

SVITOO P108

SVITOO P108 12-inch Android Tablet User Manual

Model: P108

1. PRODUCT OVERVIEW

The SVITOO P108 is a 12-inch Android tablet designed for versatile use, from entertainment to productivity. It features a 2K Full HD display, an Octa-Core processor, ample RAM and storage, and a long-lasting battery.

Image 1.1: The SVITOO P108 tablet showcasing its 2K display, dual-band Wi-Fi, Bluetooth 5.0, GPS, 30GB RAM (6+24), 128GB ROM, 8800mAh battery, T7250 processor, Android 16, and 13MP rear / 8MP front cameras.

Package Contents:

- SVITOO P108 Tablet x 1

Device Layout:

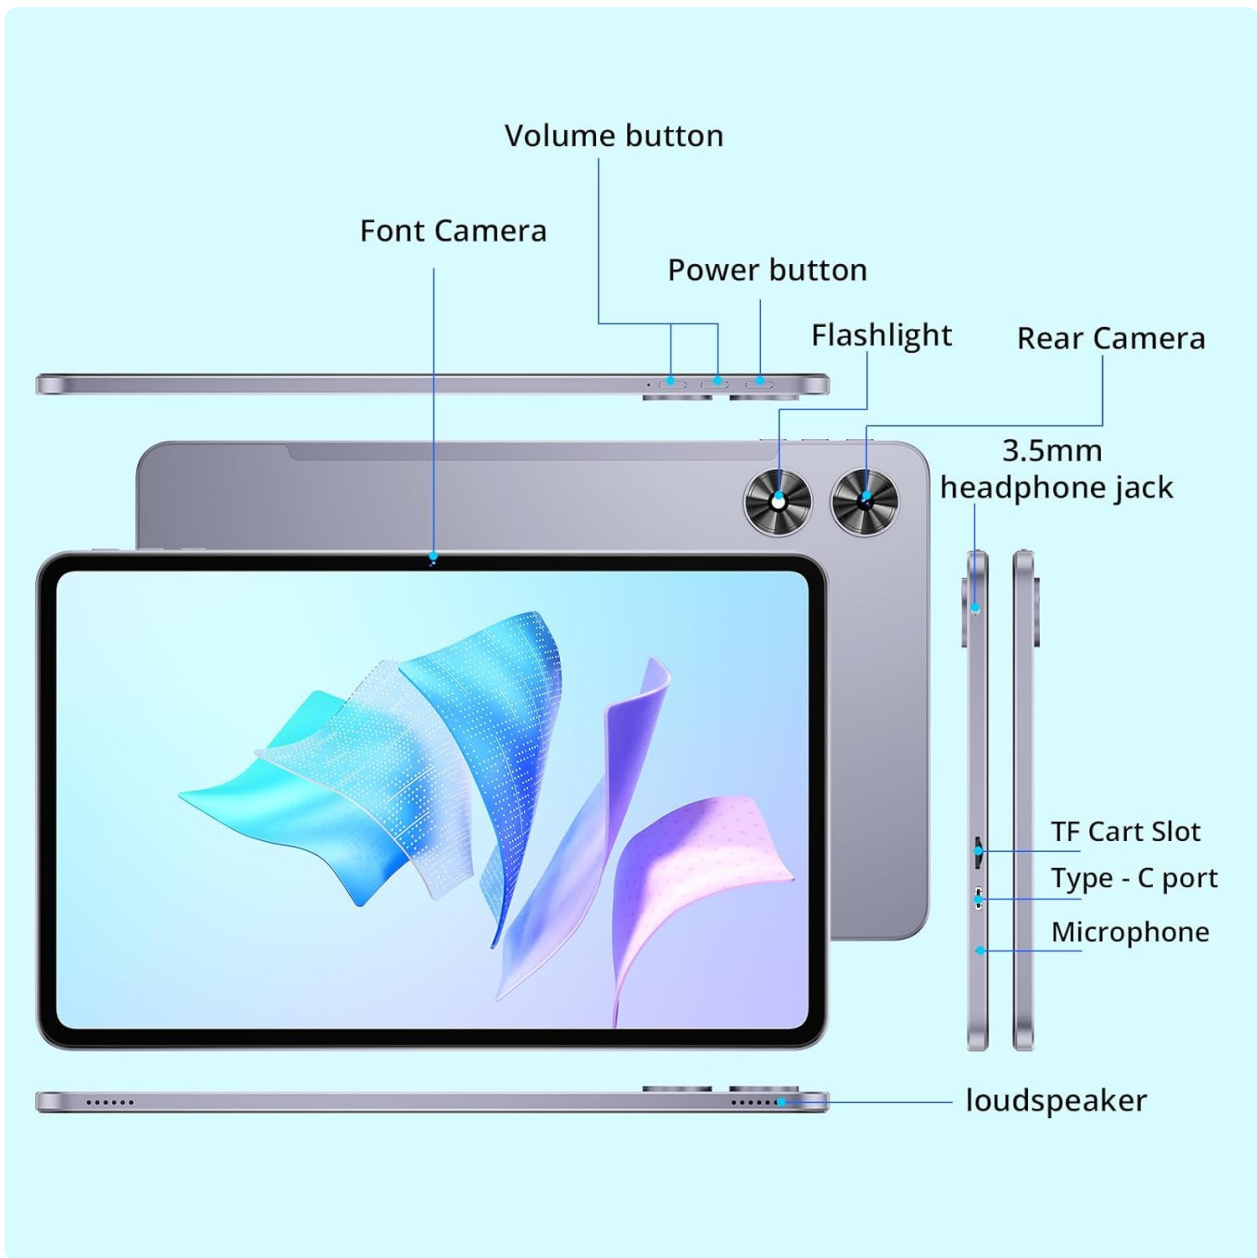

Image 1.2: A detailed diagram illustrating the location of the volume buttons, power button, front camera, flashlight, rear camera, 3.5mm headphone jack, TF card slot, Type-C port, and microphone on the SVITOO P108 tablet.

- **Volume Buttons:** Adjust audio output level.
- **Power Button:** Turn the device on/off, or put it to sleep/wake it up.
- **Front Camera:** For video calls and selfies.
- **Rear Camera:** For capturing photos and videos.
- **Flashlight:** Provides illumination for the rear camera.
- **3.5mm Headphone Jack:** Connect wired headphones.
- **TF Card Slot:** Insert a microSD card for expandable storage.
- **Type-C Port:** For charging and data transfer.
- **Microphone:** For audio input during calls or recordings.
- **Loudspeaker:** For audio output.

2. INITIAL SETUP

2.1 Charging the Tablet

Before first use, fully charge your tablet. Connect the provided USB Type-C cable to the tablet's Type-C port and the other end to a compatible power adapter. The battery indicator on the screen will show charging status.

