## Petony B0FDW7V4NL

# Petony 120"x 120" Outdoor Dog Enclosure Instruction Manual

Model: B0FDW7V4NL

Brand: Petony

## 1. INTRODUCTION

This manual provides comprehensive instructions for the assembly, safe operation, and maintenance of your Petony 120"x 120" Outdoor Dog Enclosure. Designed for durability and pet comfort, this heavy-duty kennel offers a secure and spacious environment for your dogs to play and rest outdoors.

Please read these instructions thoroughly before beginning assembly or use to ensure proper setup and long-term satisfaction.

## 2. SAFETY INFORMATION

- Always ensure all connections are securely fastened before allowing pets into the enclosure.
- Regularly inspect the enclosure for any signs of wear, damage, or loose components. Tighten or replace as necessary.
- The roof cover is designed for rain, dust, UV rays, and light snow protection. **Remove the cover during heavy snowfall** to prevent structural damage.
- Ensure the enclosure is anchored to the ground using the provided stakes to prevent movement or tipping, especially in windy conditions.
- Wear protective gloves during assembly to prevent scratches from wire mesh edges.
- This enclosure is intended for pets. Do not allow children to climb on or play unsupervised inside the enclosure.

## 3. PACKAGE CONTENTS

Verify that all components listed below are present and undamaged before starting assembly. Refer to the included part list diagram for visual identification.

- Galvanized Metal Frame Pipes (various lengths and bends)
- Steel Wire Mesh Panels
- PE Fabric Roof Cover
- Door Assembly with Secure Lock

- Ground Stakes
- Cable Ties (for securing mesh)
- Plastic Caps (for wire ends)
- Assembly Instructions Manual
- Gloves (for protection during assembly)
- Wrench, Hammer, Pincers, Tape Measure, Electric Screwdriver (recommended tools, some may be included)

**Durable  
Metal Bottom**

**Strong Button**

**Lockable  
Design Safety**

## 4. SETUP AND ASSEMBLY

Assembly typically requires two people and takes approximately 3 hours. Follow the step-by-step guide provided in the included manual. Ensure you have a clear, level area for assembly.

### 4.1. Unpacking and Sorting

Carefully unpack all components. It is recommended to sort the pipes and accessories according to their labels (e.g., B1, B2, C1) to streamline the assembly process.

# IT IS SUITABLE FOR ALL KINDS OF PETS

## 4.2. Frame Assembly

Begin by assembling the base frame using the designated pipes. Connect the vertical support pipes to form the main structure. Ensure all connections are tight and stable.

### 4.3. Mesh Installation

Unroll the steel wire mesh and attach it to the frame using the provided cable ties. Ensure the mesh is taut and securely fastened at all attachment points to prevent gaps or sagging. Install the plastic caps on any exposed wire ends to protect both pets and handlers.

### 4.4. Roof Cover and Door Installation

Place the PE fabric roof cover over the top frame and secure it using the elastic buckles or ties. Install the door assembly, ensuring the secure lock functions correctly. Finally, drive the ground stakes into the ground through the designated loops on the base frame to anchor the enclosure firmly.

## 5. USAGE

The Petony Outdoor Dog Enclosure provides a safe and spacious area for your pets. It is suitable for small, medium, and large dogs, offering an ideal space for training, resting, and outdoor play. The secure lock on the door ensures your pets remain safely contained.

## 6. MAINTENANCE

- **Cleaning:** Regularly clean the mesh and frame with mild soap and water. Rinse thoroughly and allow to air dry.
- **Roof Cover Care:** The PE fabric roof is waterproof and UV-resistant. Clean it periodically to remove dirt and debris. As noted in safety, remove the cover during heavy snowfall to prevent damage.
- **Inspection:** Periodically check all bolts, screws, and cable ties for tightness. Ensure the ground

stakes are firmly in place. Inspect the mesh for any sharp edges or damage that could harm your pet.

- **Rust Prevention:** The galvanized metal construction is designed to be rust-proof. However, prolonged exposure to harsh elements can affect its longevity. Consider applying a rust-inhibiting spray if signs of rust appear.

*Image: Close-up view highlighting the waterproof and UV-protective features of the enclosure's roof cover.*

## 7. TROUBLESHOOTING

- **Enclosure feels unstable:** Ensure all frame pipes are fully inserted and all screws are tightened. Verify that the ground stakes are securely driven into the ground.
- **Mesh is sagging or loose:** Re-tighten cable ties or add additional ties where necessary to ensure the mesh is taut against the frame.
- **Difficulty with door latch:** Check for any obstructions around the latch mechanism. Ensure the door frame is properly aligned and not warped.

## 8. SPECIFICATIONS

Feature	Detail
---------	--------

Product Dimensions	118"L x 118"W x 65"H
Material	Galvanized Metal, Steel Wire Mesh, PE Fabric (Roof)
Item Weight	110 pounds
Special Feature	Durable, Rust-proof, UV Protection, Waterproof Roof
Breed Recommendation	All Breed Sizes
Specific Uses	Outdoor
