SETUP (ASSEMBLY INSTRUCTIONS)

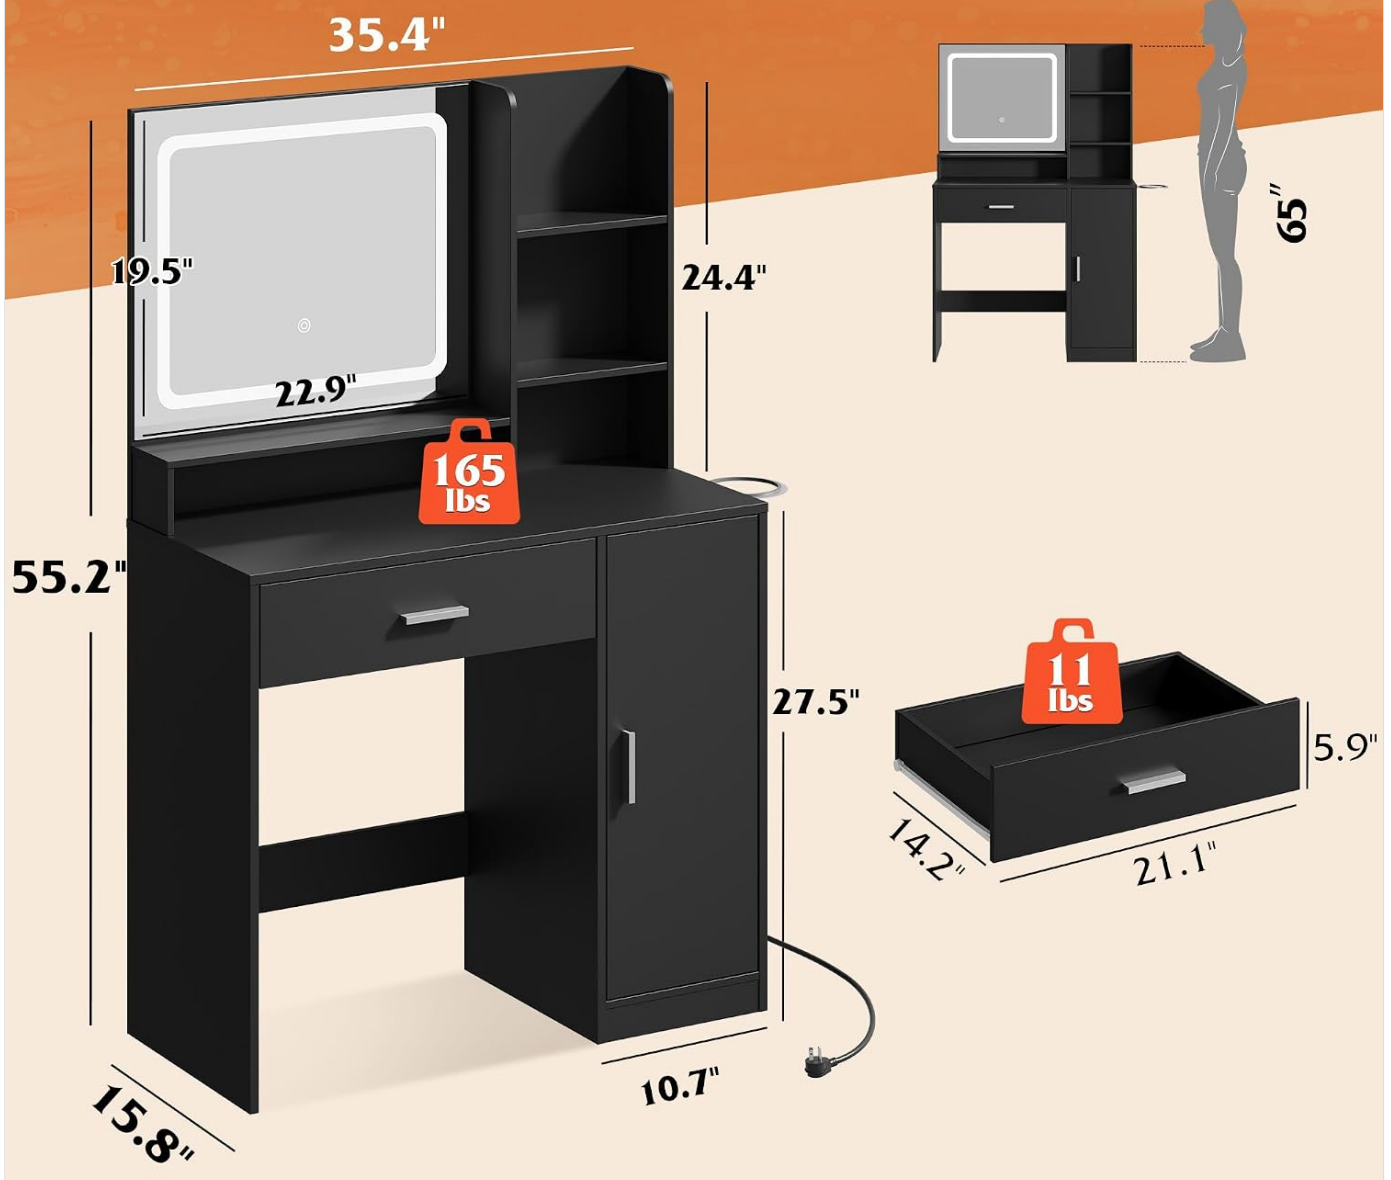

Assembly typically requires two people. Follow the numbered steps and refer to the included diagrams in your physical manual for visual guidance. The process involves constructing the main desk frame, installing the drawer and cabinet, attaching the mirror, and connecting the electrical components.

1. **Prepare the Workspace:** Clear a spacious area and lay out all parts on a soft surface to prevent damage. Identify all components and hardware.
2. **Assemble the Base Frame:** Connect the side panels to the bottom and back panels using the provided hardware (e.g., cam locks and dowels). Ensure all connections are secure.
3. **Install Drawer Slides:** Attach the drawer slides to the designated side panels of the desk frame and to the drawer box itself, ensuring they are level and aligned for smooth operation.
4. **Construct and Insert Drawer:** Assemble the drawer box, attach the front panel and handle, then carefully slide the assembled drawer into the installed slides.
5. **Assemble and Attach Cabinet:** Construct the cabinet section, including shelves and door. Attach the cabinet to the main desk frame.
6. **Mount the Mirror Unit:** Carefully place the mirror unit onto the designated area of the desk. Secure it using the provided screws and brackets. Ensure the mirror is stable and level.
7. **Install Charging Station and Hair Dryer Holder:** Attach the charging station unit to the side of the desk as indicated in the manual. Secure the hair dryer holder in its designated position.
8. **Connect Electrical Components:** Plug the LED mirror lights into the charging station's power outlet. Ensure all electrical connections are firm.
9. **Secure with Anti-Tip Kit:** Attach the anti-tip kit to the back of the vanity desk and to a wall stud, following the instructions provided with the kit. This is crucial for stability and safety.