2.2 Powering On/Off

- **To Power On:** Press and hold the Power button until the SVITOO logo appears.
- **To Power Off:** Press and hold the Power button until the power options appear on the screen, then select "Power Off".
- **To Restart:** Press and hold the Power button until the power options appear, then select "Restart".

2.3 Initial Configuration

Upon first power-on, follow the on-screen prompts to set up your tablet. This includes selecting your language, connecting to a Wi-Fi network, setting up your Google account, and configuring basic security settings.

2.4 Inserting a MicroSD Card

To expand storage, insert a microSD card into the TF Card Slot. Ensure the tablet is powered off before inserting or removing the card. Gently push the card until it clicks into place.

3. OPERATING THE TABLET

3.1 Navigating the Android Interface

The tablet runs on Android 15, offering a user-friendly interface. Swipe up from the bottom to access the app drawer, swipe down from the top for notifications and quick settings, and use the navigation buttons (back, home, recent apps) at the bottom of the screen.

3.2 Display Features

The 12-inch 2K Full HD display (2000x1200 resolution) provides a clear and vibrant viewing experience. The screen has a 5:3 aspect ratio and 380 nits brightness.

Image 3.1: The 12-inch display of the SVITOO P108 tablet, highlighting its 2K Quad HD resolution of 2000x1200, 5:3 aspect ratio, and 380 nit brightness, shown alongside a size comparison to a 10.1-inch tablet.

