved ice cube container, baffle, ice outlet, and cover minimize splashing.
- Durable Construction:** Premium stainless steel exterior, curved aluminum handle, reinforced anti-slip base.

2. SAFETY INSTRUCTIONS

- Always ensure the machine is unplugged before cleaning or maintenance.
- Keep hands and foreign objects away from the ice inlet and blades during operation.
- Do not operate the machine without the cover securely in place.
- Use only ice cubes; do not insert other food items or hard objects.
- Keep out of reach of children.
- Place the machine on a stable, dry, and level surface.

3. SETUP

- Unpacking:** Carefully remove all components from the packaging. Verify all parts are present: main unit, stainless steel bowl, and user manual.
- Placement:** Position the ice crusher on a stable, flat, and dry countertop. Ensure there is adequate space around

the unit for ventilation and operation.

3. **Bowl Placement:** Place the provided stainless steel ice bowl securely under the ice outlet.
4. **Power Connection:** Plug the power cord into a grounded electrical outlet (110V for this model). Ensure the power switch is in the "OFF" position before plugging in.

This image shows the VEVOR Ice Crusher Machine in a kitchen setting, demonstrating its compact size and the output of finely crushed ice into the collection bowl. Key features like 220 lbs/h capacity, 300W motor, 4 stainless steel blades, and 1400 RPM are visually

emphasized.

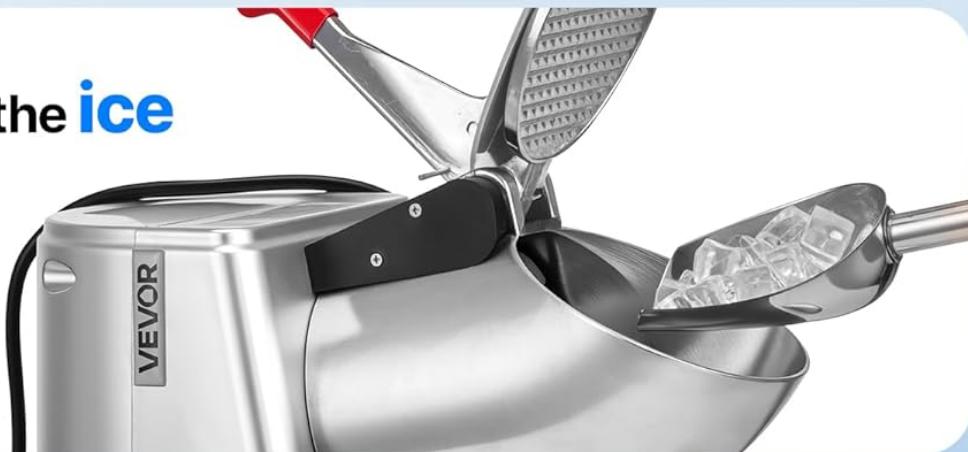

4. OPERATING INSTRUCTIONS

- 1. Prepare Ice:** Ensure ice cubes are separated and not frozen together. Small to medium-sized cubes work best.
- 2. Load Ice:** Lift the handle to open the ice inlet. Place a suitable amount of ice cubes into the inlet. Do not overfill.
- 3. Power On:** Flip the red power switch to the "ON" position.
- 4. Start Crushing:** Firmly push down the handle. The machine will automatically start crushing ice as the handle is depressed. Apply steady pressure for consistent results.
- 5. Collect Shaved Ice:** The finely shaved ice will dispense into the collection bowl below.
- 6. Stop Crushing:** Release the handle to stop the crushing process. Flip the power switch to "OFF" when finished.

One-Touch Operation

Effortless handle with comfortable grip

Place the **ice**

Press the **switch**

Push down the **handle**

Video: Demonstration of the VEVOR Ice Crusher Machine in action.

This video provides a comprehensive demonstration of the VEVOR Ice Crusher Machine, showcasing its ease of use, efficient ice crushing, and the quality of the shaved ice produced. It highlights the simple operation and the machine's ability to quickly create snow-like ice.

5. MAINTENANCE AND CLEANING

1. **Unplug:** Always unplug the machine from the power outlet before cleaning.
2. **Clean Blades:** Carefully wipe the blades with a damp cloth. Exercise extreme caution as blades are sharp.
3. **Clean Housing:** Wipe the exterior of the machine with a soft, damp cloth. Do not immerse the main unit in water.
4. **Wash Bowl:** The stainless steel collection bowl can be washed with warm, soapy water and rinsed thoroughly. Dry completely before storing.
5. **Air Dry:** Allow all components to air dry completely before reassembling or storing to prevent rust and mildew.

This image highlights the thoughtful design elements of the VEVOR Ice Crusher, including its premium stainless steel shell for aesthetics and durability, a curved aluminum handle for easy grip and pressure application, and a reinforced base for stability and anti-slip functionality.

6. TROUBLESHOOTING

- Machine Not Starting:

- Ensure the power cord is securely plugged into a working outlet.
- Check if the power switch is in the "ON" position.
- Verify the handle is fully depressed, as it acts as a safety switch.

- **Ice Not Shaving Properly (Chunky Ice):**

- Ensure ice cubes are not too large or too small.
- Apply consistent and firm pressure on the handle.
- Check if the blades are clean and free from obstructions.

- **Excessive Splashing:**

- Ensure the ice inlet cover is properly closed and the collection bowl is correctly positioned.
- Do not overfill the ice inlet.

7. SPECIFICATIONS

Attribute	Value
Item Model Number	WF-A168-S
Rated Power	300W
Ice Crushing Capacity	220 lbs/h (100 kg/h)
Product Weight	11.24 pounds
Product Dimensions	15.35 x 8.86 x 11.61 inches
Accessories	1 x User Manual, 1 x Ice Bowl

Item Model Number: **WF-A168**

Rated Power: **300W**

Ice Crushing Capacity: **220 lbs/h (100 kg/h)**

Product Weight: **12.13 lbs / 5.5 kg**

Product Dimensions: **5.35 x 8.86 x 11.61 in / 390 x 225 x 295 mm**

Accessories: **1x User Manual 1x Ice Bowl**
