UGREEN LP970

UGREEN Car Phone Mount for MagSafe LP970 Instruction Manual

Model: LP970

1. Product Overview

The UGREEN Car Phone Mount for MagSafe LP970 is designed to securely hold your smartphone in your vehicle. It features a powerful magnetic grip and a robust vacuum suction base, ensuring stability even on challenging roads. The mount offers extensive adjustability for optimal viewing angles and is compatible with MagSafe-enabled devices and other smartphones using the included metal rings.

Key Features:

- **Unshakable Magnetic Grip:** Equipped with 22 ultra-strong N55 magnets, providing a 2500gf magnetic force for secure phone attachment.
- **Ultra-Strong Suction Base:** Features a high-strength vacuum suction cup with an 80 lb (36 kg) load capacity, designed for firm attachment to clean, dry, non-porous flat surfaces.
- **Total Viewing Freedom:** A 360° rotating head and 210° dual-axis metal arm allow for flexible positioning and

quick switching between landscape and portrait modes.

- **Quick Installation:** Designed for one-handed, tool-free installation.
- **Universal Compatibility:** Directly compatible with iPhone 12-17 series and other MagSafe devices. Includes metal rings for non-MagSafe phones or cases.

2. Package Contents

Please verify that all items are present in the package:

- 1 x Suction Cup Magnetic Phone Mount
- 2 x Metal Rings
- 1 x Adhesive Pad
- 1 x User Manual

3. Safety Information

To ensure safe and optimal use of your UGREEN Car Phone Mount, please observe the following:

- Do not attach the metal ring directly to silicone, leather, or uneven phone cases, as this may compromise adhesion.
- It is not recommended to attach the metal ring inside your phone case, as this may reduce the magnetic attraction strength.
- Ensure the mounting surface is clean, dry, and non-porous for the suction cup to achieve maximum grip.
- Avoid obstructing your view of the road or vehicle controls when positioning the mount.

4. Setup and Installation

Follow these steps to install your UGREEN Car Phone Mount:

4.1. Preparing the Mounting Surface

1. Choose a clean, dry, non-porous flat surface on your dashboard, windshield, or other suitable area.
2. Clean the chosen surface thoroughly to remove any dust, grease, or debris.
3. If mounting on a slightly textured surface, use the included adhesive pad. Peel the protective film from the adhesive pad and firmly press it onto the desired location. Allow 24 hours for the adhesive to cure before attaching the mount.

Image: Visual guide for installing the mount: 1. Peel the protective film from the adhesive pad (if used). 2. Attach the pad to the desired location and wait 5 hours. 3. Press and rotate the mount to lock the suction cup.

4.2. Attaching the Mount

1. Place the suction cup base of the mount onto the prepared surface.
2. Press down firmly on the suction cup and rotate the locking knob clockwise until you hear a 'click' sound, indicating a secure lock.

4.3. Installing the Metal Ring (for non-MagSafe devices/cases)

If your phone or case is not MagSafe compatible, use the included metal ring:

1. Clean the back of your phone or phone case where you intend to attach the ring.
2. Peel off the protective film from one of the metal rings.

3. Carefully center and press the metal ring onto the back of your phone or case. Ensure it is firmly adhered.
4. Allow 24 hours for the adhesive to fully bond before use.

Image: Demonstrates universal compatibility, showing how to attach a metal ring to non-MagSafe phones or cases.

5. Operating Instructions

Using your UGREEN Car Phone Mount is straightforward:

1. **Attaching Your Phone:** Simply bring your MagSafe-enabled phone (or phone with an attached metal ring) close to the magnetic head of the mount. The magnets will automatically align and secure your phone in place.
2. **Adjusting Viewing Angle:** Utilize the 360° rotating head and the 210° dual-axis metal arm to adjust your phone to the desired orientation (landscape or portrait) and viewing angle.
3. **Removing Your Phone:** Gently pull your phone away from the magnetic head to detach it.

Image: Illustrates the mount's flexibility with a 360° rotating head and 210° dual-axis arm for various viewing angles.

6. Maintenance

To maintain the performance and longevity of your UGREEN Car Phone Mount:

- Regularly clean the suction cup with a damp cloth to ensure optimal adhesion.

- Wipe the magnetic surface and the mount's body with a soft, dry cloth to remove dust and fingerprints.
- Avoid using harsh chemicals or abrasive cleaners, as these can damage the product's finish or functionality.
- When not in use for extended periods, store the mount in a cool, dry place away from direct sunlight.

7. Troubleshooting

If you encounter any issues with your UGREEN Car Phone Mount, refer to the following common solutions:

- **Weak Magnetic Attraction:**
  - Ensure your phone case is MagSafe compatible or that the metal ring is correctly attached to your phone/case.
  - Verify that the metal ring is not attached inside a thick phone case, as this can reduce magnetic strength.
- **Suction Cup Not Holding:**
  - Clean the mounting surface and the suction cup thoroughly to remove any dust, oil, or moisture.
  - Ensure the surface is flat, dry, and non-porous.
  - Press down firmly on the suction cup and rotate the locking knob clockwise until it clicks.
  - If mounting on a textured surface, ensure the adhesive pad was used and allowed to cure for 24 hours.
- **Mount Feels Loose:**
  - Check that the locking knob on the suction cup base is fully tightened.
  - Ensure all adjustable joints are securely fastened.

8. Specifications

Feature	Detail
Model Number	LP970
Magnetic Force	2500gf (22 N55 Magnets)
