VGR 880T

VGR 880T Professional Hair Trimmer Instruction Manual

Model: 880T | Brand: VGR

INTRODUCTION

This manual provides detailed instructions for the safe and effective use of your VGR 880T Professional Hair Trimmer. Designed for precision and versatility, this cordless trimmer features a 7200RPM BLDC motor, ceramic and MIM T-blade, and dual charging options. Please read this manual thoroughly before first use and keep it for future reference.

WHAT'S INCLUDED

Your VGR 880T Professional Hair Trimmer package includes the following items:

- VGR 880T Hair Trimmer
- 4 Guide Combs (1.5mm, 3mm, 4.5mm, 6mm)
- 1 Charging Base
- 1 USB Cable
- 1 Type-C Cable
- 1 Cleaning Brush
- 1 Bottle of Lubricating Oil

SETUP

1. Initial Charge

Before first use, fully charge your VGR 880T trimmer. The device is equipped with a 2500mAh lithium-ion battery. Charging takes approximately 3 hours for a full charge, providing up to 200 minutes of continuous use.

1. **Using the Charging Base:** Connect the USB or Type-C cable to the charging base, then place the trimmer onto the base.
2. **Direct Charging:** Alternatively, plug the USB or Type-C cable directly into the trimmer's charging port.

The LED display will indicate the battery life and charging status.

2. Attaching Guide Combs

Select the desired guide comb (1.5mm, 3mm, 4.5mm, or 6mm) for your preferred cutting length. Align the comb with the trimmer blade and push it firmly until it clicks into place.

GUIDE COMBS

The length of the cut is shown on the guide combs

OPERATING INSTRUCTIONS

1. Powering On/Off

Press the On/Off button located on the trimmer's body to power it on or off. The LED display will activate upon powering on.

2. Trimming Techniques

For best results, ensure hair is clean and dry. Hold the trimmer with the blade flat against the skin or at a slight angle, moving against the direction of hair growth. Use smooth, even strokes.

- **Beard Trimming:** Start with a longer guide comb and gradually reduce the length until the desired style is achieved.
- **Hairlines and Detailing:** Remove the guide comb for zero-gap trimming to create crisp lines and precise detailing.

CERAMIC AND MIM BLADE

Ultra sharp ceramic moving blade superior
hardness metal injection molding fix blade

3. External Rotor BLDC Motor

The VGR 880T is equipped with an external rotor BLDC motor operating at 7200 RPM, providing consistent power for smooth and efficient cutting across all hair types. This motor design ensures high efficiency and low noise during operation.

MAINTENANCE

1. Cleaning the Blades

After each use, turn off and unplug the trimmer. Use the provided cleaning brush to remove any loose hairs from the blade and cutting head. For a more thorough cleaning, the blade can be carefully detached and rinsed under running water, ensuring it is completely dry before reattaching.

2. Lubricating the Blades

To maintain optimal performance and blade longevity, apply a few drops of the included lubricating oil to the blades after every few uses or as needed. Turn the trimmer on for a few seconds to allow the oil to distribute evenly.

3. Storage

Store the trimmer in a dry, cool place, away from direct sunlight and moisture. Ensure the trimmer is turned off and fully charged before storing for extended periods.

TROUBLESHOOTING

- **Trimmer not turning on:** Ensure the battery is charged. Connect the trimmer to the charger and allow it to charge for at least 30 minutes before attempting to power it on again.
- **Reduced cutting performance:** Clean the blades thoroughly to remove any accumulated hair or debris. Apply lubricating oil to the blades. If performance does not improve, the blades may need replacement.
- **Trimmer gets hot during use:** This can occur with prolonged use. Ensure blades are clean and lubricated. If overheating persists, discontinue use and allow the device to cool down.
- **Unusual noise:** Turn off the trimmer and inspect the blades for any obstructions or damage. Clean and lubricate the blades. If the noise continues, contact customer support.

SPECIFICATIONS

Brand	VGR
Model	880T
Color	White
Motor Speed	7200 RPM (External Rotor BLDC Motor)
Blade Material	Ceramic and Stainless Steel/Alloy Steel (MIM T-Blade)
Battery Type	Lithium Ion
Battery Capacity	2500mAh
Runtime	Up to 200 minutes
Charging Time	Approx. 3 hours
Charging Method	USB, Type-C, or Charging Base
Guide Combs Included	1.5mm, 3mm, 4.5mm, 6mm
Special Features	Cordless, Fast Charge, LED Display, Rechargeable

SAFETY INFORMATION

Please read and understand all safety instructions before using the VGR 880T Hair Trimmer to prevent injury or damage.

- Always keep the trimmer away from water sources.
- Avoid use on infants or children.
- Do not force the trimmer through thick or tangled hair to prevent injury.
- Keep the trimmer clean and dry to prevent electrical hazards.
- Always unplug the trimmer before cleaning or replacing parts.
- Do not use the trimmer if the cord is damaged or if it has been dropped in water.

- Always supervise children when using the trimmer.
- If the trimmer causes skin irritation, discontinue use and consult a doctor.
- Always use the trimmer in a well-lit area and avoid using it while sleeping or in a bath or shower.
- Always store the trimmer out of reach of children and pets.