3.3 Widevine L1 Support

The tablet supports Widevine L1, enabling high-definition streaming from popular services like Netflix, YouTube, and Prime Video. This ensures a premium viewing experience with crisp visuals.

Widevine L1

3.4 Multitasking with Split-Screen

Utilize the split-screen feature to run two applications simultaneously. This enhances productivity, allowing you to watch videos while chatting or browse the web while taking notes.

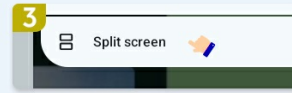

To use split-screen mode, please make sure at least two apps are open.

1 Tap the square (Recent Apps) button.

2 Tap the app icon at the top of one of the windows.

3 Select "Split screen" from the menu.

4 Choose the second app to open alongside.

Image 3.3: Step-by-step guide on how to activate split-screen mode on the tablet, showing how to tap the recent apps button, select an app, and choose 'Split screen' to open a second app alongside it.

3.5 Reading Mode

The tablet offers a dedicated reading mode that reduces blue light and optimizes brightness for a more comfortable and eye-friendly reading experience.

-  Reading Mode
-  Reduces Blue Light
-  Optimized Brightness
-  Eye-Friendly

3.6 Parental Controls and Child-Friendly Interface

The tablet includes features for parental controls, allowing parents to manage content, screen time, and ensure a safe browsing environment for children. A child-friendly interface is also available for educational content.

Beloved by children. Trusted by parents.

-  Child-Friendly Interface
-  Educational Content
-  Parental Controls
-  Child-Safe Browsing
-  Screen Time Management

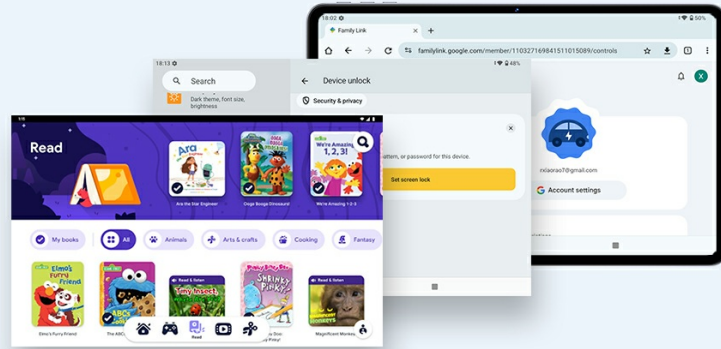

Image 3.5: The tablet displaying a child-friendly interface with educational content and parental control options, indicating features like child-safe browsing and screen time management.

4. MAINTENANCE AND CARE

4.1 Cleaning the Tablet

Use a soft, lint-free cloth to clean the screen and body of the tablet. For stubborn smudges, slightly dampen the cloth with water or a screen-cleaning solution. Avoid using harsh chemicals or abrasive materials.

4.2 Battery Care

The tablet is equipped with an 8000 mAh lithium-ion battery. To prolong battery life:

- Avoid extreme temperatures.
- Do not let the battery completely drain frequently.
- Use the original charger or a certified compatible charger.

8800mAh Battery

 Video
12 hrs

 Music
12 hrs

 Web Browsing
12 hrs

 Standby
30 Days

4.3 Software Updates

Regularly check for and install software updates to ensure optimal performance, security, and access to the latest features. Go to **Settings > System > System update** to check for updates.

5. TROUBLESHOOTING

5.1 Tablet Not Turning On

- Ensure the battery is charged. Connect the charger and wait a few minutes before attempting to power on again.
- Press and hold the Power button for 10-15 seconds to perform a forced restart.

5.2 Slow Performance

- Close unnecessary background applications.
- Clear cache for frequently used apps (Settings > Apps > [App Name] > Storage > Clear Cache).
- Ensure sufficient storage space is available.
- Restart the tablet.

5.3 Wi-Fi Connectivity Issues

- Toggle Wi-Fi off and on in Quick Settings.
- Restart your Wi-Fi router.
- Forget the network and reconnect (Settings > Network & internet > Wi-Fi > [Network Name] > Forget).

5.4 Screen Unresponsive

- Perform a forced restart by holding the Power button for 10-15 seconds.
- Ensure the screen is clean and free of moisture.
